To Our City Council,

Regarding Sebastopol City policy directives, AB 2446 and the Brown Act"

I wish to encourage you to develop as flexible a policy as possible within state mandates, to recognize, accommodate and respect the variety of needs and conditions of city volunteers as well as staff members.

As a Chairperson of a Sebastopol City Committee I want to be able to protect the health of myself and my family while still giving my time and energies our community. The greater the flexibility our City gives to *all* participants, the better for us all.

Thank you.
