

Dear Mayor and City Councilmembers,

Regarding the agenda item: A&M BBQ

My wife & I have owned Crane-West Herb Pharmacy at 511/513/515/517 South Main St. since 2007.

We live above the business 4-5 months each year when we are not living in Cape Cod, MA.

We have 3 full-time employees.

We love living downtown despite the traffic noise.

We love the quality of life that Sebastopol has created over the years that respects all neighbors.

We oppose changing the existing zoning to accommodate commercial outdoor barbecue.

We want the city to enforce existing zoning requirements, now.

We do not want barbecue smoke to fill our office, herb labs, warehouse, living quarters, our lungs!

Why should we have to suffer coughing, headaches, eye irritation, etc.?

Do you want to have commercial barbecuing next to your offices?

We have endured this toxic air too long!

Sincerely,

Bill and Jerrine Egloff
