# Eligibility vs Prioritization

Eligibility- The criteria that individual housing projects set to screen in prioritized households. CES does not set eligibility criteria.

Prioritization- The order that households are ranked in, which is used to match people with housing interventions. Prioritization is determined using assessments conducted by CES Access Points.

# Eligibility vs Prioritization

# Eligibility

Each housing provider has their own list of eligibility criteria based on:

- Chronic Homelessness requirement- required eligibility for PSH, which is the highest level of housing intervention within the system. This requirement is set by HUD.
- Property management criteria- background check status, income limits
- Funding stream contract criteria- some funding sources have their own eligibility criteria. Local funding could, for example, requires all referred matches to be high emergency service utilizers or enrolled in Sonoma County Behavioral Health services.

# Prioritization

Ranks households based on urgency and vulnerability to allocate housing resources

Current Coordinated Entry Vulnerability Factors:

- Length of time homeless
- Increased risk of death/ severe health conditions
- Increased risk of victimization
- Institutional utilization

# Housing Match Referrals

At CES Case Conference the proposed referral is reviewed and confirmed based on prioritization and known eligibility. Providers present at meeting, including clinicians, help assign staff for eligibility coordination. Prospective referral rejections are reviewed for approval.

CE staff send referral to housing provider in HMIS.  
CE staff send referral connection email, connecting all assigned staff with housing provider.

Housing providers contact assigned staff and participant with referral, to offer opportunity and collect remaining eligibility documentation.

If participant with referral is found ineligible or there is a challenge with referral - housing provider brings this to Case Conference to problem-solve.

If participant is found eligible, referral is in HMIS and participant moves in.

# New Housing Providers

- CES and HMIS Training, sometimes Chronic Homelessness training
- CES Housing Provider Checklist
- Housing Packet
- Lease up support

# Gravenstein Commons

3-6 months before lease-up:

- CES assists housing provider to complete Housing Checklist steps
- SVDP sends eligibility criteria and details regarding units being filled
- CES creates Housing Packet entry
- CES contacted to start identifying potential housing match referrals

1-3 months before lease-up:

- CES collects preference and contact information for each identified referral
- CES identifies staff assigned to coordinate each household matched to collect documents
- CES begins sending housing match referrals
- CES assists with problem solving referrals not working out
- CES replaces ineligible referrals
