Dear City Council Members

I urge you to continue the City of Sebastopol's financial support for the Senior Center. When I retired I struggled with the transition and the Senior Center provided a lifeline with its array of classes, workshops and events. The Center is a vibrant part of our community and open to all ages. I have been in classes at the Center where younger folks have participated and enjoyed the community. One of them said to me, "this is a happening place". Yes, it is. Please continue your investment in this "happening" place for all of Sebastopol.

Thank you,
Terry Garner
