

To: Sebastopol City Council Members

I'm just moving into the Seb city limits and have been made aware of the disaster that is the water and sewer Enterprise Funds. It's truly disgraceful that the Council offloaded millions of dollars of staff time and legal fees to these Enterprise Funds in order to try to balance the General Fund... as if rate payers wouldn't notice or complain about their skyrocketing water + sewer bills.

Like every other Seb. rate payer, I expect elected officials to act responsibly in the interest of those they represent. Every single Council person who approved these bogus charges over the years should be barred from public office.

I'll be attending the Council meetings to follow their plans to reimburse ratepayers for past overcharges.
