

## City of Sebastopol Planning Commission Staff Report

Meeting Date: May 26, 2026  
Agenda Item: General Plan Consistency for the City of Sebastopol Capital Improvement Plan for Fiscal Year 2026-27  
To: Planning Commission  
From: Oriana Hart, Public Works Director  
Jane Riley, Interim Planning Director  
Subject: Capital Improvement Plan for Fiscal Year 2026-27  
Recommendation: Adopt a Resolution finding that the proposed Capital Improvement Plan for Fiscal Year 2026-27 is consistent with the General Plan

### **Introduction:**

The City of Sebastopol Capital Improvement Program (CIP) is a five-year program and the annual Capital Improvement Plan for Fiscal Year 2026-27 is Year 1 of the five-year CIP and outlines public improvements and estimated expenditures to construct improvements. The new Year 1 projects are identified in the attached Draft Proposed CIP (see **bolded** projects on the Table of Contents).

### **Project Description:**

The projects are listed in the Capital Improvement Plan for Fiscal Year 2026-27 included in the Draft Proposed five-year CIP (see Attachment). The State of California Government Code Section 65401 requires the City's Planning Commission review the Capital Improvement Plan for consistency with the City's adopted General Plan prior to final adoption by the City Council. The General Plan Goals and Policies pertaining to the Fiscal Year 2026-27 Capital Improvement Plan are shown in the table in this report.

### **Project Location and Surrounding Land Uses:**

See project locations in the attached five-year CIP.

### **General Plan Consistency:**

Staff has reviewed the projects and determined which General Plan goals and/or policies apply to specific projects included in the Capital Improvement Plan for Fiscal Year 2025-26 (See attachments). Each project and applicable goal or policy can be found in the CIP attachment.

These General Plan Goals and policies are also included in the table on the following page:

Reference No.	General Plan Goals and Policies
CIR 1-2	Ensure that the City’s circulation network is a well-connected system of streets, roads, sidewalks, multi-use trails, routes, and paths that effectively accommodates vehicular and non-vehicular traffic in a manner that considers the context of surrounding land uses and the needs of all roadway users.
CIR 1-11	Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.
CIR 2	Maintain and expand a safe and efficient pedestrian, bicycle and transit network that connects neighborhoods with key destinations to encourage travel by non-automobile modes while also improving public health.
CIR 2-2	Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.
CIR 2-7	Create and accessible circulation network that is consistent with guidelines established by the Americans with Disabilities Act (ADA), allowing mobility-impaired users such as the disabled and elderly to safely and effectively travel within and beyond the city.
CD 4-6	Increase the presence of art in public spaces throughout the city.
COS 3-3	Support rehabilitation of any culverted or open existing channelized waterways, as feasible, to remove concrete linings and allow for a connection between the stream channel and the natural water table. Avoid creating additional culverted or open channelized waterways, unless no other alternative is available to protect human health, safety, and welfare.
COS 6-4	Facilitate the preservation of existing trees, the planting of additional street trees, and the replanting of trees lost through disease, new construction or by other means.
CSF 1	Provide high quality community services, facilities, and infrastructure to all residents, businesses, and visitors in Sebastopol.
CSF 1-5	Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer Utility Master Plan, Stormwater Management Plan, and the Capital Improvement Program.
CSF 2-2	Ensure park and trail facilities are accessible to various segments of the population including: specific age groups, persons with special physical requirements, and groups interested in particular activities.
CSF 2-12	Encourage and solicit public participation in the selection, design, and facilities planning of all future trail and park sites.
CSF 2-21	Continue to provide support to local non-profits providing community recreational services on City-owned land operated by the non-profits, including Ives Pool, the Sebastopol Community Cultural Center, and the Burbank Experimental Farm.
CSF 4-8	Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.
CSF 5-8	Emphasize the use of physical site planning as an effective means of enhancing safety and preventing crime. Open spaces, landscaping, parking lots, parks, play areas and other public spaces shall be designed with maximum feasible visual exposure to community residents.
CSF 6-19	Recognize and appreciate the value that teens and the local youth provide to the character and vibrancy of the community, and strive to improve the services, facilities, and activities available to serve teens and local youth.
HE B-1	The maintenance and improvement of the quality of life of existing neighborhoods is a high priority for the City of Sebastopol.

Reference General Plan Goals and Policies No.	
HE B-2	Sebastopol will strive to maintain and preserve existing housing resources, including both affordable and market rate units.
HE B-3	Sebastopol will consider the feasibility of converting market rate housing units to affordable housing.
LU 7-3	Provide and maintain opportunities for community gathering and social interaction through cultural and art center, park facilities, the Laguna, and community centers.
SA 2-6	Maintain unobstructed water flow in the storm drainage system.

**Public Comment:**

This item was noticed in accordance with the Ralph M. Brown Act and was available for public viewing and review at least 72 hours prior to schedule meeting date.

No public comments have been received as of the writing of this staff report regarding General Plan consistency items.

**Recommendation:**

Staff recommends that the Planning Commission adopt the Resolution finding that the Capital Improvement Plan for Fiscal Year 2026-27 is consistent with the General Plan.

**Attachments:**

Planning Commission Resolution  
Draft Proposed CIP for FY 2026-27 to FY 2030-31

RESOLUTION NO. 2026-04

RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SEBASTOPOL FINDING  
THAT THE PROPOSED CAPITAL IMPROVEMENT PLAN  
FOR FISCAL YEAR 2026-27 IS CONSISTENT WITH THE ADOPTED GENERAL PLAN

WHEREAS, the City of Sebastopol completed a comprehensive General Plan update with adoption of a new General Plan on November 15, 2016; and

WHEREAS, pursuant to the California Environmental Quality Act (CEQA, codified at Public Resources Code § 21000 et seq.) and the State CEQA Guidelines (14 CCR, § 15000 et seq.), on November 15, 2016, the City Council certified and adopted an Environmental Impact Report (EIR) for the Sebastopol General Plan (the "Project"; State Clearinghouse No. 2016032001); and

WHEREAS, the State of California Government Code Section 65401 requires the City's Planning Commission review the Capital Improvement Plan for consistency with the City's adopted General Plan prior to final adoption by the City Council; and,

WHEREAS, the City of Sebastopol Capital Improvement Program (CIP) is a five-year program and the annual Capital Improvement Plan for Fiscal Year 2026-27 outlines public improvements and estimated expenditures to construct improvements; and

WHEREAS, on May 26, 2026, the Sebastopol Planning Commission held a duly noticed public meeting to review the Draft Proposed Capital Improvement Plan for Fiscal Year 2026-27 for consistency with the adopted General Plan, received a staff report, accepted public comment, and deliberated on the proposed projects;

WHEREAS, the City Council is tentatively scheduled to hold a duly noticed public hearing on June 2, 2026 and will subsequently consider adoption of the Capital Improvement Plan for Fiscal Year 2026-27.

NOW, THEREFORE, THE PLANNING COMMISSION DOES HEREBY ADOPT THIS RESOLUTION finding the proposed Capital Improvement Plan for Fiscal Year 2026-27 is consistent with the General Plan, and that the projects therein are consistent with the following General Plan Policies:

Reference No.	General Plan Goals and Policies
CIR 1-2	Ensure that the City's circulation network is a well-connected system of streets, roads, sidewalks, multi-use trails, routes, and paths that effectively accommodates vehicular and non-vehicular traffic in a manner that considers the context of surrounding land uses and the needs of all roadway users.
CIR 1-11	Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.
CIR 2	Maintain and expand a safe and efficient pedestrian, bicycle and transit network that connects neighborhoods with key destinations to encourage travel by non-automobile modes while also improving public health.
CIR 2-2	Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.
CIR 2-7	Create an accessible circulation network that is consistent with guidelines established by the Americans with Disabilities Act (ADA), allowing mobility-impaired users such as the disabled and elderly to safely and effectively travel within and beyond the city.
CD 4-6	Increase the presence of art in public spaces throughout the city.
COS 3-3	Support rehabilitation of any culverted or open existing channelized waterways, as feasible, to remove concrete linings and allow for a connection between the stream channel and the natural water table. Avoid creating additional culverted or open channelized waterways, unless no other alternative is available to protect human health, safety, and welfare.
COS 6-4	Facilitate the preservation of existing trees, the planting of additional street trees, and the replanting of trees lost through disease, new construction or by other means.
CSF 1	Provide high quality community services, facilities, and infrastructure to all residents, businesses, and visitors in Sebastopol.
CSF 1-5	Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer Utility Master Plan, Stormwater Management Plan, and the Capital Improvement Program.
CSF 2-2	Ensure park and trail facilities are accessible to various segments of the population including: specific age groups, persons with special physical requirements, and groups interested in particular activities.
CSF 2-12	Encourage and solicit public participation in the selection, design, and facilities planning of all future trail and park sites.
CSF 2-21	Continue to provide support to local non-profits providing community recreational services on City-owned land operated by the non-profits, including Ives Pool, the Sebastopol Community Cultural Center, and the Burbank Experimental Farm.
CSF 4-8	Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.
CSF 5-8	Emphasize the use of physical site planning as an effective means of enhancing safety and preventing crime. Open spaces, landscaping, parking lots, parks, play areas and other public spaces shall be designed with maximum feasible visual exposure to community residents.
CSF 6-19	Recognize and appreciate the value that teens and the local youth provide to the character and vibrancy of the community, and strive to improve the services, facilities, and activities available to serve teens and local youth.
HE B-1	The maintenance and improvement of the quality of life of existing neighborhoods is a high priority for the City of Sebastopol.

Reference No.	General Plan Goals and Policies
HE B-2	Sebastopol will strive to maintain and preserve existing housing resources, including both affordable and market rate units.
HE B-3	Sebastopol will consider the feasibility of converting market rate housing units to affordable housing.
LU 7-3	Provide and maintain opportunities for community gathering and social interaction through cultural and art center, park facilities, the Laguna, and community centers.
SA 2-6	Maintain unobstructed water flow in the storm drainage system.

**Project No: 0125-20.01**

**Category Bikes, Pedestrians & Safety**

**Project Location: Bodega Avenue, Ragle Road, Mill Station Road**

**DESCRIPTION:**

Provide bicycle lanes and sidewalks/pedestrian paths on Ragle Road - from Bodega Avenue to Mill Station Road; Mill Station Road - from Ragle Road to SR 116. This is a joint City/County endeavor. City applied for ATP grant in 2018 and again in 2022 but was not awarded. This project is updated to exclude the bike lanes on Bodega Ave since the City has already completed the segment from High Street to Nelson Way and recently completed the next phase up to Pleasant Hill Road, and from Valley View Drive to Atascadero Creek. This project is mostly on County right of way (approximately 75%) and the County will take the lead on applying for a grant for this project. This project is currently unfunded awaiting Sonoma County's lead direction on the project and pursuit of future grant.

**JUSTIFICATION:** Listed as a regional project with SCTA/Measure M Plan, MTC, and CTC. This project is current on hold pending the County's decision to move forward with this joint project (County is the Lead Agency).

**GENERAL PLAN Goals and Policies:** Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhoods with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31	
9100 - Pre-construction (design, ROW, Environ)						400,000	400,000
9200 - Construction							0
<b>EXPENDITURE TOTALS</b>						400,000	400,000
FUNDING SOURCES							PROJECT TOTAL
000-Unfunded						400,000	
211-Transp Grant - Go Sonoma (SCTA)							0
213-Traffic Impact Fee Fund (TIF)							0
<b>FUNDING TOTALS</b>						400,000	400,000

**Project No: 0131-23.01**

**Category Bikes, Pedestrians & Safety**

**Project Bodega Avenue from West End City**  
**Location: Limits to Valley View Drive**

**DESCRIPTION:** Replace short segment of existing guardrail along north side of Bodega Avenue east of the bridge, extend (new) approximately 340 lineal feet of guardrail system on north side of Bodega Avenue, and add/modify signage and pavement markings as appropriate. This is a project funded with Highway Safety Improvement Program (HSIP) cycle 11 funds (10% local match, max grant is \$312,300).

**JUSTIFICATION:** This segment of guardrail was identified as deficient (e.g. railing too low, outdated guardrail and end treatment systems) and in need of upgrades. This location was identified in the City's Local Road Safety Plan as an area with an increased number of lane departure collisions due to the narrow shoulder. Many vehicles drop off into the creek bed as the existing conditions do not provide adequate conditions for vehicles to recover. There is a significant drop off (around 1 foot) from the pavement to existing grade and unrecoverable side slopes of 2:1.

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-9: Consider all transportation improvements as opportunities to improve safety, access, and mobility for all roadway users and avoid dead-end streets and cul-de-sacs.

**Project No: 0132-23.02**

**Category Bikes, Pedestrians & Safety**

**Project Location: S Main/Burnett Streets; N Main Street/Keating Avenue; Gravenstein Hwy/Hutchins Avenue; Petaluma Avenue**

**DESCRIPTION:** Install pedestrian-activated circular LED rapid flashing beacons replacing existing standard flashing beacons; install perimeter lighted pedestrian crossing signs; install pedestrian push buttons; remove existing in-roadway warning lights. This project is primarily funded with a Highway Safety Improvement Program (HSIP Cycle 11) grant from the State.

**JUSTIFICATION:** SR 116 Traffic Corridor Safety Study shows these intersections meet warrant threshold for RRFBs.

**GENERAL PLAN Goals and Policies:** Circulation CIR 2-2: Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.

**Project No:** 0214-20.07

**Category:** Transition Plan ADA Projects

**Project Location:** City Hall

**DESCRIPTION:** ADA Upgrades to interior of City Hall. Exterior ADA site improvements have been completed by Public Works and this project will include additional signage. To save costs, Public Works staff will perform the accessibility improvements to the interior of City Hall which includes replacing existing doors, hardware, information board; remove/replace and/or relocate existing wall-hung information stand, existing electrical switches and receptacles, bathroom plumbing modifications, and post access and path of travel signs. **THIS PROJECT IS COMPLETED.**

**JUSTIFICATION:** Continue to construct improvements in accordance with the City's ADA transition plan.

**GENERAL PLAN Goals and Policies:** Circulation CIR 2-7: Create an accessible circulation network that is consistent with guidelines established by the Americans with Disabilities Act (ADA), allowing mobility-impaired users such as the disabled and elderly to safely and effectively travel within and beyond the city.

Community Services and Facilities CSF 1: Provide High Quality Community Services, Facilities, and Infrastructure to All Residents, Businesses, and Visitors in Sebastopol.

			410,500				410,500

**Project No: 0300-22.07**

**Category Housing Projects**

**Project Location: Various locations in the city**

**DESCRIPTION:** This program is a joint venture with the Sonoma County Housing Land Trust (HLT) to buy market rate units for sale on open market, deed restricting them through the HLT model to ensure affordability at a certain income level in perpetuity, and reselling to a qualifying household. The program would be funded through a Community Development Block Grant program application for a grant award.

**JUSTIFICATION:** This will support the City’s Sixth Cycle Housing Element as well as the current Element’s policy of preserving existing housing stock.

**GENERAL PLAN Goals and Policies:** Housing Element Goal B-2 Preserve Housing Resources -Sebastopol will strive to maintain and preserve existing housing resources, including both affordable and market rate units. HE Goal B-3 Expand Affordability Housing Opportunities Through the Use of Existing Housing– Sebastopol will consider the feasibility of converting market rate housing units to affordable housing. HE Policy B-5 Work with nonprofits to determine whether there are opportunities to expand the affordable housing supply by using formerly market rate properties.

**Project No: 0411-73.00**

**Category Parks Projects**

**Project Location: Laguna Wetlands Preserve**

**DESCRIPTION:** This trail extension project located in the Laguna Wetlands Preserve from the Sebastopol Lift Station to Sebastopol Avenue. Design and CEQA review are complete and the construction bid documents are being prepared. The project consists of constructing a trail extension, a pedestrian bridge at Zimpher Creek, improvements to the current trail segments, and addition of trail signs. **THIS PROJECT IS COMPLETED.**

**JUSTIFICATION:** The project closes a "critical" missing link in the Laguna Preserve trails system. This project would implement several components of the Laguna Preserve Management Plan. A Grant application from the Sonoma County Open Space District was submitted and awarded in late 2019 for this project, and there is a matching grant from the Laguna Foundation as part of the City's required match. The project was "down-scoped" from the original application in order to avoid wetlands impacts.

**GENERAL PLAN Goals and Policies:** Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhoods with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health.

<b>FUNDING TOTALS</b>	294,778						0

**Project No:** 0413-78.00  
**Category:** Parks Projects  
**Project Location:** Burbank Farm

**DESCRIPTION:** This project consists of a new ADA-compliant public restroom facility at the Luther Burbank Experiment Farm and ADA path to the restroom facility from the existing parking lot. The work includes installation of a new sewer, water and electrical services to support the restroom facility. The City was awarded a FY 2022-23 CDBG grant to help fund the project. **THE PROJECT IS COMPLETED.**

**JUSTIFICATION:** The existing bathroom in Burbank Farm does not comply with ADA accessibility and needs to be replaced with an ADA-compliant bathroom.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 6-17: Continue to support the West County Museum and the Luther Burbank Experiment Farm.

Community Services and Facilities CSF 2-21: Continue to provide support to local non-profits providing community recreational services on City-owned land operated by the non-profits, including Ives Pool, the Sebastopol Community Cultural Center, and the Burbank Experiment Farm.

**Project No: 0420-22.05**

**Category Parks Projects**

**Project Ives Park**  
**Location:**

**DESCRIPTION:** This project (also known as "Bringing Back Calder Creek") is an implementation of parts of the 2013 Ives Park Master Plan. In 2022, Council approved the Calder Creek Vision Plan which included a. This project is the implementation of the plan which will restore the creek from the 6-inch concrete storm drain at the upstream end of the park nearest Jewell Avenue to the weir below the Joe Rodota Trail footbridge. The City is applying for two grants (\$1.8M each): one from the Sonoma County Ag and Open Space District and one from the Department of Water Resources.

**JUSTIFICATION:** A hydrologic study of the Calder Creek Streambed Re-naturalization at Ives Park was previously conducted (CIP #0420-20.08) and completed in FY 2021-22. Concept plan options were completed and Council selected Ives Park Plan (Option B) and included realignment of Calder Creek. CDD staff is working on the acquisition of a water and streams grant with a non-profit group and anticipated grant application is late spring 2025.

**GENERAL PLAN Goals and Policies:** Conservation and Open Space COS 3-3: Support rehabilitation of any culverted or open existing channelized waterways, as feasible, to remove concrete linings and allow for a connection between the stream channel and the natural water table. Avoid creating additional culverted or open channelized waterways, unless no other alternative is available to protect human health, safety, and welfare.

**Project No: 0423-20.10**

**Category Parks Projects**

**Project Tomodachi Park next to Park Village**  
**Location:**

**DESCRIPTION:**

Provide a trail connecting Tomodachi Park and the Laguna Preserve to the Rodota Trail extension and downtown areas. This first phase is to prepare a concept design and a preliminary cost estimate to seek future funding for this project. A new sidewalk has been constructed by the Barlow Townhomes developer that runs from the connector trail across the new 6736 Sebastopol Ave townhome development to the western edge of Park Village. This extension would continue from that point northeast to Tomadachi Park and eventually southerly to the Joe Rodota Trail..

**JUSTIFICATION:** This trail connection will provide an pedestrian and bicycle access alternative to the sidewalk along Highway 12 from downtown to Tomodachi Park and Park Village. This trail is identified in the Sebastopol ATP and the MTC Regional ATP.

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-2: Ensure that the City’s circulation network is a well-connected system of streets, roads, sidewalks, multi-use trails, routes, and paths that effectively accommodates vehicular and non-vehicular traffic in a manner that considers the context of surrounding land uses and the needs of all roadway users.

**Project Ives Park  
Location:**

**DESCRIPTION:** This project consists of removing and/or replacing the pathway that runs from the restroom facility along Calder Creek to the entrance to the County Center for the Arts parking lot. Future segment 3 will continue the path to High Street as part of the Calder Creek Naturalization Phase 1 grant project. The work will be coordinated to minimize disruption to summer activities in Ives Park.

**JUSTIFICATION:** This work will continue the pathway replacement that was completed under the Segment 1 work which runs from the southwest picnic area to the restroom facility to the County parking lot entrance.

**GENERAL PLAN Goals and Policies:** Community Services and facilities CSF 2-2: Ensure park and trail facilities are accessible to various segments of the population including: specific age groups, persons with special physical requirements, and groups interested in particular activities.

**Category Parks Projects**

**Project Ives Park  
Location:**

**DESCRIPTION:** Trenchless repair of the 60-inch corrugated metal storm drain pipe.

**THIS PROJECT IS COMPLETED.**

**JUSTIFICATION:** Large sinkhole on the asphalt pathway that crosses Calder Creek. The sinkhole was caused by the fill and soil beneath the pipe to wash down Calder Creek and fill above the pipe to slip into the void. (New Project approved by Budget Amendment Resolution on 9/2/25.)

**GENERAL PLAN Goals and Policies:** Conservation and Open Space (COS 3-3): Support rehabilitation of any culverted or open existing channel and the natural water table.

		2,655,961	1,457,800	483,268	3,495,413			5,436,481

**Project No:** 0514-22.06

**Category:** Paving Projects

**Project Location:** Bodega Avenue from Nelson Way to Pleasant Hill Road

**DESCRIPTION:** Phase 2 consists of installing bike lanes and repaving Bodega Avenue from Nelson Way to Pleasant Hill Road. Phase 1 from High Street to Nelson Way was completed and Phase 2 continuing on to Pleasant Hill Road. Due to the extremely poor condition of the road in this Phase 2 section, the roadbed will need to be reconstructed rather than overlaid. The project scope was increased to include pavement rehab from Valley View Drive to the bridge and a Class IV bikeway. **THIS PROJECT IS COMPLETED.**

**JUSTIFICATION:** Bodega Avenue paving is deteriorated and needs resurfacing. The work also includes addition of bicycle lanes along Bodega Avenue. Due to environmental constraints, there may be a short section in front of Burbank Experimental Farm where bicycle sharrows will be painted in lieu of a bike lane. City applied for and awarded a Go Sonoma transportation grant for a maximum amount of \$2.24 million for the construction and inspection. The City's minimum local match is 15% of the grant. **THIS PROJECT IS ESTIMATED TO BE COMPLETED BY 6/30/26.**

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31	
9000 - Estimated Actual	2,500,961						0
9100 - Pre-construction (design, ROW, Environ)							0
9200 - Construction							0
<b>EXPENDITURE TOTALS</b>	2,500,961						0

201-Measure M Transportation	230,478						0
211-Transp Grant - Go Sonoma (SCTA)	2,125,817						0
217-SB 1 Road Maintenance & Rehab	144,666						0
<b>FUNDING TOTALS</b>	2,500,961						0

**Project No:** 0520-22.09

**Category:** Paving Projects

**Project Location:** Various City Streets

**DESCRIPTION:** This project consists of digouts and repairs of streets with large potholes or streets with sinkholes that are repaired more substantially than routine pothole repair work. The Final List of Streets is approved by Council and includes locations on Calder Avenue, Ellis Court, Fannen Avenue, Florence Avenue, Golden Ridge Avenue, High School Street, Virginia Avenue, Washington Avenue, and other streets.

**JUSTIFICATION:** The streets in this program will be based on the City’s 2025 Pavement Management Program and focuses on streets with a very low pavement condition index as well as streets requested by the public and that meet the digouts and repair criteria. The goal of the PMP budget option is to maintain the City’s PCI at the existing level of 55. For Year 1, the focus will be on digouts and repairs rather than slurry seals and overlays due to the severity of disrepair of many streets. Also in Year 1, the City will be constructing Bodega Ave. Phase 2 and with these two projects, the City can stay on its target budget of \$5M of paving improvements over 5 years if Years 2-5 have a set aside of \$500k/year (in 2025 dollars).

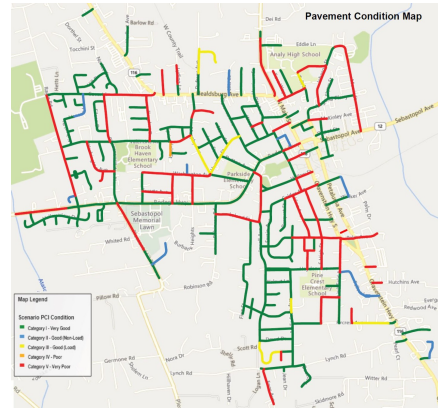

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31	
9100 - Pre-construction (design, ROW, Environ)	20,000						0
9200 - Construction	100,000	380,000					380,000

**Project No: 0521-25.05**

**Category Paving Projects**

**Project Location: Strout Street and other Location (TBD)**

**DESCRIPTION:** This is for pavement treatments and improvements consistent with the City's Pavement Management Program. The paving work includes but not limited to slurry seals, micro-seals, AC overlay, geofabric, and sub-base repairs. The street locations are identified in the City's current Pavement Management Program report (2025 or later). For Fiscal Year 2025-26, the proposed street for improvement is Strout Street. Staff will bring a process to determine other street(s) to be improved as part of this project to Council for consideration and approval.

**JUSTIFICATION:** The City's current Pavement Condition Index (PCI) is 55 which is in the "Fair" category and many of the streets throughout the city are in disrepair. The goal of the PMP budget option is to maintain the City's PCI at the existing level of 55. For FY 26-27 the focus will be on streets that have been in significant disrepair and have received numerous public complaints.

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalk, and paths.

**Project Various City Streets**  
**Location:**

**DESCRIPTION:** This is for pavement treatments and improvements consistent with the City's Pavement Management Program. The paving work includes but not limited to slurry seals, micro-seals, AC overlay, geofabric, and sub-base repairs. The street locations are identified in the City's current Pavement Management Program report (2025 or later). For Fiscal Year 2026-27, the proposed list of streets are identified in the City's PMP Report, Appendix F-2 (Maintain PCI at 55; Year 2025).

**JUSTIFICATION:** The City's current Pavement Condition Index (PCI) is 55 which is in the "Fair" category and many of the streets throughout the city are in disrepair. The goal of the PMP budget option is to maintain the City's PCI at the existing level of 55. For FY 26-27, the focus will be on pavement treatments identified in the City's 2025 PMP, Year: 2025 (excluding Bodega Avenue, already underway).

**GENERAL PLAN Goals and Policies:** Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalk, and paths.

**Project No: 0523-26.02**

**Category Paving Projects**

**Project Bodega Avenue from Pleasant Hill**

**Location: Road to Valley View Drive**

**DESCRIPTION:** This project is the third and final phase to complete the east-west bike lanes and routes on Bodega Avenue. Project includes Class II bike lanes on the section of Bodega Avenue between Pleasant Hill Road and Ragle Road, and a Class IV or Class I multi-use trail on the existing 15-foot raised shoulder which fronts the south side of Bodega Avenue from Ragle to Valley View Drive, an enhanced crosswalk at Valley View Drive, and ADA ramp upgrades and sidewalk gaps.

**JUSTIFICATION:** Provides bicycle path from Pleasant Hill Road to the city limit. The City has applied for SCTCA cycle 2 grant for this project and the project description is consistent with the grant application. If the grant is awarded, a 15% local match is required and is shown as "unfunded."

**GENERAL PLAN Goals and Policies:** Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhood with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health.

**Project No: 0604-37.00**

**Category Sewer/Wastewater Projects**

**Project Location: Zimpher Creek Sewer Line, Covert Lane to Healdsburg Avenue**

**DESCRIPTION:** Reduce flows to the Zimpher Creek sewer main by rerouting the flows from Covert Lane to Healdsburg Avenue. The project consists of a new 8-inch sewer, approximately 250 LF, which allows for gravity flow. The next step is to update the cost estimate for the following year's construction.

**JUSTIFICATION:** The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed. The rerouting to Covert Lane sewer utility will allow for reduced flows to the Zimpher Creek sewer main.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31

**Project No: 0610-70.00**

**Category Sewer/Wastewater Projects**

**Project Location: Zimpher Creek from Zimpher Road to Murphy Avenue**

**DESCRIPTION:** This project consists of the Zimpher Creek sewer main relocation and/or replacement. Year 1 is will finalize the pre-design and select a project alternative such as cast-in-place (CIPP) or open-cut trenching. Year 1 budget also includes CCTV reconnaissance. Once an alternative is selected, the design can be performed, with construction commencing in Year 2 and continuing in Year 3. For purposes of this estimate, it is assumed that the CIPP alternative is selected.

**JUSTIFICATION:** The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

**Project No: 0611-80.00**

**Category Sewer/Wastewater Projects**

**Project Location: Zimpher Creek Sewer from Murphy Avenue to Huntley Street**

**DESCRIPTION:** This project consists of repairs to the sewer system along Zimpher Creek east of Murphy Avenue. Repairs include waterproofing of manholes and sewer mains, and replacement of sewer sections of pipe. The first phase is for the pre-design to determine level of repairs and develop preliminary cost estimate.

**JUSTIFICATION:** The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

**Project No: 0615-23.04**

**Category Sewer/Wastewater Projects**

**Project Citywide**  
**Location:**

**DESCRIPTION:** This project will update the 2005 Sewer System Master Plan. The plan will include system capacity analysis and identify deficiencies in sewer system that could result in sewer overflows. The master plan will identify a Capital Improvement Program to upgrade system deficiencies and will include maintenance repair and replacement projects identified in Public Works' ongoing CCTV investigations. The study will largely use on the City's GIS system and the CCTV data to develop the City's 5 and 10 year Capital Improvement Program.

**JUSTIFICATION:** Master plans should be updated every 5 years and the sewer master plan was last updated in 2005.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sabitary Sewer System Utility Master Plan, Stormwater Management Plan and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL

**Category Sewer/Wastewater Projects**

**Project Citywide**  
**Location:**

**DESCRIPTION:** This program is the ongoing replacement of sewer lines and related appurtenances. The list of pipes to be replaced will be based on the recommendations of the Sewer System Master Plan Update.

**JUSTIFICATION:** The City's wastewater system is severely aged and needs to be systematically replaced in order to minimize leaks, ruptures and emergency repairs of failing lines.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer System Utility Master Plan, Stormwater Management Plan, and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31

**Project No: 0617-25.02**

**Category Sewer/Wastewater Projects**

**Project 275 Morris Street**  
**Location:**

**DESCRIPTION:** Install a liner or protective coating to the wet well. An initial assessment of the wet well concluded that the epoxy filler in the wet well is failing and is leaking. Making the repair will extend the lifespan of the wet well to keep it in operation.

**JUSTIFICATION:** The Morris Street Sewer Pump Station conveys all of Sebastopol’s raw wastewater to the Llano trunk sewer main where it flows by gravity to the Llano Road Wastewater Treatment Plant, which is operated by the City of Santa Rosa. Public Works staff have observed cracks and leaks forming in a wall of the wet well at the Pump Station and a preliminary assessment of the damage showed visible cracks and leakage through the wet well walls. These repairs are needed to keep the station in operation.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

**Project No: 0702-51.00**

**Category Stormwater and Flood Mitigation Projects**

**Project Location: Outfall near Morris Street Pump Station**

**DESCRIPTION:** This project is a multi-year effort including a Maintenance Study to identify the maintenance activities for the storm drain and outfall, priorities, and estimated costs. A "desktop" environmental analysis is needed help inform the environmental constraints, followed by the preparation of the cost estimate that will be needed to research grant funding that may be available for the permitting and construction. This project will be identified and scoped in the ongoing Flood Resiliency Master Plan that will identify priority projects and costs.

**JUSTIFICATION:** Zimpher Creek outfall is silted in and needs maintenance. Upstream of the outfall is the Valentine Avenue storm drain and that section of pipe is also silted in and some sections may need repair or replacement.

**GENERAL PLAN Goals and Policies:** Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

**Project Morris Street near the Laguna**  
**Location:**

**DESCRIPTION:** This project is a multi-year effort starting with a Maintenance Study to identify the maintenance for the storm drain and outfall, priorities, and estimated costs. Future permit and maintenance costs will be identified when the Maintenance Study is completed and also the Flood Resiliency Master Plan is completed and priority projects identified.

**JUSTIFICATION:** The Morris Street outfall is obstructed by silt and vegetation which require cleaning and possible rehabilitation.

**GENERAL PLAN Goals and Policies:** Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

**Project No: 0711-23.05**

**Category Stormwater and Flood Mitigation Projects**

**Project Citywide**  
**Location:**

**DESCRIPTION:** This master plan document is a flood control management plan that will identify flood areas and develop a Capital Improvement Program (CIP) for managing and mitigating flooding that occurs in the Calder Creek and the Laguna area. This plan would expand the 2D hydraulic and hydrology model developed for Calder Creek to other parts of the City using the existing storm drain mapping. The plan would need to apply the new Sonoma Water Hydrology standards.

**JUSTIFICATION:** Various areas routinely flood, particularly along Calder Creek and the Laguna area. This work will help support future grant funding applications for flood control and mitigation projects.

**GENERAL PLAN Goals and Policies:** Safety SA-2: Reduce risks to human life, property and public services associated with flood hazards.

EXPENDITURES							PROJECT TOTAL

**Project No: 0712-23.06**

**Category Stormwater and Flood Mitigation Projects**

**Project 390 Morris St.  
Location:**

**DESCRIPTION:** The master plan will consider flood mitigation and flood proofing alternatives and costs for long range flood mitigation projects. The plan will also include a list of short term flood repairs from previous flood damages to continue to keep the existing building operational. This project has been down-scoped to be a master plan memo with recommendations and a list of priority repairs and required ADA improvements.

**JUSTIFICATION:** The Sebastopol Community Cultural Center Master Plan (SCCC) is located in a floodplain and routinely floods. The plan will serve as a long range master plan to determine alternatives such as long term flood mitigation improvements or relocating to a different location not in a floodplain.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

<b>FUNDING TOTALS</b>	11,000						0

**Project No:** 0713-24.09

**Category** Stormwater and Flood Mitigation Projects

**Project Location:** 390 Morris Street

**DESCRIPTION:** Replacement of flood-damaged dry walls and acoustical ceiling panels, insulation, thermal and moisture protection, and related work. **THIS PROJECT IS COMPLETED.**

**JUSTIFICATION:** The walls and ceiling panels were damaged during the 2019 Flood event and are no longer fire-rated. The walls and ceiling panels will need to be repaired/replaced in order to continue operational use of the building.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

**Project No: 0714-26.03**

**Category Stormwater and Flood Mitigation Projects**

**Project 390 Morris Street  
Location:**

**DESCRIPTION:** Flood mitigation repairs include sealing pin holes in the exterior skin of the building, repair leaks where low roof ties to side wall, remove and replace wood in contact with concrete with treated wood or metal base, add gutters and down spouts, replace section of corroded steel framing of building, flood damage-resistant insulation, water intrusion sealing.

**JUSTIFICATION:** The Cultural Community Center is an important City facility and benefit to the community. In order to maintain continued operation of the building, flood damage and mitigation repairs are needed. In addition because of the cost of the flood mitigation and repairs, ADA improvements are required in the amount of 20% of the flood mitigation and repair costs.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

**Category Stormwater and Flood Mitigation Projects**

**Project Ives Park to Joe Rodota Trail**  
**Location:**

**DESCRIPTION:** This maintenance work is for removal of silt and debris from the interior of two storm drain pipes (60-inch and 40-inch diameter) that follow Calder Creek from Ives Park to the outfall just past Petaluma Avenue near the Joe Rodota trail. The work includes CCTV and pipe inspection, flushing and dewatering. Project management will include assisting with project bidding and acquiring permits, as needed.

**JUSTIFICATION:** The City maintains a storm drain system on Calder Creek between Ives Memorial Park and storm drain outfalls just past Petaluma Avenue near the Joe Rodota Trail. The Calder Creek drainage system conveys stormwater to the Laguna and needs to be "dredged" out to remove the silt and maintain hydraulic capacity and alleviate the flooding in the area.

**GENERAL PLAN Goals and Policies:** Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

**Project No:** 0821-23.09

**Category** Water Projects

**Project Location:** Citywide

**DESCRIPTION:** This project includes using the City's water system GIS and the data it contains to identify aging infrastructure, noting type of pipe material and age. The project will also use fire flow test data to identify deficiencies in the system for fire protection purposes. The master plan report will develop a 5 to 10 year Capital Improvement Program. A hydraulic model and calibration will be included in year 2, budget depending.

**THIS PROJECT WILL BE COMPLETED BY JUNE 30, 2026.**

**JUSTIFICATION:** Master plans should be updated every 5 years and the water master plan was last conducted in 2005.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer System Utility Master Plan, Stormwater Management Plan and the Capital Improvement Program.

**Project 710 Petaluma Avenue**  
**Location:**

**DESCRIPTION:** The project includes the preliminary design, final design, site assessment report, and construction of a new replacement well on the site with an average annual production of 15 million gallons of drinking water to the city's water customers.

**JUSTIFICATION:** Replacement of the City's municipal Well 4 was originally constructed in 1953 and is past its life cycle and needs to be replaced. This well supplies nearly half of the water customers in the city. The City will be looking for outside financing (such as a State Revolving Fund loan or revenue bond) for the construction of the new replacement well.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project No: 0824-26.04**

**Category Water Projects**

**Project Location: First Street and Pleasant Hill Road**

**DESCRIPTION:** This project includes the structural assessments, design and construction of structural repairs and upgrades to the City's water tanks. Phase 1 is the structural assessment of the tanks. Construction estimates will be identified in the assessment report.

**JUSTIFICATION:** The tanks do not have anchorage to the foundation and do not meet industry standards. Previous reports were only visual and do not meet US standards for structural assessment. The repairs and upgrades will benefit system safety and compliance.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project No: 0825-26.05**  
**Category Water Projects**  
**Project First Street and Pleasant Hill Road**  
**Location:**

**DESCRIPTION:** This project includes the preliminary study, design and construction for seismic upgrades to the City's water tanks. Phase 1 is the seismic retrofit study and drawings for required upgrades to the tanks to meet current seismic codes and ensure resilience during earthquakes. Construction costs for the seismic retrofit and upgrades will be identified in the Phase 1 retrofit study.

**JUSTIFICATION:** The City's tanks do not meet current seismic codes and compliance with water industry standards for ASCE 41 and AISC 342-22. Seismic upgrades will reduce risk of failure during earthquakes and extend the service life of the tanks.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project Corporation Yard, 714 Johnson Street**  
**Location:**

**DESCRIPTION:** Installation of automated flow meter for water tower at the Corporation Yard that supplies water truck haulers who supply portable water to local customers outside the City's water service areas, and water haulers who use the water for construction activities.

**JUSTIFICATION:** The automatic flow meter at the water tower is need to accurately measure, monitor, and manage water used by truck haulers. The automatic flow meter will enable real-time monitoring, improve operational control, and support data-driven decision-making for water resource allocation.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Category Water Projects**

**Project Location: Pleasant Hill Road**

**DESCRIPTION:** Water system connection loop consisting of a new 16-inch water main from Pleasant Hill tanks at Lynch Road to intersection at Pleasant Hill Road at Mitchell Court.

**JUSTIFICATION:** The City has experienced some failure on Lynch Road in the past and the maintenance of the water line has caused 75% of the City's water network without supply during the water breaks. This highlights the importance of water reliability and water security issue in this area.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project No:** 0828-26.08  
**Category:** Water Projects  
**Project Location:** Gwendolyn Place

**DESCRIPTION:** Replace approximately 9 existing service connections with 3/4-inch HDPE pipe in Gwendolyn Place from intersection of Litchfield Avenue.

**JUSTIFICATION:** The watermain and services have had multiple repairs in the past. Replacing with new pipe will provide enhanced hydraulic efficiency and system performance and also prevent leakage losses.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project 500 Main Street  
Location:**

**DESCRIPTION:** Replace approximately 21 feet, 8 inch watermain at 500 S. Main Street from the intersection of S. Main Street just south of Walker Avenue and just west of the intersection.

**JUSTIFICATION:** This replacement is needed due to past maintenance work in this area. Replacing is new pipe will provide enhanced hydraulic efficiency and system performance and also prevents any leakage losses.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Category Water Projects**

**Project Valley View Drive  
Location:**

**DESCRIPTION:** Replace approximately 94 service connections using approximately 20 feet, 3/4-inch diameter HDPE pipe along Valley View Drive per service connection.

**JUSTIFICATION:** This area has had many lateral breaks due to corrosive soil conditions. The City has performed multiple repair services in the past. Replacing this section with MDPE pipe will help reduce the issues with the corrosive soil.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project No: 0831-26.11**

**Category Water Projects**

**Project Location: Healdsburg Avenue, Fircrest Avenue, Dutton Avenue, Huntley Avenue**

**DESCRIPTION:** Repair and/or replace existing pressure reducing valves at various locations at Healdsburg Avenue, Fircrest Avenue and at Dutton and Huntley Avenue.

**JUSTIFICATION:** Currently the pressure reducing valves present in the network system are not working. Site visits show that the existing PRV's do not have set pressure. By fixing and/or replacing the PRV, the water system can be divided to pressure zones and will be able to maintain steady downstream pressure which prevent overpressurized sections leading to leaks or pipe bursts.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project No: 0832-26.12**

**Category Water Projects**

**Project Location: 991 Gravenstein Highway**

**DESCRIPTION:** Addition of an arsenic treatment system at the City's municipal Well 6. The design of the treatment system has been completed. Year 5 of the CIP is to review the design and other water quality changes as well as update the estimated cost of the treatment system.

**JUSTIFICATION:** There has been a concern about naturally occurring arsenic at Well 6, and the City has been using dilution to keep arsenic level in the water below the maximum contaminant level of 10 parts per billing (ppb). Adding the treatment system can further remove arsenic from the water at Well 6.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

## 10 - City-owned Buildings & Site Projects

		FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31	TOTALS
<b>PROJECT TITLE</b>								
1001-25.03	Corporation Yard Fuel Filling Station Upgrade	85,000						
1002-25.04	Police Station Emergency Generator and Electrical Improvements	50,000	370,000					370,000
		135,000	370,000					370,000
<b>PROJECT FUNDING SOURCES</b>								
100	General Fund - Measure U	135,000	115,000					115,000
103	Bldg./Fac./Infr. Reserve		255,000					255,000
		135,000	370,000					370,000

**Project No:** 1001-25.03

**Category** City-owned Buildings & Site Projects

**Project Location:** Corporation Yard, 714 Johnson Street

**DESCRIPTION:** Upgrade the filling station to meet new Air Resources Board (CARB) requirements. The project includes replacement of pumps with vapor capture system, monitoring system, and site lighting.

**JUSTIFICATION:** The existing pumps are past their useful life with parts and labor to repair becoming non-existent. The filling station is out of compliance with CARB requirements.

**GENERAL PLAN Goals and Policies:** City is out of compliance with State CARB regulations for fuel filling stations.

EXPENDITURES							PROJECT TOTAL

100-General Fund - Measure U	85,000						0
<b>FUNDING TOTALS</b>	85,000						0

**Project No:** 1002-25.04  
**Category** City-owned Buildings & Site Projects  
**Project Location:** 6850 Laguna Parkway

**DESCRIPTION:** Replacement and upgrade of existing 40kW emergency generator to a new generator that will support the EOC, dispatch room, and other essential emergency support services at the Police Station. The new emergency generator will be 150kW capacity and will operate the entire building to fully operate the EOC and Police operations during emergencies.

**JUSTIFICATION:** The existing 40kW generator has been operating since the building was first constructed over 25 years ago and is in need of replacement. Also, the existing generator is sized to only power the dispatch office and is not sufficient in size to support the EOC (which will be stationed in the conference room), or any of the other offices that are deemed essential during an emergency outage.

**GENERAL PLAN Goals and Policies:** Community Services and Facilities CSF 5-6: Ensure that the PD has adequate staffing and equipment to accommodate existing and future population growth; and

Safety SA 3-4: Identify critical facilities and ensure that they will function in the event of a disaster.
