Subject: Re: Moldy Strawberries offered at Safeway in Sebastopol

To: [REDACTED]

Again. When I brought the moldy strawberries to the attention of a staff member he said "oh no not again"...

The Safeway in Sebastopol is so ghetto for a billion dollar corporation that makes billions in profits. Gee I wonder why you're able to make so much money by offering poor quality products. How fun for you!

How come the staff isn't able to monitor the produce?

You all are so nasty but that's how you get billions right?

Does Safeway have the ability to offer non moldy strawberries?

I've reported moldy food to Safeway dozens of times and they refuse to take it off the shelves.
