Subject: In support of A&M BBQ

To City Council,

I am Benedict Fox, I live on Calder Ave less than half a mile from A&M BBQ.

This restaurant and the team behind it have been such an amazing addition to the town. They are so thoughtful, so talented, and so community-oriented that it has surprised me to learn of complaints about the restaurant's smell or anything else. As for the smell, I live close by, walk by all the time, and have never been affected by the smell, can't even say I notice it.

I want the best for them and hope they get a much larger space in town so they can continue to serve us and bring in people who seek out their food. If we were to lose them to a neighboring town it would be a huge loss.

Best,

--
