I was very sad to hear that the Sebastopol City Council decided to table voting on supporting a Ceasefire as a means towards ending the genocide in Gaza.

I raised my children here because of the progressive values this county embodies in schools, in most of the local businesses, in agriculture, etc.

Voting in favor of a ceasefire -- like our neighbors in Rohnert Park did -- is in perfect alignment with these values. Interrupting the violence affecting the thousands of innocent Gazans, a population on the brink of starvation -- would be a step in the right direction.

We don't need to have answers to all the questions in order to do the right thing. We know people are being slaughtered and punished. We know genocide is wrong, and deescalation is right.

Thank you,
