Dear City Council People,

I am honored to have my name on the Sebastopol Living Peace Wall.  
I urge you to please pass the Gaza Ceasefire Resolution. The starving and killing of innocents has got to stop before anything else can be dealt with. As a mother and grandmother, my heart is heavy with what is happening to the children of Gaza and all other people. I want the hostages to return to their families safely. Please, be on the right side of humanity and history. Do the right thing and pass the Ceasefire Resolution.

Thank you.
