

To the City Council Members of Sebastopol

Hello. I would like to state my support for the plan to provide Calder Creek access through Ives Park. This would be a wonderful asset to our community by providing a natural habitat for all of us to enjoy, and benefiting our natural wildlife as well.

I am absolutely against the plan for a food court, which would entail more paving and more building.

Let us preserve and enhance our lovely park as a place where we can enjoy a natural area inside our wonderful city.

Thank you for your consideration.

Dale Jewell
