To the Sebastopol City Council members,

While I live in Rohnert Park, I have many friends who live in Sebastopol and frequently spend my time and spend my money in Sebastopol. I have actually danced for many tens of hours in the very room the council meetings are held. I hope you can feel the love that's been conjured up in that room. I am writing to urge you to pass a ceasefire resolution that prioritizes peace for all. If you are at all educated on the situation, there's really not much for me to say, as the history and current events speak for themselves. This history and your legacy will be remembered. Thank you for exercising your humanity by passing this resolution.

Tammy Jo McNulty
