Subject: Smoker unit returned

I Am a neighbor right in the direct line of smoke coming from the barbecue on Main Street. He's returned yesterday afternoon with his large smoker June 9. I was hoping he would bring back his original smaller smoker. There is elder care unit. And low income housing being affected by his selfish desire to not work with the city. I appreciate your peaceful approach you have taken with his cat and mouse strategy. Thanks for the opportunity to voice my thoughts. Ann
