Dear City Counsel Members...I sincerely hope that it will be possible for you to continue funding the Sebastopol Senior Center...in the two years since I have been a member there I have seen the Center grow better and better...all staff members are positive and energetic, activities are many and varied and the new Harvest Cafe is an added plus...I attend the Center's art groups twice a week on average...they are stimulating and fun and I can perceive the positive benefits it has on all: enhanced creativity and confidence...please consider the Center in your ongoing efforts to deal with the budget crunch and best of luck!...with gratitude...Dave Berger
