1. PURPOSE OF LIMITED PROCEDURES REVIEW

Under Article XIII B of the California Constitution (the Gann Spending Limitations Initiative), California governmental agencies are restricted as to the amount of annual appropriations from proceeds of taxes. Effective for years beginning on or after July 1, 1990, under Section 1.5 of Article XIIB, the annual calculation of the appropriation limit is subject to a limited procedures review in connection with the annual audit.

2. METHOD OF CALCULATION

Under Section 10.5 of Article XIII B, for fiscal years beginning on or after July, 1990, the appropriations limit is required to be calculated based on the limit for the fiscal year 1986-87, adjusted for the inflation and population factors discussed in Notes 3 and 4 below.

3. INFLATION FACTORS

A California governmental agency may adjust its appropriations limit by either the annual percentage change in the 4th quarter per capita personal income (which percentage is supplied by the State Department of Finance) or the percentage change in the local assessment roll from the preceding year due to the change of local nonresidential construction. The factor adopted by the City for the fiscal year 2025-26 represents the annual percentage change in the per capita personal income.

4. POPULATION FACTORS

A California governmental agency may adjust its appropriations limit by either the annual percentage change of the jurisdiction's own population or the annual percentage change in population of the county where the jurisdiction is located. The factor adopted by the City for the year 2025-26 represents the annual percentage change in population for the County.

5. OTHER ADJUSTMENTS

A California government agency may be required to adjust its appropriations limit when certain events occur, such as the transfer of responsibility for municipal services to, or from, another government agency or private entity. The City had no such adjustment for the fiscal year ending June 30, 2026.
