

2/11/22

Dear Mayor Patrick Slayter,  
Seb. City Council members + Staff,

I support an OPT-IN policy. a pay to opt-out policy is punitive, discriminatory and against Sebastopol's general plan concerning smart meters.

Studies have shown EMF radiation can affect both people and animals with ↑ cancer risk, ↑ harmful free radicals, genetic damage..... adding more smart meters will increase EMF radiation in our area. This is a health danger for our community.

Please keep the meters we now have. use an OPT-IN for people wanting more water usage data.

Thank you

Sharon Kuper
