

PAC Letter

From Jeff Stucker [REDACTED]
Date Mon 7/6/2026 9:01 AM
To Victoria Henkel <vhenkel@cityofsebastopol.gov>

Hello Tori,

I hope this finds you well. IF this is no longer your role, please forward to whomever now takes care of this. TY.

Please share this with the PAC at their next meeting or earliest convenience. Thanks!

Sincerely,
Jeff Stucker

"Thank you to the PAC and compliments on another round of CSG jurying, selection, and installation. The new pieces are fantastic, well-located, and provide diversity to the pieces that remain from earlier installs.

I also appreciate any part you may have played in getting the Koan sculpture trailhead recently maintained. The grasses, etc. were overgrown for some time and it was great to see them cut down.

I wanted to request that the PAC continue its efforts to see a sculpture or mural on the eventual(?) Sebastopol Road facade of the Barlow Hotel.

Hopefully, some progress can continue for the North entry sculpture.

And when there's money, potential additional sculptures at the south and west entrances to town, since both of these existing sculptures, Gray Matters and Koan, are very close to downtown and not particularly visible as drivers/walkers enter town from these two directions.

Respectfully, Jeff Stucker"
