---

Please do not cut financial support to the Sebastopol Community Cultural Center!! It is one of the things that brings vibrancy and excitement to this City and provides a cultural "voice" we desperately need!! It helps make Sebastopol a "destination" for people outside the City. They come for the events. Ironically, if you cut support and the Center closes you will be reducing the positive financial impact it has on the City.

Thank you,  
Susan Larson
