Subject: Public Comment - Parklet
Date: Monday, November 06, 2023 7:51:30 AM

Don't remove the parklet, expand it! Tell CalTrans to focus on something else - like reducing through traffic or pedestrian improvements.

I and many other people use this daily! It needs to be EXPANDED with bike parking replacing the car spot between the parklet and the corner. It should also incorporate plantings.

I can't believe this, bureaucrats always find a way to kill joy. Push back hard! Also bring back the one at Screamin' Mimis.

I know many other people who feel the same way, they must not know that they can submit comment.
