Hi, I was on Zoom with you for one of the outbursts. I would like it changed to no zoom comments. I do feel that people can email thoughtful comments before and after meetings; that the public comments take too much time and make being on zoom long and tedious for those of us who want to stay in touch with Sebastopol issues; that it's not worth the filth that the zoom bombers do; but especially it makes me feel angry and frustrated to have our community representatives have to take up too much of their time and patience to listen to often repetitive and uneducated comments. thank you for asking for feedback. Marisa DeJoseph
