

PAC mtg – 3-7-23

MMT – attending in accordance with AB2449, just cause

JEFF STRUCKER joined the meeting at 1:30 pm.

No minutes – continued to next mtg

5a. Paint out hate project – schedule is deadline of march 30, painting after that. 4 non-profits

(Library, Senior Center, Center of the Arts, Ives Pool). Roughly 210 (4x8) square of sidewalk. Have about 120 submissions right now. Next phase they are in are advocating /advertising through senior center to get good mix of adult and youth submissions.

Date for completion of installation – not yet, needs to happen after the April apple blossom festival. Have a June date targeted, need two dates to avoid people needing to be in the sidewalks. Have volunteers from each of the non-profits will be coordinating the work. Will have a maintenance budget for when needed to take care of this over time.

PAC support- tech questions helpful, advice helpful.

BA – help with volunteers?

LL – painting is the ‘event’ to me that’s more important than the after effects. That it stay for however long is not as important to me as the power of the event.

MR agreed given the community

RB – one idea would be to make it an on-going community event that gets renewed over time.

(JEFF STRUCKER joined the meeting)

LL asked/reiterated that this project was already okayed by Council, so this work is advisory for the PAC.

5b. sculpture garden 2023 call

MMT presented. Ideas include:

Invite existing sculptor to resubmit what has been installed to extend for another year

More sculpture pads?

Length of next call discussed.

PAC voted

JS agreed with idea of inventorying existing artists to see if they are interested in continuing.

BH – not a great idea to add more if can’t fill what is already there.

4 months needed for call at a minimum given last round.

RB - One idea – have the artists have their info on the SCforArts on the website for sale, we can just link to that.

JS made a motion that to leave the sculptures in the CSG there one additional year and discuss policy regarding the SC garden in the meantime, including calls for additional sculptures as needed, or adding more pads.

RB seconded.

Discussed logistics. Artist contact, etc. Such as overall limit (4 years, reply, etc) what happens if something is sold, backup list, etc. that could be discussed in interim.

5c. 3rd art commission
