I encourage the City Council to reject the application of Grocery Outlet. If the Council allows incremental changes to the City's regulations it will result in a different town than we want it to be. though I acknowledge that GO may have slightly lower prices we need to support those small businesses we have in town. Please do not let dollar signs sway you into making decisions from which there is no going back. Do not allow Grocery Outlet to come into downtown. Sebastopol must remain the small town that we love.
