Subject: the empty riteAid building idea…

from a 30 year resident of Sebastopol, Stephen & Carol Greek have an idea. A health center, for west county adults with a discounted gym for seniors and a pharmacy. Some local physical therapists could offer pro-bono therapy sessions on weekends. I imagine that many of the west county residents will travel to Sebastopol for much needed help & support with this seniors community health center. Also, a great part-time job for Analy highschool teenagers to help support the facility.

Think about it…
