## PUBLIC NOTICE

January 15, 2026

Luther Burbank Experimental Farms will be receiving some improvements this winter with the construction of a new ADA bathroom. The bathroom will be placed behind the greenhouse and volunteer work area. To run water and sewer services to this location, work will be occurring in the trails of the Farm in January with the pour of the foundation for the restroom occurring immediately after. Construction of the restroom will begin in February and should be wrapped up and open to the public by the end of March. Please use caution and patience when walking through this area. Maps are posted on-site and as shown below. Changes to this map are likely to occur as our contractors work to try and keep trails open and the public safe.

Thank you,

*Erik Billing*
