Subject: Regarding Mayor and Police Chief about complimenting police officers

Regarding Mayor and Police Chief about complimenting police officers

I would like to compliment your police officers for assaulting and torturing a car crash victim. Instead of providing medical assistance and trying to help the car crash victims, you assault them and torture them. Good for you.

Here's an idea you would like.

Instead of sending ambulances to help people who are in a car crash send your police officers to assault them.
