Hello,

I'm writing as a community member and music lover. Please be willing to work with the Porchfest organizers to make this year happen. Last year was so lovely and heart warming to see our community come together in a calm, peaceful way, just enjoying live music! The event brought neighbors together, supported local musicians, created a safe and family-friendly celebration, and strengthened our community bonds. It's a win win and we truly hope you'll consider the benefits of this event and work reasonably with them so it can happen again!

Thank you very much,

Katie B. Kandler
