It's time to pull on gloves and grab a bucket to pick up trash along the Laguna! Help us clean up the Sebastopol Laguna Wetlands Preserve before the rain starts falling and washes trash into our waterways and ocean.

Wear clothes and shoes that can get dirty. Please bring your own water bottle. Gloves, buckets and trash bags will also be provided. ***This event is suitable for all ages.*** Minors must be accompanied by an adult. We will provide snacks and refreshments.

Laguna Foundation Staff and Guides will also provide a dynamic and engaging educational component to the workday that will help volunteers learn more about the Laguna de Santa Rosa watershed, including the impacts of invasive species, the importance of native plants, and the natural and cultural history of the area. City of Sebastopol staff will be on hand help us haul out all of the trash and recyclables.
