2. PLANS AND SPECIFICATIONS

2.1 Description of the Boundaries

The District encompasses the City boundaries. The District Boundary Map is included in Appendix A. Please note that the lines and dimensions of each parcel, as well as the distinctive assessment number, are shown on the Assessor's Maps for the City of Sebastopol available at the Sonoma County (the "County") Assessor's Office.

The formation Report and said resolutions, on file with the City Clerk, as well as the County Assessor's maps of the areas for the current fiscal year are incorporated by reference herein and made part of this Report.

2.2 Description of Improvements and Services

The improvements and services of the District are the operation and maintenance of the City-wide streetlight system located in the public rights-of-way. Maintenance may include replacement of damaged facilities and other allowable items per Section 22531 of the California Streets and Highways Code for the life of the District. Details of the plans and specifications of the City's streetlight system are on file with the City and incorporated into this Report by reference.

3. METHOD OF APPORTIONMENT

3.1 Landscaping and Lighting Act of 1972

Pursuant to the Landscaping and Lighting Act of 1972 and Article XIII D of the California Constitution, parcels that have a special benefit conferred upon them as a result of the maintenance and operation of the improvements and services shall be identified, and the proportionate special benefit derived by each identified parcel shall be determined in relationship to the entire costs of the maintenance and operation of the improvements and services. The Act permits the establishment of assessment districts for the purpose of providing maintenance and operation of certain improvements which include the operation, maintenance and servicing of lighting improvements.

Section 22573 of the Act requires that maintenance assessments must be levied according to benefit rather than according to assessed value. This Section states:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefit to be received by each such lot or parcel from the improvements."

"The determination of whether or not a lot or parcel will benefit from the improvements shall be made pursuant to the Improvement Act of 1911 (Division 7 (commencing with Section 5000) [of the Streets and Highways Code, State of California])."

The following table provides the actual levy rates per ESD for the last five fiscal years:

Fiscal Year	Actual Rate per ESD
2021/22	\$25.00
2022/23	32.00
2023/24	32.00
2024/25	32.00
2025/26	35.00

3.2 Special Benefit

Pursuant to Article XIII D of the California Constitution, Section 2(i) "Special benefit means a particular and distinct benefit over and above the general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute special benefit."

All parcels that have special benefit conferred upon them as a result of the maintenance and operations of the improvements and services provided shall be identified, and the proportionate special benefit derived by each identified parcel shall be determined in relationship to the entire cost of the maintenance and operations of the improvements and services.

In accordance with Article XIII D of the California Constitution, Section 4(a) "No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel."

3.3 Method of Assessment

The method of assessment for the District assigns parcels within the District to an Equivalent Single-Family Dwelling (ESD) unit use, or portion thereof. Every property within the District receives special benefits from the streetlights being maintained and energized nightly by increased driving safety within the City limits, increased pedestrian safety when traveling at night, and increased personal property safety from the presence of lit areas. The typical method of assessing vacant parcels within other assessment districts, is to assess the land for its highest and best use. Because no dwelling units or industrial/commercial developments exist on vacant land, it was felt that the vacant land assessment should be reduced to half a unit.

The following table shows the ESD units assigned to parcel types which reflect the relative benefit within the District.

Parcel Type	ESD Units
Vacant parcel	½ unit
Single dwelling parcel	1 unit
Multiple dwelling units parcels	1 unit per dwelling
Commercial parcel with no dwelling units	1 unit
Commercial parcels with dwelling units	1 unit + 1 unit per dwelling unit
Industrial parcel with no dwelling units	1 unit
Industrial parcel with dwelling unit	1 unit + 1 unit per dwelling unit

The proposed annual assessment per ESD unit is determined by dividing the District’s street lighting maintenance budget by the total number of ESD units within the District, then apportioning to each parcel in the District based on assigned ESD units.

No charges shall be imposed upon a federal, state or local government agency property that does not receive a benefit from streetlights, upon a parcel without a dwelling used exclusively for greenbelt or open space, or upon the common area of any planned unit development. By virtue of the fact that this existing District is exempt from the operation of Proposition 218, Article XIII D, Section 5(a), public agency property that was not assessed in previous years shall not require any action to be included in the District, as long as the assessment is not increased beyond it's highest rate prior to 1996.

In the case of a railroad, gas, water, or electric utility right-of-way or electric line right-of-way included within the District, they shall be subject to the assessment only if, and to the extent that, it is found to benefit from the provision of streetlights.

4. ESTIMATE OF COSTS AND RESERVE FUND

5. ASSESSMENTS

Assessments were levied in Fiscal Years 1981/82 and 1982/83. The City Council then elected not to levy in Fiscal Years 1983/84 through 1995/96. The assessments have been levied annually since Fiscal Year 1996/97.

A list of the amount of actual assessments for Fiscal Year 2025/26 apportioned to each parcel, as shown on the latest equalized roll of the County Assessor, may be found in Appendix B. The description of each lot or parcel is part of the records of the County Assessor and such records are, by reference, made part of this Report.

5.1 Fiscal Year 2025/26 Assessment

The calculated assessment rate to cover operating costs only, as well as a calculated assessment rate will fully fund the Reserve Fund of 50% of the prior year’s levy, is shown below.

Total 2025/26 Operating Cost	\$139,278.00
Total Collection for Reserves	862.00
Total ESD Units	4,004.00
2025/26 Actual Assessment Rate ⁽¹⁾	\$35.00
2025/26 Assessment Revenue	\$140,140.00

(1) Provided by the District.

In addition to fully covering the estimated operating costs, the Fiscal Year 2025/26 assessment will contribute approximately \$862.00 to the Reserve Fund.

APPENDIX B - ASSESSMENT ROLL

The following pages contain the Fiscal Year 2025/26 assessment roll for the District, as referenced in the Report.

Assessor's parcel identification, for each lot or parcel within the District, shall be based on the County Assessor's secured roll data for the applicable year in which this Report is prepared and is incorporated herein by reference.

A listing of assessor's parcels assessed within the District for Fiscal Year 2025/26, along with the assessment amounts, is on file in the office of the City Clerk and incorporated herein by reference. Based on County Assessor's secured roll data, current assessor's parcels, including corrected and/or new assessor's parcels, will be submitted and/or resubmitted to the County Auditor/Controller. The annual assessment amount to be levied and collected for the resubmitted parcel(s) shall be determined in accordance with the method of apportionment and assessment rate approved in this Report. Therefore, if a single assessor's parcel has a status change in development, other land use change, or subdivides into multiple assessor's parcels, the assessment amounts applied to each of the new assessor's parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment amount.
