

Dear Council Members,

It has come to my attention there are discrepancies in the agenda as it was posted 72 hours before the meeting and as it stands now. There is also a typo that can be consequential in the council acting on issues.

Not only does Agenda Item 15 need to be pulled from the November 7, 2023 meeting but there needs to be an explanation to the public about what went on. If this council is truly committed to equity and transparency the public needs to know what has transpired behind the scenes.

As the Brown Act states: **Notice and agenda for the regular meeting must be posted 72 hours in advance.**

It seems as if you are in violation of the Brown Act, which is against Government Code section 54954.2.

Mary Cone
