Subject: support for the City Center Commons Project

Sebastopol City Council,

I want to express my support for the City's project to expand out to the O'Reilly building. The center of town is so crowded, and no parking...moving out will be a God send to our residents.

This expansion will revolutionize the way people perceive Sebastopol...no more town lost in the past, but now an invigorated, vibrant city hub.

thank you,

Richard Bates
