

CITY OF SEBASTOPOL CITY COUNCIL
AGENDA ITEM REPORT FOR MEETING OF: October 1, 2024

=====

To: Honorable Mayor and City Councilmembers
From: Councilmember Maurer and Mayor Rich
 Responsible Department: Public Works Department/City Management
Subject: Consideration of Approval of Waiver of Special Event Permit Fees for the Trashlantis (An Active Transport, Zero-Waste, Music+ Eco-Festival); Total Permit Fees: \$825.00 and City Sponsorship of Event

=====

RECOMMENDATIONS:

That the City Council Approve Waiver of Special Event Permit Fees for the Trashlantis (An Active Transport, Zero-Waste, Music+ Eco-Festival) in the amount of \$825.00 and co sponsor the event.

EXECUTIVE SUMMARY:

The City of Sebastopol has eliminated funding to the Community Benefit Grants Program as well as the City Sponsorship Program. These were programs that either provided funding to nonprofits or sponsored events to help defray costs. Although the City Council has suspended the policy for fee waivers, as well as City sponsorships and the Community Benefit Grant programs, this fee or sponsorship of these types of events provides an excellent opportunity for the City of Sebastopol to support events and in this particular event, to promote the values of the City of Sebastopol:

- committing to ongoing actions to restore a safe environment.
- improving "downstream" reuse and recycling of end-of-life products and materials to ensure their highest and best use
- Pursuing "upstream" re-design strategies to reduce the volume and toxicity of discarded products and materials and promote less wasteful lifestyles
- Fostering and supporting the use of discarded products and materials to stimulate and drive local economic workforce development
- preserving land for sustainable development and green industry infrastructure

BACKGROUND AND DISCUSSION:

Trashlantis is a DIY, grass-roots, free immersive experiential discovery festival. Per their website, it promotes:

- Located near two major Sonoma bike trails
- Ride your bike as it parades through town on a 10k rally
- Park your bike in our hosted bike parking corral, bring your own camp chair and stay at the festival and Trashlantean Fashion Pageant
- Bring your own utensils
- Celebrating the creative, innovative ways to embrace a zero waste future with activities and events showcasing artists and the emerging technologies and businesses who are repurposing, recycling and developing zero waste packaging and durable goods
- At the conclusion, deconstruct the venue by sorting materials into their proper bins so they can re-enter the resource stream

The "Trashlantis" event will be held in Sebastopol outside adjacent to the Youth Annex on Saturday October 26 from 11-5pm. This will be a fun, creative, educational and free event with music, art, trash fashion beauty pageant, scavenger hunt, fix-it clinic, and a creative bike upcycle rally.

“Trashlantis is a free immersive experiential discovery festival celebrating the creative, innovative ways we can embrace a zero waste future with workshops, activities and events showcasing artists, climate action changemakers, and the emerging technologies and businesses who are repurposing, recycling and developing zero waste packaging and durable goods.

Councilmember Analysis:

Per the approval letter (attached), the applicant must provide the following: 2 porta toilets and 2 ADA toilets and one handwashing station.

Originally, it was thought that if the City sponsored this event, the applicant would be able to use one of the ten free events per the City of Sebastopol’s current franchise agreement with Recology that provides for solid waste and recycling containers and services. It was thought that porta potties is a service provided by Recology but after confirmation with Recology, it is not. The cost to rent the items as required for this event would amount to \$915.00.

If the City of Sebastopol approves the waiver of fees in the amount of \$825.00, it would help to offset the costs of the City requirements for porta potties. It is also requested that the City co-sponsor the event. Per the suspended co-sponsorship, the City Sponsorship is an exchange of financial or in-kind support of an event for mutual marketing. Community sponsorships can be an effective means to identify the event with the City and building community partnerships while raising revenue. A sponsorship is any monetary or in-kind support from the City (City logo, City staff time, public safety services, and the use of City facilities or property, event permit fees, etc.) to the organizing agency that helps offset the costs of the event operations.

COMMUNITY OUTREACH:

This item has been noticed in accordance with the Ralph M. Brown Act and was available for public viewing and review at least 72 hours prior to schedule meeting date. The City has also used social media to promote and advertise the City Council Meeting Agenda Items.

FISCAL IMPACT:

The City would reimburse the applicant \$825 which they have already paid to the City. The applicant has also submitted a \$1000 refundable deposit.

RESTATED RECOMMENDATION:

That the City Council Approve Waiver of Special Event Permit Fees for the Trashlantis (An Active Transport, Zero-Waste, Music+ Eco-Festival) and co sponsor the event.

CITY COUNCIL OPTIONS:

1. That the City Council approve the waiver of fees at a reduced amount; and co sponsor the event
2. That the Council deny the request for waiver of fees and sponsorship of event.

Event applications submitted less than 30 days prior to the event may not be approved.

Insurance Requirements

As a condition of use of City of Sebastopol facilities or programs, your organization must provide, at your sole expense, each of the following items as indicated:

Proof of insurance comprised of a certificate of insurance and original policy endorsement of comprehensive general liability insurance written by one or more responsible insurance companies licensed to do business in California. This coverage requires the following:

1. The **City of Sebastopol, its officers, officials, employees and volunteers** are to be named as additional insured by endorsement against liability for injury to persons, damages to property and for the death of a person or persons arising or resulting from any act or omission on the part of your organization, its agents or employees.
2. Liability coverage is required for claims made by participants in your event/program. You are advised that any and all exclusions pertaining to athletic or recreational event/programs must be disclosed in the endorsement, and failure to do so will not necessarily insulate your organization from individual liability for claims made as a result of the use of the facilities and your event/program.
3. The insurance provided must be **PRIMARY** with respect to the additional insured named above. Any other insurance available to the **City of Sebastopol, its officers, officials, employees and volunteers** must be excess and noncontributing. A Primary Non-Contributory Endorsement is required.
4. The comprehensive general liability insurance policy limits of such insurance shall not be less than **\$2,000,000 per occurrence for bodily injury, personal injury and property damage.** Please note the City may require an increase in policy limits due to the nature of the event.

- a. Any deductible or self-insured retention must be identified and approved by the City. In the event the deductible is deemed to be too great, the City may require you to have your insurer eliminate the deductible or reduce it.
- 5. You must satisfy these requirements by furnishing the City with certificates of insurance and endorsements affecting the required coverage. The certificates and endorsements are to be on ISO-approved forms.

Note: Please inform your insurance agent that a “Certificate of Insurance” on Form Accord 25 by itself is not sufficient. A certificate of endorsement naming the **City of Sebastopol, its officers, officials, employees and volunteers** as additional insured is required.

The City will *not* accept a certificate of insurance alone as proof of insurance coverage. The City will *not* accept the wording listed below in the Description of Operations box on the certificate of insurance.

The original endorsement must specifically list the following:

“The **City of Sebastopol, its officers, officials, employees and volunteers** are additional insured against liability for injury to persons, damages to property and for the death of a person or persons arising or resulting from any act or omission on the part of your organization, its agents or employees.

This insurance is primary with respect to the additional insured named above. Any other insurance available to the City of Sebastopol, its officers, officials, employees and volunteers shall be excess and noncontributing.”

- 6. If alcohol is to be sold, the proof of insurance must contain liquor liability and must be satisfactory to the City.

You are strongly urged to show this Notice of Conditions (including the precise wording of these insurance requirements) to your insurance agent or broker. Doing so will help you, your agent, and the City process the proper documents in a timely manner.

You must provide the City with the required endorsements 10 days prior to the start of your event/program. Each endorsement shall be subject to approval by the City of Sebastopol as to form and as to insurance company.

Please sign and return this original Notice of Conditions to indicate your receipt and understanding of each of the conditions listed above.

CITY OF SEBASTOPOL

ZERO WASTE APPLICATION FOR EVENTS

Submit minimum 30 days prior to event

- Events in Sebastopol with food or beverage vendors or providers must submit a Zero Waste plan as part of the permit application.
- All events in Sebastopol are required to recycle and compost as per state laws AB 341 and AB 1826
- Events are strongly encouraged to use 100% reusables for food service ware. If disposables are chosen, they need to comply with City of Sebastopol Event Food Service Ware Requirements for Vendors

Vendor compliance

- We recommend that you fine vendors (or collect a security deposit prior to the event) for unclean booths or compost/ recycling contamination.

Failure to comply with the requirements outlined in this application could result in increased fees or denial of future permit applications.

Thank you for helping Sebastopol meet its Zero Waste goals!

Waste Diversion Hierarchy

Attachments to Submit with this Application

Attach to the following documents to this application:

- Signed copies of City of Sebastopol Event Food Service Ware Requirements for Vendors from **each vendor** who will be present at your event
 - Letter from Recology showing proof of garbage, recycling, and compost services
- OR-**
- Letter from an event greener (see list in "Resources" section)

Food and Drink Service Ware at Event

- Events are strongly encouraged to use 100% reusables for food service ware, if disposables are chosen, they need to comply with City of Sebastopol Event Food Service Ware Requirements for Vendors
- List the reusable food service ware that will be used at your event (i.e: glass cups, metal cutlery, fabric tablecloths, etc):

We will be heavily promoting this event as a "bring your own" food service ware.

Aluminum cups will be provided for beer and wine sales

- Plastic bottled water sales and distribution is prohibited (no plastic water bottles under 1 gallon)

- o It is recommended that event promoters contract with a water station provider and encourage their attendees to bring personal refillable water bottles. If cups are provided at the water station, they must be uncoated, compostable paper cups. (See examples in "Resources" section).

Describe your plan for drinking water available at the event:

Water bottle refill stations. See map

Zero Waste Plan

- Hire an event greener to make a zero-waste plan that complies with guidelines, or
- Consult with the Recology Waste Zero team to ensure your employee or volunteer-run plan complies with guidelines below. (**Recology Sonoma-Marin Waste Zero Specialist** contact: Ambrosia Thomson (707) 291-8652, athomson@recology.com)

I. Compost/ Recycling/ Garbage stations ("Zero Waste" stations)

At least 2 weeks prior to the event, contact Recology to order trash, composting, and recycling collection services, which can include debris boxes, event boxes or containers:

(recology.com/recology-sonoma-marin/event-services/)

A. Each Zero Waste Station must include Compost, Recycle, and Garbage grouped together. These Zero Waste Stations must be placed in convenient locations with clear and identifiable signage: blue for recyclables, green for compost, gray for garbage (landfill).

1. Borrow signs from Recology (contact Waste Zero Specialist Ambrosia Thompson athomson@recology.com, or download signage on [Recology Event Services website](https://www.recology.com/recology-sonoma-marin/event-services/): <https://www.recology.com/recology-sonoma-marin/event-services/>)

B. There should be no stand-alone trash bins.

C. How many compost/recycling/ garbage stations will your event have? 6

1. Where will the stations be located? Attach map or give description of locations.

See Map.

2. If you are ordering large compost/ recycle/ garbage dumpsters from Recology, when and how will material be transported from recycling/composting stations to these dumpsters? (Note: If you are using rolling carts, place them out on the curb after the event and Recology will pick them up there).

Bins will be monitored and renewed as needed. Bagged waste will be accumulated in a central location and displayed to demonstrate to attendees the volume of waste generated. After the event trash sculptures and bagged waste will be transported by hand into proper dumpsters.

- a) Bins should be labeled "Compost," "Recycle," or "Landfill" and locked after event is finished.

- D. Describe your plan to monitor the Zero Waste Stations to ensure that attendees place items in the correct bin (e.g., volunteers, employees, or event greener employees will staff each waste station), It is recommended that you have a volunteer or employee standing by each waste station at all times to help patrons sort their waste:

This is a primary goal of the event. We will have volunteers in Trashlantis costumes assisting festival attendees to choose the correct bin for their waste.

- 1. How will you train vendors/janitorial staff/volunteers so that they know what materials go to compost, recycle, or garbage?

We will have an info night prior to the event and offer incentives to participate and retain the transferred knowledge. We will have reinforcement training on the day of the event. Volunteers will be instructed to not engage with people who are belligerent about separating waste.

II. Leftover food and used cooking oil

- A. Unserved, leftover food from vendors can be donated to Sonoma Food Runners a local organization that distributes food to the hungry. Contact prior to your event to arrange pick up. June Michaels (707) 596-8711, sonomafoodrunners.org.
- B. Post-consumer food scraps can be donated to a local pig farmer instead of going to compost. See "Resources" section for list of farms.
- C. Vendors must remove all cooking grease and oil away from event. See "Resources" section for organizations that pick up cooking oil for recycling into biodiesel fuel.

III. Other ways your event is working to reduce garbage

- A. Purchase your event inventory around waste prevention.
 - 1. How are you limiting the number of giveaways (i.e. free samples, paper fliers) and/or making sure your giveaways are durable/reusable, recyclable or compostable?

Our "give-aways" will be Trashlantis dollars which will be exchanged for locally produced durable goods such as wallets made from firehose and tiaras made from materials diverted from the waste stream.

- 2. Ensure that all items purchased (banners, display materials, operational materials, etc.) are reusable, recyclable, or truly compostable. If this is an annual event, consider leaving date off of materials so that they can be used again for years to come.
- B. Events must include "eco message" in promotional materials. Example: "We are striving for zero waste at the event. Please bring your own reusable waterbottle, cup, and utensil/cutlery set".

- 1. What "eco message" will you use?

Trashlanteans need more plastic to expand their civilization beneath the Great Pacific Garbage Patch! They are invading dryland and are coming for YOUR plastic!

- 2. Where will this message be displayed (fliers, website, facebook event page, etc)?

Fliers, YouTube, TikTok, Website, EventBrite, Facebook event page, etc

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). STORM WATER POLLUTION PREVENTION AT PUBLIC EVENTS

Sebastopol's calendar is busy all year with a wide variety of community events in our City parks and public spaces, including festivals, concerts, outdoor markets, holiday and other gatherings.

If you are organizing one of these events, it is important that you make sure that Best Management Practices are put in place to prevent stormwater pollution during your event. Remember, in any outdoor area, improper practices such as washing or storage of materials or improper disposal of waste materials into the storm drain system, are sources of storm water pollution. Rainfall and runoff can be contaminated by materials spilled, leaked, or mislaid. Pollutants of concern at events where food is produced or sold, include sediment, oil and grease, organic materials and bacteria, and toxics such as cleaning products.

You should have a plan to prevent Storm Water Pollution from your event by following Best Management Practices (BMPs) and make sure that all participants and vendors are aware of the importance of protecting our watershed by eliminating improper discharges to storm drains.

Here are some ways to assure that pollution from your event does not reach local waterways.

STORAGE (CONTAINERS)

- ◆ Use non-corrosive, non-leaking, durable containers. Always use tightly sealed containers.
- ◆ Inspect the external condition of containers. Look for leaks, corrosion, or other damage.
- ◆ Store containers on an impervious surface or cover with weighted tarps or awnings.

WASTE STORAGE AND DISPOSAL

- ◆ Always contain waste in dumpsters, drums, or bags. Double bag leaky rubbish.
- ◆ Store trash and other pollutant materials in a manner that prevents contact with rain (in a container with a closed lid or under cover).
- ◆ Store all organic wastes (including food) under cover on an impervious surface until transfer to a landfill or composting facility.

PREVENT SPILLS AND UNLAWFUL DISCHARGES TO THE STORM DRAIN SYSTEM

- ◆ Never allow vendors or other participants to dump any materials into the storm drain system. This includes water, melted ice or 'leftovers' from food storage or displays.
- ◆ Sweep-up trash and debris to prevent it from being washed into the storm drain when it rains.
- ◆ Never wash down areas where spills have occurred by flushing with water into the street or storm drain. Use "dry spill cleanup" methods instead.
- ◆ Segregate and dispose of all hazardous waste as per state law.

City of Sebastopol Event Food Service Ware Requirements for Vendors

❖ Permit applications must have signed copies of this document from each participating vendor

General Guidelines:

- Events are strongly encouraged to use 100% reusable food service ware.
- All items must be reusable, recyclable, or a fiber-based compostable product (see below for allowed items).
- Promotional materials should encourage attendees to bring their own reusable water bottle, cup, plate, and cutlery.
- Single-use plastics and “compostable” plastics (PLA) are prohibited (including plastic bottled water). Exception: #1 PETE clear plastic cups.

Waste Diversion Hierarchy

ALLOWED

Compostable Items*:

- Uncoated white/natural plant fiber & paper products (straws, bowls, deli boats, etc.) including bagasse products (sugar cane fiber)
- Uncoated white/natural deli paper & parchment paper
- Paper napkins/towels (any color).
- 100% wood or bamboo products (cutlery, chopsticks, stirring sticks, etc.)

Recyclable Items:

- Aluminum cans & (clean) foil
- Glass bottles and jars (empty with lids on)
- #1 PETE clear plastic cups

Paper “hot cups”

Important: Coated paper cups are not currently accepted in the compost or recycling streams in Sonoma County (even if they are labeled compostable). They must go in garbage.

*Must be accepted in the commercial compost stream in Sonoma County. If an item is not recyclable or compostable at our local facilities, it must be sent to the landfill as trash—even if it is labeled “compostable” or suppliers claim otherwise.

NOT ALLOWED

Single-use disposable plastic service ware:

- Single-use plastic utensils, clamshells, sides/dressing cups, lids
- Disposable plastic water bottles
- Plastic bags/plastic wrap
- Polystyrene (Styrofoam)
- Plastic Straws
- Sauce packets (ketchup, soy sauce, etc)

All #6 PS plastics, including non-foam plates and cups (prohibited under the Sebastopol polystyrene ordinance).

“Compostable” plant/bio-plastic products/ PLA plastics **

Coated paper food containers (If it has a shiny surface/moisture barrier, it is likely coated). Exception: paper coffee cups for hot beverages.

Foil for serving food in

- When food is served in foil, patrons often do not separate food scraps from the foil, resulting in a high contamination rate in compost receptacles.

**Although technically compostable in certain facilities, compost facilities serving Sonoma County do not currently accept these items; therefore, these products are not compostable in Sonoma County.

I have read the above and agree to only use food service ware from the “Allowed” column. I also agree to maintain my own “back of house” three-bin separation (compost/recycle/garbage) and empty my sorted waste into the appropriate compost, recycle, garbage receptacles at the end of the event.
