I'm no longer shopping in your town after I read you ran out my favorite BBQ restaurant.

Your extremist environmental rules regarding a simple smoker are just nuts. Why aren't you banning cars? The pollution they admit is much worse. And don't tell me the smell coming from their smoker is offensive, it's not.

I live in Santa Rosa and I can tell you a lot of my friends and neighbors feel as I do. We're not spending any money in your town.
