Hello,

I'm very supportive and enthusiastic about this project, and I'm still hopeful it will happen and succeed. As a resident of Sebastopol but outside the city limit (we live in the Belmont terrace neighborhood) and a mother of two children 3 and 6 years old having a library and senior center (my parents are members) so close it extremely exciting. Having grown up here and now having recently moved back, I'm familiar with the current library location—and the library itself. How best can we support this project at this stage? Thank you!
