

**CITY OF SEBASTOPOL
BUILDING THE COMMONS STANDING COMMITTEE
AGENDA ITEM REPORT**

WEB SITE OVERVIEW; DRAFT FOR DISCUSSION

The Sebastopol Commons Standing Committee is a dedicated group guiding the vision and development of the Sebastopol Commons, a shared civic space centered around the library. Our mission is to ensure the Commons becomes a welcoming, inclusive, and vibrant hub for community connection, learning, and collaboration.

Purpose:

- Define the concept of the Sebastopol Commons and identify community priorities.
- Serve as a central forum for coordination among city staff, stakeholders, and community members.
- Support planning efforts that align with the City's goals for accessibility, sustainability, and civic engagement.

Responsibilities:

- Oversee planning and implementation strategies for the Commons.
- Review community input from interviews, surveys, and public meetings.
- Advise the City Council

Approach:

The Committee emphasizes reliance on community voices to shape priorities rather than attempting to represent every perspective at the table. Subcommittees and task forces gather input, assess needs, and provide recommendations for the full committee consideration

Get Involved:

We welcome community participation through surveys, public workshops, and open meetings. Together, we can build a Commons that reflects the values, creativity, and spirit of Sebastopol.
