---

Dear Council Members,

Please continue your support to help retain part or all of the City's financial contribution to the Community Center. The funding from the City has helped to support classes, youth programs and cultural events and concerts which enrich, build and sustain our Sebastopol Community. Loneliness and stress are pervasive and epidemic in our times. The Community Center offers programs and events which greatly help people feel better about themselves and connect to others, building community. This is important. Thank you!

Respectfully,  
Diane Baines
