Subject: A&M BBQ

To the members of the council:

I am a local resident.  
I have visited A&M BBQ on multiple occasions.

It's not a factory or meat processing facility.

It's a small retail BBQ shop that is clean, well run and produces fairly small batches that consistently run out during the day.

I cannot see any logical reasons to inhibit a small successful restaurant with undue regulation.

Please focus on issues that actually benefit the community not ones that diminish it.

Thank you

Kevin Goldman
