City Council
City of Sebastopol
7120 Bodega Ave
Sebastopol, CA 95472

Dear Honorable Members of the Sebastopol City Council,

I am writing to express my strong support for retaining Recology as the City of Sebastopol's garbage and recycling service provider. As a long-standing member of our community, I have seen firsthand the positive impact Recology has had on our city's waste management and sustainability efforts.

Recology has consistently demonstrated a commitment to environmental stewardship, customer service, and community involvement. Their innovative recycling and composting programs have helped Sebastopol maintain its reputation as a leader in environmental sustainability. These programs not only reduce landfill waste but also educate residents and businesses about the importance of responsible waste management.

Moreover, Recology's deep-rooted connection to our community sets them apart. Their team is responsive, professional, and always willing to go the extra mile to address concerns and provide reliable service. This level of dedication fosters trust and ensures that our waste management needs are met efficiently and effectively.

Changing service providers could potentially disrupt the progress we have made in sustainability and waste reduction. Transitioning to a new provider may also lead to unforeseen costs and challenges that could burden residents and businesses alike.

I urge the City Council to carefully consider the value Recology brings to our community and vote to retain them as Sebastopol's garbage and recycling service provider. Their proven track record, commitment to sustainability, and exceptional service make them the ideal partner for our city.

Thank you for your time and dedication to our community. I trust that you will make a decision that upholds the best interests of Sebastopol and its residents.

Sincerely,

Angie Lewis
