I am deeply disappointed in your decision about supporting AMBBQ and having them vacate the location. As a life long resident of Sebastopol(59) years I refuse to support this community after hearing this rubbish. I am disappointed that the City Council didn't do a very fair job in handling this situation. Why is it that the neighbors who complained about the situation currently didn't complain or object to this kind of business 2 years ago and are now complaining. Seems strange and suspicious to me. Maybe Vegans or just maybe some racists who don't like good food
