PLEASE, we need a member of the city council to come, walk and see these unsafe road conditions on Eastside.

These are ankle twisting, bike riding death traps and tire damaging pot holes.

Several of us have tires on our vehicles that are wearing unevenly with tire alignment and suspension issues and overall damage because of the potholes.

Im the past I had a friend who experienced a sprained ankle getting out of her car and her foot landing in one of these dangerous potholes.

The road needs to be repaved in total and not just patch repaired which so quickly deteriorates and become even more dangerous because of the loose asphalt pebbles.

These dangerous safety issues need immediate attention and repair before someone is seriously injured or there are needs for reimbursement for car/tire repair because of these dangerous potholes.

Many thanks,
Rebecca Evert
