Good morning Mary,

I have two questions for tonight's fire meeting:

**1. What does the ad hoc committee's calendar look like over the coming months in light of the two major events on the horizon and a key milestone:**

- **New Fire Chief**
- **New city manager**
- **County wide sales tax measure**

**Will there be future public report outs from our ad hoc committee after these hires and milestone on this calendar?**

**2. When will our fire department be in a viable condition to consider/start a merger with another local fire department in terms of staffing and equipment should that prove to be the best way forward based on verified, credible data and facts?**

Thank you!
