Subject: A&M Barbque

Dear City Council members,

I am writing in support of giving A&M additional time to relocate. They are not a business that breezed into town because of the location. They live and raise their family here and contribute to the community in multiple important ways.

I understand what it is like to tolerate smoke. My neighbors are heavy pot smokers and the thick smell keeps me from enjoying my garden like I used to. But A&M is contributing to our community. Please give Chef Kris time to move his business. It is hard enough to launch a successful business in this economic environment without getting blindsided. Please show the compassion and patience that makes our town the best ever.

Many thanks,

Kathy Patterson
