It's so simple...

Keep killing Jews, you're gonna have war.

But this time, the Jews have guns.

Vote against Israel if you wish. So very brave of you.

They're a tiny country, just 0.16% of the Arab world. 8,000 square miles versus 5,000,000 square miles. I can see why Israel is a "threat."

Built on the horrific ashes of the holocaust.

Yet somehow Israel is the apartheid oppressor?

They have a right to live in peace.

And destroy anyone who wishes them harm.
