Subject: design review thoughts - 8100 Valentine

This is a message for the Design Review Board concerning the housing development proposed at 8100 Valentine.

I would like to make sure that the Design Review Board will be considering what plans the developer has for the storage of items not usually kept inside a house: bicycles, ladders, garden tools, and misc junk etc. Since there are only carports, and not garages like every other home in the neighborhood, where will the residents keep these items so it does accumulate outside and look trashy.

Thank you for your consideration,

Catherine Murray
