---

Dear City Council Members,

In this very challenging time, trying to support the many valuable organizations in our community while juggling a very limited budget no doubt feels like a difficult and thankless job.

Our senior center is an important resource for all ages.  
The many ways it contributes to a quality of life, trickles down to the community as a whole.  
This is an organization that helps us be the beautiful, special town it is.  
Please continue to support it.

Thank you for your hard work,  
Paula Brent
