City of Sebastopol

May 7, 2026

Honorable Mayor, Councilmembers, and members of the Sebastopol Community,

Development of the FY 2026–27 budget began in early January 2026 and proceeded through a structured and collaborative review process. The Budget Committee convened eight times—on January 12, February 9, March 2, March 9, March 30, April 6, April 28 (the latter jointly with the Enterprise Fund Oversight Committee) and May 4—with two additional meetings scheduled for May 11 and May 18 to complete deliberations prior to presentation of the proposed budget to the City Council for review, discussion, and formal adoption.

New this year was the establishment of the Enterprise Fund Oversight Committee. This committee was established to:

- **Reviewing Annual Budgets and Financial Reports:** The Committee will analyze the financial health of the Enterprise Funds, ensuring that budgets and financial statements reflect accurate and sustainable practices.
- **Analyzing Rate Studies and Rate Adjustment Proposals:** The Committee will evaluate proposed rate changes, including providing recommendations on cost allocation methods to ensure fairness and financial viability.
- **Evaluating Long-Term Financial Planning and Capital Improvement Needs:** The Committee will assess capital improvement plans (CIP), master plans, and long-term financial forecasts related to Enterprise Fund operations, ensuring that projects are properly prioritized and funded and that master planning efforts align with Enterprise Fund financial sustainability.
- **Engage with the public and other stakeholders** to ensure that the community’s interest and concerns are reflected in the Committee’s recommendations.
- **Such other duties as assigned by the City Council.**
- **Shall submit an annual report to the Council in early June before the next fiscal year budget is adopted.**

The Budget Committee and Enterprise Fund Oversight Committee also received presentations on the Cost Allocation Plan Methodology and on Enterprise Fund considerations related to Propositions 218 and 26.

The FY 2026–27 budget reflects a year of deliberate evaluation, difficult choices, and an increased focus on aligning resources with the City’s long-term priorities. Through substantive discussion with both committees, the process emphasized not only near-term affordability but long-term sustainability, requiring a reassessment of how the City funds services, infrastructure, and internal support functions rather than simply carrying forward prior assumptions.

This budget balances many competing needs, but challenges remain—especially with infrastructure, cost allocation, and service demands. The goal for FY 2026–27 was not to eliminate all risk, but to present a realistic financial plan that is transparent about constraints, intentional about priorities, and flexible enough to adapt as conditions change.

Throughout the budget process, staff worked to reflect City Council priorities as fully as possible within available resources. The final budget is more than just a spending plan. It is a clear policy document that shows how the City is using limited dollars to meet our community’s needs. It also serves as a straightforward roadmap of City operations, helping residents see exactly how budget decisions support the services they rely on every day.

On April 14, 2026, the City Council held a goal-setting workshop to define policy objectives that would guide both short-term actions and longer-term planning. The workshop included strong public input and active participation from

both Councilmembers and staff. This process reinforced the importance of working together and sharing responsibility.. As a result, the Council renewed the following six priority areas to guide the City's work::

1. Community Vitality
2. Public Safety
3. Infrastructure
4. High-Performance Organization
5. Long-Term Financial Stability
6. Economic Development

The FY 2026–27 budget is structured to support progress across each of these areas, while remaining mindful that meaningful results often require sustained effort over multiple fiscal years. This budget reflects an incremental but intentional step toward long-term financial sustainability, continued service delivery, and responsible stewardship of public resources.

Types of Funds: This budget includes four types of operating funds:

- a. **General Fund:** This is the City's primary operating fund. It funds most core City services, and the City Council has great flexibility in its use. It accounts for sources and uses of resources that (primarily) are discretionary to the City Council in the provision of activities, programs and services deemed necessary and desirable by the community. It accounts for all general revenues of the City not specifically levied or collected for other City funds, and the related expenditures. The major revenue sources for this fund are sales taxes (including the voter-approved tax increase from Measure U), property taxes, franchise fees, business license fees, unrestricted revenues from the state, fines and forfeitures, and interest income. Expenditures are made for community development, parks, public safety (including police and fire), public works, and other services.
- b. **Enterprise Funds:** These funds include activities that typically operate as independent enterprises, or businesses. These services pay for themselves through fees rather than taxes. They have their own sources of funding, which must be used to support those activities. Enterprise funds are used to account for self-supporting activities that provide services on a user-charge basis. For example, many cities provide water treatment and distribution services to their residents. Users of these services pay utility fees, which the city deposits in a water enterprise fund. Expenditures for water services are charged to this fund. Wastewater is another example. The Water and Wastewater funds are Sebastopol's enterprise funds.
- c. **Special Revenue Funds:** These are funds to account for particular sources of revenue and related expenses. Unlike enterprise funds, the users of the funded services are not typically charged for the full cost of services. Special revenue funds are used to account for activities paid for by taxes or other designated revenue sources that have specific limitations on use according to law. For example, the state levies gas taxes and distributes some of these funds to cities and counties. A local government deposits gas tax revenue in a special fund and spends the money for street and road-related programs, according to law.
- d. **Debt Service Funds:** These funds accumulate assets, or funds, usually from operating funds for repayment of long-term debt. Debt service for a city government is the money needed to pay back the principal and interest on debt over a specific time period. Example of Debt payments include the Energy Project Lease Payment of \$375,000.

Overall Financial Overview:

The FY 2026–27 Proposed General Fund budget reflects \$15.61 million in revenues and \$16.68 million in expenditures, producing a projected operating deficit of approximately \$1.07 million. This shortfall is attributable to the City's adopted policy directing 40% of Measure U revenues to streets and road maintenance.

Absent the transfer of the City Council policy of 40% allocation, the General Fund would reflect a modest surplus of approximately \$51,300. This information is provided to clarify the policy and structural considerations contributing to the projected budget gap.

Notwithstanding the projected deficit, the City continues to manage its financial position with diligence. This includes strengthening internal controls over expenditures, ensuring protocols are in place for cost recovery, conducting ongoing reviews of cost allocations, actively managing investment funds, and maintaining collaboration with outside

agencies to secure grants and develop partnerships that enhance revenue opportunities, and working with neighboring jurisdictions to establish shared service agreements.

With the allocation of Measure U funds toward streets, roads and public safety, the General Fund’s ending unassigned fund balance is projected at \$4.02 million, representing approximately 24.1% of annual expenditures (see table below). The level exceeds the City’s 15% reserve requirement and remains near the long term target of 20%; However, because this balance has been trending downward, we will continue to monitor it closely in future budgets..

	FY26-27 Proposed Budget
Total General Fund Revenue	15,615,473
Total General Fund Expenditures	(16,686,930)
Net General Fund Surplus/(Deficit)	(1,071,457)
Beginning Unassigned Fund Balance	5,094,347
Ending Unassigned Fund Balance	4,022,890
Actual Reserve Level	24.1%

Budget Projections: The Fiscal Year (FY) 2026–27 Proposed Budget reflects the City of Sebastopol’s continued commitment to fiscal responsibility, transparency, and the delivery of essential public services, while navigating ongoing financial pressures and long-term infrastructure needs. This budget is the result of extensive collaboration among the City Council, Budget Committee, Enterprise Fund Oversight Committee, and City staff. It balances the need to maintain core services, invest in critical infrastructure, and preserve the City’s long-term financial sustainability.

Like many local governments, Sebastopol continues to operate in an environment shaped by inflationary pressures, rising operating costs, and uncertainty in certain revenue streams. Revenue growth has not consistently kept pace with increases in labor costs, materials, utilities, and professional services. Labor costs in particular have been influenced by recently negotiated compensation packages, including public safety agreements that incorporated equity adjustments. These adjustments were made to keep pay competitive and to fix long-standing pay disparities.

The FY 2026–27 budget continues the City’s practice of conservative revenue assumptions and prudent expenditure planning, with an emphasis on maintaining adequate reserves and avoiding structural imbalances.

General Fund Outlook:

General Fund revenues are projected to remain relatively stable, reflecting a modest decrease of 0.1% from the prior adopted budget. Key assumptions underlying the revenue forecast include the following:

- Sales Tax: Sales tax continues to represent the City’s largest revenue source. Receipts are projected to increase approximately 0.1% (approximately \$8,300) with a measured assessment of current economic conditions.
- Property Tax: Property tax revenues are projected to increase by approximately 4.7% (approximately \$170,000). While state law limits standard annual growth to 2%, revenues may exceed this threshold when properties change ownership. Additionally, processing backlogs at the County Assessor’s Office may result in “catch-up” adjustments that temporarily augment receipts.
- Franchise Fees and Permits: Franchise fees are projected to increase. Conversely, licenses and permits revenue is expected to decline about \$100,000, reflecting reduced construction and development activity.
- Cost Allocation Plan: From 2014 through 2023, the City used a cost allocation plan based on flat percentage allocations applied to each department. These percentages were initially calculated using the adopted budget during the budget process and were then trued up at year end using actual expenditures, with the same flat percentages applied. The actual expenditures used for the year end true up were based on audited financials and included salaries, benefits, and other costs such as contracted services, services and supplies, and dues and subscriptions, excluding the community support line item. Charges to the enterprise funds were ultimately based on these audited actual costs.

For FY 2024 25 and FY 2025 26, the cost allocation plan was based on budgeted amounts from the adopted FY 2023 24 and FY 2024 25 budgets, respectively.

For FY 2026-27, the allocation was recalculated using actual FY 2024-25 expenditures, resulting in Scenario or Option A. Option A is a placeholder in the FY 2026–27 budget that allows the City to continue moving forward with the budget process. It assumes that enterprise funds (such as utilities) will continue to reimburse the General Fund for shared City services using the current cost allocation approach. This approach is based on the most recent audited year (FY 2024–25) (actual expenses) and includes a modest 2.5% increase for inflation. Under Option A, cost allocation revenues are expected to decrease by about \$169,000 compared to the prior year. This decrease is mainly due to a change in how certain costs are handled. Specifically, City Attorney costs are now charged directly to enterprise funds, rather than being included in the overall cost allocation formula.

- Transfers In: Transfers into the General Fund are expected to return to baseline levels. The majority of these transfers are attributable to the supplemental law enforcement grant of \$120,000. The Supplemental Law Enforcement Services Fund use to support active law enforcement operations. Examples include use of funds for: motorcycle traffic officers, or community service officers (CSOs); funds also cover patrol vehicles, communication technology (radios), ballistic equipment, helmets, and gas masks; anti-crime prevention programs, community crime prevention, and public safety initiatives like National Night Out. State law strictly prohibits local agencies from using SLESF to replace money they would otherwise spend on public safety from their General Fund. SLESF monies cannot be diverted into a city's general fund.

The revenue forecast represents a prudent and realistic outlook, balancing historical performance with prevailing economic conditions and the inherent uncertainty surrounding future development activity.

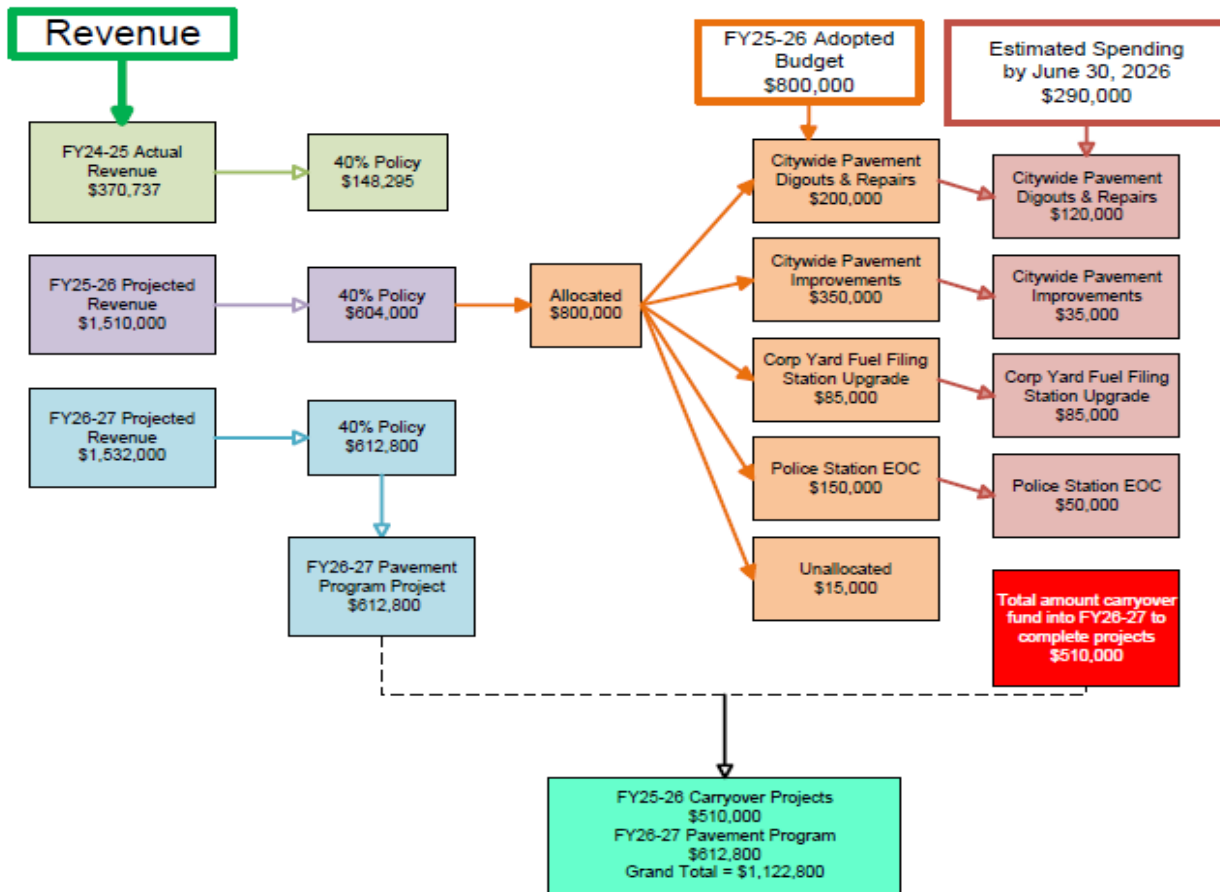

Measure U

The voter-approved ½-cent sales tax (Measure U) took effect on April 1, 2025, and FY 2026–27 represents the City's second year of this revenue measure supporting General Fund services. The enactment of SB 132 ensures that the full ½-cent tax will remain in effect for the entire 12-year period approved by voters.

To ensure accountability and transparency, the City Council adopted a formal policy to guide the use of Measure U revenues. Under this policy:

1. 40% of the revenue shall be allocated for maintaining and repairing City roads, streets, drainage, and parks.
2. Sufficient revenue shall be allocated for maintaining public safety, including retaining existing Police Department staffing levels and providing sufficient funding for fire services after the reorganization of such services with the Gold Ridge Fire Protection District.
3. If there is sufficient revenue allocated for items 1 and 2 above, the remaining revenue will be allocated to maintain Sebastopol's City services such as 911 emergency medical/police/fire response, wildfire/emergency preparedness, maintenance of streets/roads, parks/trails, library, youth and senior services, retaining/attracting local businesses, and for general government use.

From inception through projected FY 2026–27 revenues, Measure U collections are estimated at \$3,412,737. Applying the Council's 40% policy guideline, the allowable allocation for infrastructure would total \$1,365,095. The current budget includes \$1,412,800 for infrastructure, exceeding the policy amount by \$47,705, or approximately 3.5%. This reflects the City's continued emphasis on addressing critical infrastructure needs while balancing competing operational demands. The Measure U revenue allocation by fiscal year is summarized below.

Expenditure Overview and Services Priorities

Total General Fund expenditures are projected to increase 6.4% year-over-year, driven principally by increased salaries for public safety; animal control services; mandated benefit increases (such as health, CALPERS, CIRA General Liability; and CIRA Workman Compensation), and capital-related transfers. Key departmental highlights are summarized below:

- Assistant City Manager | City Clerk: Expenditures increase by approximately \$43,000 (+9.1%), attributable primarily to upcoming 2026 election-related costs and mandated benefit increases (such as health, CALPERS, and CIRA General Liability and CIRA Workman Compensation).
- Planning: Expenditures increase by \$78,000 (+11.1%), reflecting the conclusion of grant-funded projects that had previously offset staff costs. As those projects have ended, a greater portion of Planning division expenditures must be borne by the General Fund.
- Police: Expenditures increase by \$414,000 (+7.2%), driven by higher staffing costs—including labor contract adjustments to address pay equity, increased California Public Employees’ Retirement System (CalPERS) contributions, CIRA General Liability; and CIRA Workman Compensation; and rising benefit costs; as well as increase in funding for animal control services.
- Senior Center: Expenditures increase by \$10,000 (+20.9%) to fund the next phase of building improvements, including rain gutter replacement and HVAC upgrades.
- Community Center: Expenditures decrease by \$17,200 (–10.5%), reflecting lower insurance costs allocated to the facility.
- Ives Pool: Expenditures increase by \$26,000 (+11.3%), primarily to fund the planned replacement of the pool heater.
- Transfers Out: Expenditures increase by \$323,000 (+40.4%), consistent with the City’s policy to allocate a portion of Measure U revenues to fund street, road, drainage, and park maintenance.

Several departments reflect flat or modestly reduced expenditure levels, consistent with the City's ongoing commitment to prudent fiscal management.

Note: The preliminary FY 2026–27 proposed budget does not yet incorporate any potential costs or resource impacts associated with the City Council goals discussed at the April 14, 2026 goal-setting session. Priorities identified at that session will be evaluated and, where appropriate, incorporated during subsequent stages of the budget development process or addressed through future budget adjustments.

Unfunded Accrual Liability (UAL) represents the portion of a pension plan's liabilities that are not covered by plan assets. Essentially, it is the difference between the total projected benefits owed to employees and the assets currently available to fund those benefits. Changes in the UAL occur as the age and number of plan members changes and when the pension plan gains less or more from its investments than it has projected. The UAL is considered an employer's debt and is used to assess the funded status of a pension plan. The annual amount of the UAL is determined by an actuarial study that the City receives from CalPERS. There are two separate pools, the safety plan (Police and Fire) and the miscellaneous plan (all other employees). The safety plan is directly charged to Police and Fire as it is based on local safety employees only and is incurred as their UAL. Miscellaneous plan UAL is allocated among non-safety employees based on the percentage of salary cost in each department.

Insurance: The City is part of a joint powers authority (JPA) risk pool. Each year, the California Intergovernmental Risk Authority (CIRA) determines the premiums for various types of insurance, and the City of Sebastopol budgets accordingly. These premiums cover claims such as workers' compensation, personal liability, and property insurance. Each department is allocated a portion of these premiums to cover costs, regardless of whether they have filed any claims. The allocation method is as follows: workers' compensation is based on the total salary of the department, and liability is based on the department's expenses from the previous year. This process, known as allocated insurance, is noted in the budget line items to ensure that each department contributes its fair share to the insurance expenses based on an established method. It's a structured approach to managing insurance costs, ensuring that each department pays proportionately to the city's overall insurance expenses. The following table shows the increase in various types of insurance that the City must pay:

- Medical insurance: 16%
- Dental and Vision Insurance: 0% increase (rates unchanged for one year)
- Workers' Compensation: 0%
- General Liability: 21%

Five-Year Outlook:

While the City's goal remains to adopt a balanced annual budget, the five-year financial forecast (page 166) continues to show a structural imbalance in the General Fund, with projected expenditures exceeding recurring revenues in forecast years. Beginning in FY 2026–27, ongoing operating deficits are anticipated, driven primarily by rising personnel costs, pension obligations, insurance costs, and general service cost inflation that outpaces revenue growth. These shortfalls are currently addressed through the planned use of fund balance and planned used of Section 115 Pension Trust contributions; however, this strategy is not sustainable over the long term. As reflected in the forecast, unassigned General Fund reserves are projected to decline from approximately 35% as estimated the year end of fiscal year 2025-26 of expenditures to near or below minimum policy levels in the later years of the forecast if no corrective actions are taken. This outlook shows that the City must keep a close eye on its finances and look for long-term ways to increase income and control costs to maintain financial stability.

Enterprise Funds:

The City's Water and Wastewater Enterprise Funds remain financially stable and are sufficient to support ongoing operations as well as the capital improvements proposed for the upcoming one-year period. However, looking ahead, future capital needs identified in the recently completed Water Master Plan will need to be reassessed to determine whether the current rate structure is adequate to support those longer-term investments.

A significant item within the Wastewater Fund is Sebastopol's financial responsibility for Phase 1 of the Llano Trunk Line Rehabilitation Project. Phase 1 construction has been completed, with the City of Sebastopol's share totaling \$997,394 based on the regional cost allocation. While a loan-based repayment approach was previously evaluated, staff has since worked with the City of Santa Rosa to develop a revised financing strategy.

The updated approach utilizes available subregional reserve funds and a pay-as-you-go strategy in lieu of issuing new debt. Santa Rosa has confirmed that these reserves may be used for Sebastopol’s share of the project and has indicated a willingness to allow a temporary negative reserve balance, effectively functioning as a no-interest financing mechanism. Under this approach, no new debt or interest costs would be incurred.

The budget maintains funding levels previously assumed for debt service; however, those funds would be redirected toward rebuilding reserves and supporting future phases of the Llano Trunk Line project. In addition, the budget continues to include a set-aside to prepare for future rehabilitation and capital improvements associated with the Llano Trunk Line.

Special Revenue Funds—including Gas Tax, Measure M, grant funds, and impact fee-supported projects—are budgeted in accordance with authorized uses and available fund balances to support capital improvement projects. The projects can be found in the Capital Improvement Plan (CIP). Highlighted projects from these funds include:

Category Name	Total Budget	Funded	Unfunded
Bikes, Pedestrians & Safety	\$1,453,747	\$1,193,290	\$260,457
Parks Projects	\$3,785,000	\$185,000	\$3,600,000
Paving Projects	\$1,468,000	\$1,468,000	\$0
Sewer and Wastewater Projects	\$1,201,664	\$1,201,664	\$0
Stormwater and Flood Mitigation	\$906,026	\$906,026	\$0
Water Projects	\$791,850	\$791,850	\$0

Capital Investment and Transfers

A significant element of the FY 2026–27 budget is its investment in infrastructure, with particular emphasis on street maintenance. The City proposes \$1.12 million in General Fund transfers (inclusive of carryover from the prior fiscal year), directed primarily toward the following:

- Citywide pavement repairs and pavement improvement projects
- Completion of prior-year capital projects
- Police facility and Corporation Yard improvements

Measure U local sales tax revenues provide essential support for these investments. Proposed allocations slightly exceed the City’s 40% policy guideline on a cumulative basis, reflecting the urgency of addressing deferred infrastructure needs while remaining broadly consistent with adopted policy targets.

Key Considerations and Final Notes

The FY 2026–27 Proposed Budget is designed to strike an appropriate balance between fiscal discipline and the continued delivery of essential services and infrastructure investment. While the City is drawing upon reserves in the near term, those resources are being deployed deliberately and purposefully to:

- Address long-deferred infrastructure needs
- Sustain essential City Municipal Services:
 - Public Safety
 - Public Works / Infrastructure
 - Planning/Building Services
 - General Government/City Administration

Looking ahead, staff will continue to closely monitor revenue performance—including potential receipts from future hotel development—as well as labor and benefit cost trends and overall reserve adequacy. Mid-year budget updates will be presented to the City Council as economic and fiscal conditions warrant. City staff has also created internal controls for cost recovery.

I would like to recognize and thank the members of the Budget Committee—Vice Mayor Sandra Maurer and Councilmember Phill Carter—for their thoughtful leadership and steady commitment throughout this year’s budget process. Their careful review, constructive feedback, and willingness to devote significant time to difficult policy and

financial decisions played an important role in strengthening the final budget. Their engagement and diligence helped ensure the document is both accurate and forward-looking.

I would also like to thank the Enterprise Fund Oversight Committee for their dedicated service and valuable guidance. Their careful oversight helps ensure our Water and Wastewater funds remain strong, transparent, and financially healthy.

Developing this year’s budget was a demanding but truly collaborative effort. I want to extend a heartfelt thank you to our Administrative Services staff, who worked tirelessly behind the scenes to support every City department through the budget process. I’m also deeply grateful to all department directors for their professionalism, patience, and thoughtful input. Their willingness to engage in tough conversations and work through complex financial and operational challenges made all the difference.

Finally, I want to thank the residents and businesses of Sebastopol.

We know that people may have different views on parts of the budget — and that’s okay. It is truly a privilege to serve such an engaged, thoughtful, and caring community. I am optimistic about the future and look forward to continuing this next chapter together.

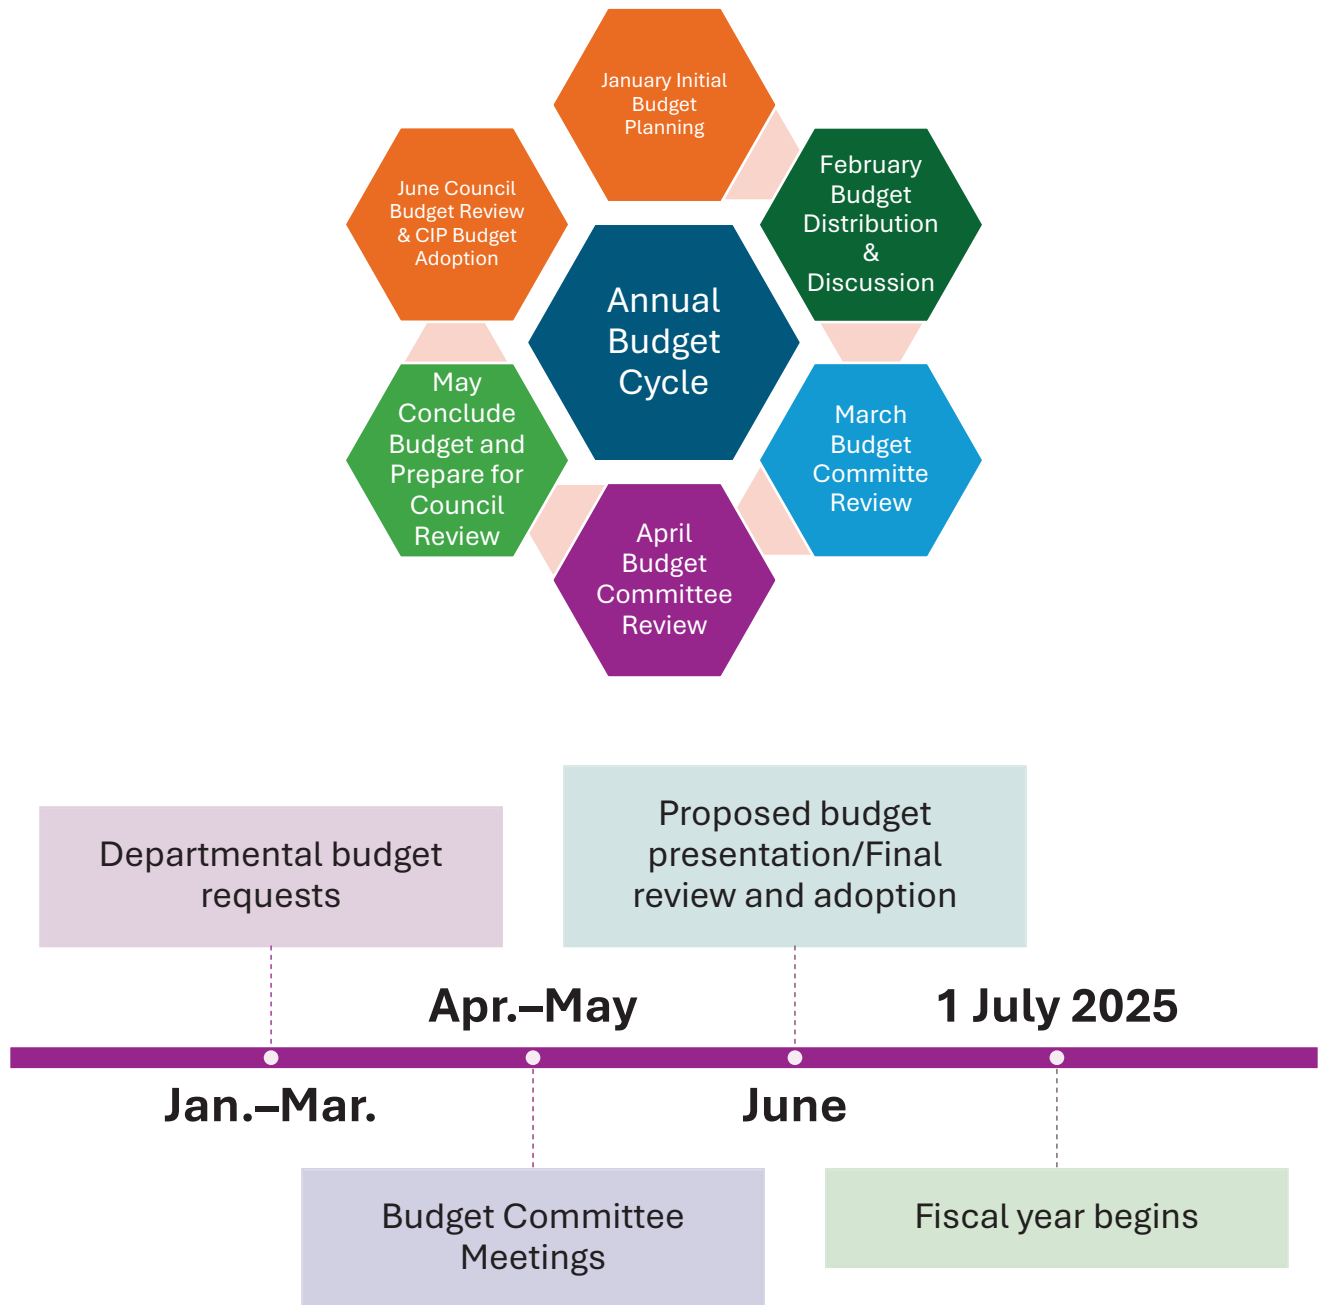

Mary Gourley
City Manager

DRAFT

Budget Timeline

The City of Sebastopol’s budget serves as a strategic blueprint for delivering efficient services while managing the revenues that support those services. It is a critical component of the City’s financial planning, management, and oversight framework. As a financial roadmap, the budget outlines anticipated revenues and expenditures for the fiscal year and is intended to provide a transparent, coherent, and comprehensive strategy for achieving the City Council’s goals and objectives.

The schedule below summarizes the public planning and reporting meetings for the budget cycle. The outline also describes Sebastopol’s annual budget development process. All dates are subject to change at the discretion of the City Council.

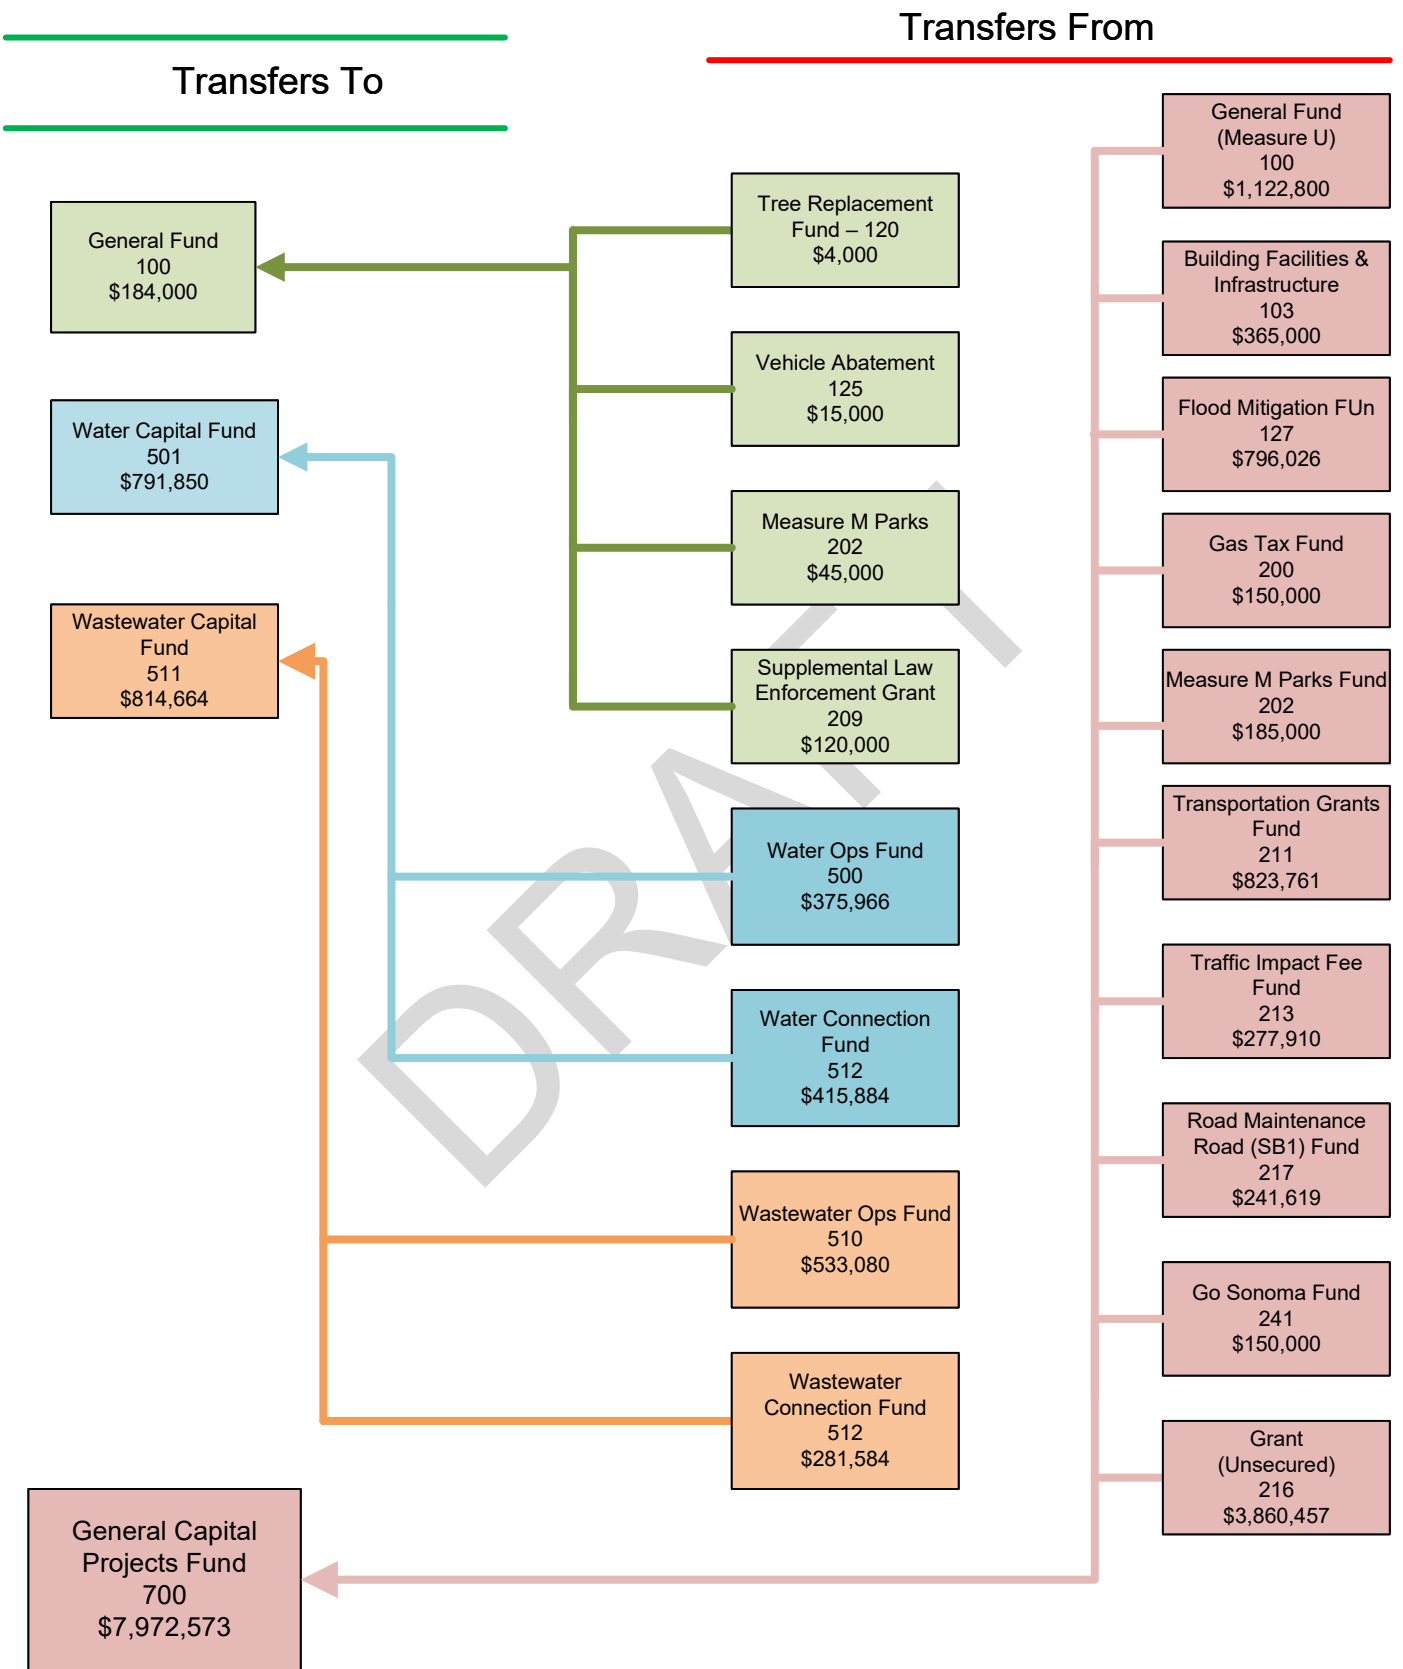

**PROPOSED FISCAL YEAR 2026-27
CITYWIDE - ALL FUND REVENUE | EXPENDITURE**

STATISTICS

Date of Incorporation	1902
Form of Government	Council/City Manager
Estimated Population as of January 1 2025 (most recent available data)	7,367
Area in Square Miles	1.853
Police Protection	
Sworn Police Officers	14
Civilian Employees	7
Calls for Service/Incidents (2025 Calendar Year)	18,798
Arrests (2025 Calendar Year)	314
Water and Sewer Utility	
Active Residential Accounts	2,509
Active Commerical Accounts	451
Average Daily Water Consumption (2025)	775,821
Ground Storage Capacity (gallons)	0- no elevated tanks
Elevated Storage Capacity (gallons)	7.5
Ground Water Production Capacity (gallons per day)	3,033,600
Pump Capacity (gallons per minute)	2,107
Waste Water Lift Station Capacity (gallons per day)	3,456,000
Building Permits	
Residential Building Permits (2025 Calendar Year)	401
Residential Assessed Valuation	48,684,716
Commerical Building Permits	54
Commercial Assessed Valuation	3,283,243

Proposed FY26-27 Measure U Overview

Note: From inception through the projected FY 2026–27 revenue, Measure U collections are estimated at \$3,412,737. Under the 40% policy guideline, the allowable amount would be \$1,365,095. The currently budgeted allocation is \$1,412,800, which exceeds the policy amount by \$47,705, or approximately 3.5% above the policy threshold.

Incorporated in 1902, the City of Sebastopol operates under California's general law and is governed by a five-member City Council. The city follows a Council-Manager system, where the Council, elected at-large for four-year terms, is responsible for setting city-wide policies, goals, and overseeing the city's operations through the City Manager.

The City Council has the authority to appoint key city officials, including the City Manager, City Attorney, and City Clerk. Regular Council meetings are held on the first and third Tuesday of each month, with special meetings called as needed. The Council also appoints a Mayor and Vice Mayor annually to lead the meetings and represent the city.

City Council Goals:

- Goal 1:** Community Vitality
- Goal 2:** Public Safety
- Goal 3:** Infrastructure
- Goal 4:** High Performance Organization
- Goal 5:** Long Term Financial Sustainability
- Goal 6:** Economic Development

CITY MANAGER

Mission Statement

The City Manager is responsible for implementing the City Council's goals and directives. This includes overseeing the implementation of policies related to city operations, budget management, personnel, and public communications. The City Manager also advises the City Council on all matters related to the city's operations and ensures the smooth functioning of the city's day-to-day activities.

Major Accomplishments in 2025-26

- ✓ Completion of Labor Negotiations with Two Bargaining Units (SPOA – Sebastopol Police Officer Association and SEIU – Service Employee International Union)
- ✓ Successfully transitioned Fire Department services to the Gold Ridge Fire Protection District.
- ✓ Recruited and hired a new Public Works Director.
- ✓ Successfully established the Enterprise Fund Oversight Committee and the Sebastopol Commons Building Committee.
- ✓ Led the City Council goal-setting process.

Goals and Objectives for 2026-27

Continue to support City Council in achieving its goals by focusing on priority projects and initiatives. The goals include:

- Community Vitality
- Public Safety and Responding to Homelessness
- Infrastructure
- High Performance Organization
- Long-term Financial Sustainability
- Economic Development

CITY ATTORNEY

Mission Statement

The Office of the City Attorney provides timely, efficient and high-quality legal services, advice and support to the City Council, Board and Committees, and City staff related to the establishment, implementation, and enforcement of City policies. The City Attorney also evaluates and addresses legal issues arising out of the City's decisions and activities to minimize the risk of liability.

Goals for FY 2026 2027

- ❖ Provide timely, solution-oriented legal guidance for key Council initiatives.
- ❖ Support staff and Council in structuring agreements.
- ❖ Conduct a targeted review of the Municipal Code to identify outdated, redundant, or inconsistent provisions.
- ❖ Prioritize updates in areas impacting day-to-day operations (planning, permitting, enforcement, and administrative procedures).
- ❖ Ensure consistent compliance with the Brown Act through review of agenda practices, staff reports, and Council procedures.
- ❖ Improve Citywide compliance with the California Public Records Act by refining response protocols and reducing escalated complaints or disputes.
- ❖ Provide at least one annual joint training for Council and staff on open government requirements
- ❖ Actively manage all pending litigation with a focus on early resolution where cost-effective and consistent with City interests.
- ❖ Reduce avoidable legal exposure by improving contract language, staff training, and early legal review of high-risk actions.
- ❖ Develop or refine standard contract templates (services, consulting, interagency agreements, and construction-related contracts).
- ❖ Provide legal support for City staffing challenges
- ❖ Support compliance with employment law, personnel policy updates, and disciplinary processes to reduce risk exposure.
- ❖ Assist in ensuring labor-related decisions are defensible, consistent, and aligned with operational needs.
- ❖ Improve clarity of legal advice by emphasizing practical implications and implementation steps.
- ❖ Provide clear, plain-language legal analysis to support Council decision-making in complex or high-sensitivity matters.
- ❖ Where appropriate, summarize legal risk in decision-focused formats (options, risks, and recommended paths forward).
- ❖ Help reduce ambiguity in governance processes that can delay Council action or implementation.

ASSISTANT CITY MANAGER / CITY CLERK

Mission Statement

The mission of the City Clerk Department is to provide efficient, quality services in a courteous, knowledgeable and professional manner. The City Clerk's Office represents the "front door" of City Hall and is here to help demystify the government process. The City Clerk's office encourages community members to have a voice in local government. The City Clerk's multi-faceted office functions have evolved in response to the needs of legislative bodies and their constituents. As Clerk to the City Council, this Office records and preserves Council proceedings and provides procedural and technical support where needed. As official record keeper, the City Clerk maintains custody of City records.

Assistant City Manager /
City Clerk *
1.00 FTE

*Designated Assistant City Manager holding two positions: Assistant City Manager and City Clerk.

Major Accomplishments in 2025-2026:

✓ ACM / City Clerk Staffing

- Conducted a comprehensive assessment of workload, responsibilities, and service demands for the combined Assistant City Manager and City Clerk roles.
- Determined the dual-role structure is operationally unsustainable and developed a recommended approach for separation of functions.
- Implemented cross-training and mentoring to strengthen internal capacity and ensure continuity of operations.
- Initiated exploration of shared services opportunities with neighboring jurisdictions to improve efficiency and reduce administrative costs.
- Successfully recruited and onboarded new staff, increasing administrative capacity and improving service delivery timelines.

✓ Labor Negotiations

- Initiated engagement planning with bargaining units to support timely negotiations.
- Developed a structured framework addressing key priorities, including compensation, benefits, and working conditions

✓ Leadership and Staff Development

- Partnered with Human Resources to expand leadership development efforts across departments.
- Increased access to professional development, training, and mentorship opportunities.
- Implemented initiatives to improve workplace culture, emphasizing communication, transparency, and collaboration.
- Enhanced cross-departmental coordination and developed protocols and best practices to reduce operational silos.

✓ Technology and IT Improvements

- Initiated a comprehensive assessment of the City's technology infrastructure, including systems, security, and operational needs.

- Strengthened cybersecurity awareness and data resiliency through CIRA sponsored trainings

✓ **Policy Development**

- Advanced development and refinement of policies supporting City Council procedures and operations.
- Strengthened coordination with the City Attorney to proactively address legal and regulatory changes.
- Improved clarity, consistency, and accountability in internal policies, supporting more effective governance and decision-making.

✓ **Communications and Transparency**

- Increased frequency, clarity, and accessibility of public communications from City leadership.
- Implemented strategies to improve transparency and public awareness of City initiatives and decisions.
- Strengthened community engagement through more consistent and accessible information sharing.
- Improved coordination and responsiveness to Public Records Act (PRA) requests, enhancing compliance and public access to records.

Goals for FY 2026–2027

❖ **Implement a Sustainable and Effective Staffing Model**

- Finalize and implement the separation of the Assistant City Manager and City Clerk roles, subject to Council approval.
- Recruit and onboard qualified candidates within established timelines.
- Continue cross-training and succession planning to ensure operational continuity.
- Evaluate and, if feasible, implement shared services agreements with neighboring jurisdictions.

❖ **Strengthen Leadership Capacity and Workplace Culture**

- Expand professional development and training opportunities for staff at all levels.
- Continue initiatives that promote communication, transparency, and cross-departmental collaboration.
- Establish regular employee feedback mechanisms (e.g., surveys, check-ins).
- Improve employee engagement, increased retention, and expanded internal advancement opportunities.

❖ **Enhance Technology Infrastructure**

- Modernize and enhance the Municipal Code platform to improve transparency and user experience.

❖ **Ensure Clear, Consistent, and Compliant Policies**

- Complete and maintain updates to City Council procedures and administrative policies.
- Develop standardized policy templates and formal review processes.
- Continue coordination with the City Attorney to ensure compliance with evolving regulations.

❖ **Improve Transparency and Community Engagement**

- Increase frequency and clarity of communications from City leadership.
- Incorporate video communication to enhance accessibility and engagement.
- Expand online access to City documents and improve self-service capabilities.
- Streamline Public Records Act (PRA) processes to reduce response times.
- Update and expand City Clerk document templates to improve consistency and efficiency.

❖ **Election Management**

- Administer the November 2026 General Municipal Election for three City Council seats.
- Oversee all phases, including planning, candidate filings, campaign disclosures, and certification.
- Enhance public outreach, education, and transparency throughout the election process.

ADMINISTRATIVE SERVICES (FINANCE) DEPARTMENT

Mission Statement

The Department of Administrative Services is responsible for the divisions of Finance & Accounting, Budgeting, Human Resources and Information Technology.

1. Finance & Accounting – Performing the accounting for all of the City’s financial transactions and coordinating preparation of the annual audit.
2. Budgeting - Coordinating the annual operating and capital budget process, including the development of the fee schedule, assist departments with reports and analysis to ensure expenditures are within budgeted appropriations. Track and report on budget status to City Council.
3. Human Resources - Process bi-weekly payroll for all City employees, reporting and paying tax obligations, and completing all reporting requirements.
4. Information Technology - Work collaboratively with all City departments to deliver the IT services and infrastructure.

Major Accomplishments in 2025-26:

- ✓ Filled the Accountant position and strengthened the core finance team.
- ✓ Completed a successful audit with the new firm, Chavan & Associates, LLP.
- ✓ Issued Requests for Proposals (RFPs) for Information Technology services and Community Outreach Coordinator.
- ✓ Designed an internal Budget in Brief document to enhance transparency and communication
- ✓ Delivered routine quarterly financial updates to City Council.
- ✓ Completed and implemented new terms for the Memorandums of Understanding (MOUs) with the Sebastopol Police Officers Association (SPOA) and Service Employees International Union (SEIU).
- ✓ Completed onboarding of 9 new City personnel.
- ✓ Staffed the Standing Committee of the Budget Committee.
- ✓ Assisted staff with the Standing Committee of the Enterprise Fund Oversight Committee.
- ✓ Coordinated cross-departmental efforts to improve operational efficiency and administrative processes.

Goals and Objectives for 2026-27:

- ❖ Support citywide revenue and regulatory initiatives by assisting with impact and user fee studies.

- ❖ Work with the Building and Planning Departments to identify permitting software that integrates with the City's financial system.
- ❖ Consolidate contractor licensing into the business license portal to streamline operations and customer service.
- ❖ Work with the Human Resources Advisor to update personnel rules and regulations.
- ❖ Enhance financial forecasting and long-range financial planning to address potential revenue constraints and economic uncertainties by utilizing financial advisors.
- ❖ Create financial policies in alignment with the City's Risk Management Agency (CIRA).
- ❖ Ensure continued staff compliance with mandatory trainings through CIRA's Vector Solutions platform.
- ❖ Continue collaboration with CIRA on general liability and workers' compensation claims.
- ❖ Work with Human Resources on citywide staff development, recruitment, succession planning, and mandated personnel regulation compliance.

PLANNING DEPARTMENT

Mission Statement

The Planning Department provides assistance to the City Council and staffs the following City boards and committees: Planning Commission, Design Review Board/Tree Board, Climate Action Committee, Public Arts Committee, Environmental Review Committee and Development Review Team.

In addition to the processing of development applications, Planning staff are involved in inter-jurisdictional outreach and regional/state programs and serve as the City's staff liaison to agencies such as the Sonoma County Transportation and Climate Authorities, the Sonoma Land Trust, the Sonoma County Community Development Commission, the Napa-Sonoma Planning Collaborative, the Association of Bay Area Governments/Metropolitan Transportation Commission, and other regional, state and federal agencies on an as-needed basis to support City initiatives and State or federally-mandated programs involving land use and environmental laws.

Major Accomplishments in 2025-26:

- ✓ Worked with the Public Works Department to include Active Transportation Plan projects into the Capital Improvement Plan budget for the upcoming 5 year cycle.
- ✓ Adopted Zoning Code updates to address necessary Housing Element Programs and Zoning Code updates as required by the Housing and Community Development (HCD).
- ✓ Adopted provisions to implement Assembly Bill 1033 (AB 1033) which allows for the separate sale of Accessory Dwelling Units (ADUs) as condominium lots pursuant to State Law.
- ✓ Worked with Caltrans on Downtown Study supported by their Sustainable Transportation Grant (Sustainable Transportation Plan) to evaluate traffic patterns and safety improvements along a section of the Main Street corridor.
- ✓ Worked with ABAG/MTC to implement an ABAG Priority Development Area (PDA) grant supporting Housing Element implementation including review of zoning requirements along Highway 116 and revitalization planning for the Commercial parcels along this route.
- ✓ Adopted a related Workforce Housing overlay district into the Zoning Code.

Goals and Objectives for 2026-27:

- ❖ Continue work on updates to the Sebastopol Municipal Code (SMC) to address new State Laws.
- ❖ Continue Housing Element implementation.
- ❖ Continue work on the Priority Development Area (PDA) grant funded Housing implementation initiatives including review of zoning requirements along Highway 116 and revitalization planning for the City's commercial areas including the Downtown.
- ❖ Continue to work with our Commissions, boards and committees to implement their work plans.
- ❖ Initiate work to streamline current permitting processes to promote business development by eliminating unnecessary regulations and providing better clarity and consistency.
- ❖ Continue to process development applications in an efficient and effective manner while protecting the City's values and its environment.

BUILDING INSPECTION DEPARTMENT

Mission Statement

The Building Department of City of Sebastopol strives to implement State and City codes in a fair and equitable manner, in an expedient manner. Permit issuance for most projects in days not weeks or months. We will have a slight reduction in revenues next year compared to this year, as all approved projects have had permit issuance this year with the exception of the second half of Canopy.

Major Accomplishments in 2025-26:

- ✓ With the relocation of the Building Department to City Hall, improvements with staff coordination and streamlining of project permitting/inspection process has been accomplished.
- ✓ Issued and inspected first 27 homes at Canopy.
- ✓ Continued refinement with Permit Issuance and Tracking Software.
- ✓ Permitted and inspected 44-unit affordable housing project including dealing with neighbor complaints on the Woodmark Project.
- ✓ Streamlining of plan checks.
- ✓ Issued and inspected approximately 500 permits-many larger projects.
- ✓ Issued and inspected 4 Habitat 4 Humanity units downtown.
- ✓ Issued and inspected 10 new homes at the east end of Bodega.

Goals and Objectives for 2026-27:

- ❖ Work with developer in the entitlement process for two downtown hotels, as well as two major projects on Valentine.
- ❖ Permit and inspect 80 new homes at the north end of town, being responsive to neighbors as much as possible through the process.
- ❖ Review of new software for permitting.
- ❖ Minimize number of days between code compliance complaints and initial action.
- ❖ Reduce permitting time for all small projects so that permits are issued in from one to three days from receipt.
- ❖ Facilitate ADU permitting process so that at least 80% of applications are processed and ready to issue within 5 working days.

POLICE DEPARTMENT

Mission Statement

The Sebastopol Police Department is committed to preserving life, peace, and property by providing policing that embodies integrity, professionalism, humanity, and service to the community.

Major Accomplishments in 2025-26:

- ✓ Significant progress toward full staffing, with all authorized positions currently in recruitment or hiring processes, positioning the Department to achieve full staffing levels for the first time in several years.
- ✓ Increased uniformed presence throughout the city, including expanded foot patrols and proactive community engagement efforts.
- ✓ Continued alignment of operational priorities with City Council public safety goals established during the 2025 Goal Setting Workshop.
- ✓ Successful internal leadership development through promotions, including the advancement of one officer to Sergeant and one Sergeant to Lieutenant.
- ✓ Strengthened organizational stability and service capacity through improved staffing, leadership continuity, and increased community-focused policing strategies.

Goals and Objectives for 2026-27:

- ❖ Expand training programs to ensure effective onboarding, field training, and professional development for newly hired personnel, supporting a smooth integration into the Department and maintaining service quality during staffing transitions.
- ❖ Continue recruitment and hiring efforts with the goal of achieving and sustaining full staffing levels across all authorized sworn and professional positions.
- ❖ Evaluate and revitalize the Citizen Volunteer Program, including assessing structure, supervision, and operational capacity with the intent to reestablish and expand volunteer participation where feasible.
- ❖ Explore the development and implementation of a Citizen's Academy program, subject to available staffing resources, to enhance community understanding of police operations and strengthen public engagement.
- ❖ Maintain and expand proactive patrol strategies, including foot, vehicle, and community-oriented policing efforts, with continued emphasis on visibility in the downtown core and commercial districts.
- ❖ Strengthen collaboration with community stakeholders to further enhance public safety services and responsiveness to identified community needs.
- ❖ Continue alignment of departmental operations and initiatives with City Council-adopted public safety goals and broader city strategic priorities.

PUBLIC WORKS DEPARTMENT

Mission Statement

The Department is dedicated to serving the community by delivering high-quality, responsive services. It is responsible for the efficient and effective planning, design, construction, operation, and maintenance of the City's essential public infrastructure. The Department provides core services to ensure compliance with regulatory permitting requirements, supports the City's infrastructure systems, and reviews private development projects that impact the public right-of-way.

Major Accomplishments in 2025-26:

- ✓ Completed the reorganization of the Public Works Department and Engineering Department and hired a new Public Works Director and selection of a new contract City Engineer.
- ✓ Maintained regulatory compliance with water, sewer, storm water, air quality, and ADA standards.
- ✓ Maintained Cal/OSHA regulatory compliance safety and training policies program.
- ✓ Completed work with Community Cultural Center ad-hoc to develop a master plan memorandum for a “roadmap” for future work at the center.
- ✓ Completed Bodega Avenue Bike Lanes and Pavement Rehabilitation project Phase 2.
- ✓ Began construction on Pavement Dig out and Repairs and Pavement Improvement Project.
- ✓ Completed Burbank Farms ADA Pathway and Restroom.
- ✓ Completed ADA improvements at City Hall and commenced construction by Public Works staff.
- ✓ Completed the Americorps Trail Extension project.
- ✓ Completed the installation of the Ives Park Reach 1 & 2 Fence.
- ✓ Completed the grant application and awarded a grant for pedestrian improvements at Covert Lane and Zimpher Drive.
- ✓ Completed the 2025 Pavement Management Program budget options report that identifies citywide pavement condition and deferred maintenance costs.
- ✓ Continued to coordinate with Caltrans on the replacement of the pedestrian crossing improvements at SR 116 at four (4) intersections at Burnett, Keating, Hutchins, and Walker.

- ✓ Continued to search for grant and funding opportunities to continue moving forward with the Citywide Pavement and Repairs Program to improve and maintain the city's street and road network.
- ✓ Continued to search for grants for implementation of bike and pedestrian safety improvements.
- ✓ Continued grant funding pursuits for: ATP (Active Transportation Program) grant for Ragle Road/West Side bicycle trail and citywide pavement resurfacing.
- ✓ Completed the Water Master Plan.
- ✓ Completed replacement of the Moter for Well #4.
- ✓ Continued to support and develop prioritized sewer service improvements to areas within the city that pose a threat to public health and the environment as a result of deficiencies in existing sewer systems, including Zimpher Creek Sewer replacement / relocation and others list in FY 2025-26 CIP.
- ✓ Continued support of the Santa Rosa Plain Groundwater Sustainability Agency (GSA) via participating in the GSA TAC, and the GSA Board and monitor/review potential rate increases.
- ✓ Continued to participate in the MS4 stormwater permit renewal process and implemented a stormwater work plan with the Russian River Watershed Association.
- ✓ Submitted five (5) grant applications for the Go Sonoma SCTCA cycle 2 program for street and transportation projects totaling nearly \$16 million over a 5-year period.

Goals and Objectives for 2026-27:
--

- ❖ Continue the transition of relying less on consultants to perform day-to-day routine activities and services by hiring in-house staff to allow for better response times to the public and City departments, at less cost for engineering support services.
- ❖ Continue to invest in the training of in-house staff to provide for technical expertise needed to support the reorganization.
- ❖ Complete implementation of full asset management system.
- ❖ Continue to search for grant opportunities and funding sources to implement the 2026 Pavement Management Program budget options.
- ❖ Provide engineering responses and support for core services only to avoid expending City costs on non-core and discretionary services.
- ❖ Oversee the Capital Improvement Program (CIP) and continue to implement and invest in early-on design to develop a robust estimate of costs thereby reducing budget amendment requests.
- ❖ Continue pursuit of grant applications and financing for Well #4 replacement, inflow and infiltration reduction, ATP and other pedestrian safety enhancement grants, HSIP (highway safety improvement program) grants, and parks.
- ❖ Maintain clean, safe and accessible outdoor recreation spaces that encourage healthy community activities.
- ❖ Enhance and respect natural habitat areas and wildlife spaces through well maintained and defined public corridors.
- ❖ Implement water conservation measures and utilize native tree and plant species replacement whenever applicable.
- ❖ Address vandalism repairs and debris removal promptly discourage compounding associated issues related to these activities.

DEBT SERVICE

The City records and disburses funds used to repay the annual principal and interest associated with issued debt. These debt service activities reflect both the accumulation of financial resources for repayment and the payment of principal on the City's general long-term obligations.

The General Fund accounts for the payment of debt service obligations related to general governmental purposes. The Utility Fund accounts for all debt service associated with the City's water utility operations.

Village Mobile Home Park (99-72)

On September 18, 2007 the City entered into a purchase agreement in the amount of \$1,611,594 for the Village Mobile Home Park purchase. The lease financing was in the amount of \$817,500 with an interest rate of 4.90% per annum for 20 years, and a \$17,500 cost of issuance. The semi-annual payments are \$32,293 and the debt will be paid in full on July 1, 2027.

Well 7 Arsenic Treatment System Construction Loan (99-77)

The City of Sebastopol needs to lower the arsenic level in Well 7, and construction plans and specifications for the Well 7 Water Treatment System has been completed by the consultant, and approved by the City Engineer. The City entered into 20 year loan from Muni Financing for the arsenic treatment system construction. The \$1,235,000 loan at 4.10% is for 20 years ending on June 30,2035.

On May 18, 2021 the City adopted a resolution authorizing the refinancing of Well 7 Loan in the amount of \$1,177,000. The lease cost of issuance was \$30,000, with an interest rate of 2.09%, with annual payment of \$84,955 and the lease will be paid in full on December 2034.

Energy Conservation Measure Tax Exempt Lease Purchase (99-80)

The City of Sebastopol selected Syserco Energy Solution, Inc. to develop and implement a "Comprehensive Energy Efficiency, Water Conservation, and Solar PV Project" at City-owned facilities and water meter connections. The Project received unanimous approval from the City Council on October 19, 2021, and approval of the Tax-Exempt Lease Financing. The City entered into 15 year Equipment Lease Purchase Agreement with Signature Public Funding Corporation. The \$4,938,891 tax exempt lease purchase at 1.77% is for 15 years ending on July 1, 2036.

OTHER NON-MAJOR GOVERNMENTAL FUNDS

Non-major governmental funds are essential components of a city's financial structure, supporting specific activities and projects that fall outside the general fund's scope. It's important to note that while these funds are 'non-major' in the context of the city's overall budget, they play a significant role in maintaining the city's infrastructure and services to ensure transparency and accountability in their usage. The various funds and their sources include:

- a) Tree Replacement Fund (120) This fund is used for the removal and replacement of trees along City streets and City-owned properties (excluding City parks). Tree removal and replacement in City parks is paid from Measure M-Parks fund.
- b) Permit Technology Fund (122) is an integral part of the city's infrastructure, aimed at streamlining the permit process through the implementation of advanced technological solutions. This fund supports the development and maintenance of a digital platform that facilitates efficient permit issuance, tracking, and management, ensuring that the city's building and development standards are upheld while providing a user-friendly experience for residents and contractors.
- c) Street Pavement Reserve Fund (123) This fund is used for paving streets including associated improvements (such as curb and gutter). The fund is primarily used for CIP street paving project and not intended for general street maintenance activities.
- d) Vehicle Abatement Fund (125) was established to address the issue of abandoned vehicles within the city limits. It provides Sebastopol's share of a county pool of funds provided by the state based on city size and population to remove, store, and dispose of these vehicles in an environmentally responsible manner. The fund is a testament to the city's proactive approach to maintaining public safety and aesthetics. It ensures that abandoned vehicles, which can be eyesores and potential hazards, are promptly dealt with, thereby preserving the integrity of the city's streets and neighborhoods.
- e) Flood Mitigation Fund (127) is a financial reserve established to manage and mitigate the impacts of flooding within the city. This fund is a component of the city's emergency preparedness and response strategy, ensuring that resources are available to address the immediate and long-term effects of flood events and focus on its role in safeguarding the community against flood risks, detailing the measures and projects it supports, such as the construction of levees, improvement of drainage systems, and restoration of floodplains.
- f) Police Endowment Fund (128) is a fund that was established from an endowment donation from a donor who passed away but wanted a portion of their estate to go to the Sebastopol Police Department. The intention of the funds was for improvements and support for the police department that the employees would benefit from.

SPECIAL REVENUE FUNDS

Special Revenue Funds are designated for income obtained from particular sources which are limited or committed to spending for specific objectives. These funds are mandated by legal statutes, provisions, or ordinances to support certain government functions or activities. The various funds and their sources include:

- a) Gas Tax Fund (200) accounts for funds from the State of California under the Street and Highway Code Sections 2103, 2105, 2106, 2107 and 2107.5. The use of funds is restricted to street related projects, which can include related public facilities for non-motorized traffic, e.g. bike and pedestrian paths.
- b) Measure M Transportation Fund (201) receives funding from the County for construction of eligible transportation projects that improve the quality of roads, sidewalks and bike lanes. This allocation ends in March 2025 and being replaced with Go Sonoma (Fund 241)
- c) Measure M Parks Fund (202) receives funding from the County from the November 6, 2018 voters approved measure of the one-eighth cent sales tax that will support city parks, trails, signs, buildings, playgrounds, sports field, restrooms, picnic area and visitor centers.
- d) Art In-Lieu Fund (203) accounts for developer contributions in lieu of installation of public art on project sites and income received from art programs and events to fund public artwork, cultural programs, maintenance/conservation, and administrative costs relating to the Art in Public Places Program.
- e) Housing Linkage Fee Fund (204) is used to mitigate the housing impacts caused by new, changed and expanded nonresidential development in the City and provide a source of revenue for housing affordable to person of very low and low income.
- f) Inclusionary Housing Fund (205) accounts for revenue received from fee payment to be used for the exclusive purpose of providing housing affordable to low and moderate income households in the City for construction of five or more new dwelling units, or for the division or subdivision of land into five or more lots for residential use.
- g) Building Permit Incremental Fee Fund (206) accounts for revenue received from construction inspection and plan checks to fund training, certification exams and courses.
- h) Downtown Improvement District (207) was established via ordinance 666 and shall include all businesses located within the area described in Exhibit A. The revenues derived from taxes imposed upon all the businesses in the area shall be utilized for acquisition, construction or maintenance of parking facilities, decoration of any public place, promotion of public events which are to take place, furnishing of music in any public place and general promotion of retail trade activities for the benefit of the area.
- i) General Plan Update Fee Fund (208) is assessed on Building Permits and is designed to help recover the significant long-term costs of periodically updating the General Plan and Zoning Ordinance. The Fund is typically used for consultant and other costs related to updates.
- j) Supplemental Law Enforcement Services Fund (209) receives funds from the State of California to supplement local law enforcement activities.
- k) Asset Forfeiture Fund (210) is used for specified police activities (excluding regular salary) from confiscated assets of convicted drug felons.

- l) Transportation Grant Fund (211) funds is a financial resource aimed at enhancing the city's transportation infrastructure. It supports a variety of projects, including road maintenance, bicycle and pedestrian access improvements, and safety enhancements receiving transportation grant funding from regional, State and Federal agencies. The fund is managed to ensure that it addresses the city's needs while promoting sustainable transportation practices. It reflects the city's commitment to improving the quality of life for its residents through thoughtful and effective use of transportation grant resources.
- m) Park in Lieu Fund (212) receives revenue from new residential and hotel development to mitigate the impact of such new development on City park and recreational facilities. The use of revenues from the Fund is restricted to park and recreational capital improvements.
- n) Traffic Impact Fee Fund (213) was established to reduce the traffic impacts caused by new development within the City limits. Revenue collected from these fees shall be used solely to pay for the City's future construction of facilities or services or reimburse the City for facilities constructed by the City with funds advanced by the City from other sources.
- o) Underground Utilities Fee Fund (214) is an in-lieu fee paid by development projects where the City Engineer has determined physical undergrounding of overhead utilities is not practical. The Fund is used for general City utility undergrounding projects.
- p) Lighting Assessment District (215) was formed on May 18, 1981 by the City to cover the costs associated with the operation and maintenance of the citywide streetlight system. This action included adopting Resolution Number 3316 proposing the formation of the Assessment District pursuant to the Landscaping and Lighting Act of 1972. Assessments were levied for Fiscal Years 1981/82; but the Council elected not to collect annual assessment from 1983-1996. Since 1996/97 assessments have been collected on an annual basis. Funds are received from the County via property tax rolls for the exclusive use of paying the operating costs of street lighting within the City of Sebastopol. The assessment is the subject of an annual hearing to review projected costs and setting of the tax levy.
- q) Community Development Block Grant (216) funds communities with resources to address a wide range of unique community development needs such as affordable housing, anti-poverty programs and infrastructure development.
- r) Road Maintenance & Rehabilitation SB1 (217) accounts for funds from the State of California under Road Repair and Accountability Act of 2017. The use of funds is similar but, not identical, to Gas Tax use rules and must be used for projects related to road maintenance and rehabilitation, safety projects, and traffic control devices.
- s) General Government Facilities Fee Fund (219) collected from development projects. This fund is used to fund government facilities to maintain the existing level of service the City provides. As new development occurs, the City will be required to expand general facilities to maintain the existing standard.
- t) Fire Facilities Fee (220) collected from development projects. This fund is used to fund expansion of Fire facilities to maintain the existing level of service the City provides. As new development occurs, the City will be required to expand Fire facilities to maintain the existing standard.
- u) Stormwater Facilities Fee (221) collected from development projects. This fund is used to fund expansion of the City's Stormwater management facilities to maintain the existing level of service the City provides. As new development occurs, the City will be required to expand the capacity of stormwater facilities to service new development.

- v) Human Services & Community Fund (233) accounts for revenue obtained by the solicitation of voluntary contributions from residents and property owners through water and sewer bills and other means of collection or fundraising activities to fund programs or activities which address the welfare of the City's residents regardless of all age, social status or income.
- w) Wellness/Mental Health Fund (240) Program, established in the 2022 Budget Act (Assembly Bill 178, Chapter 45, Statutes of 2022), provides \$50 million for city and county law enforcement agencies for the purpose of improving officer wellness and expanding mental health sources. The funding may be used for any of the purposes such as establishing or expanding officer wellness units, establishing or expanding peer support units, services provided by a licensed mental health professional, counselor or other professional that works with law enforcement, expanding multiagency mutual aid programs focused on officer wellness and mental health, other programs and services that are evidence-based or have a successful track record of enhancing officer wellness.
- x) Go Sonoma Fund (241) is voters passed a measure in 2020 to extend Measure M (Roads) sales tax funding for an additional 20 years. Similar to Measure M (Roads), this fund is used for traffic and safety improvements, maintain roads, and build bikeways and pathways..

WATER/WASTEWATER ENTERPRISE FUNDS

Mission Statement

The Public Works/Engineering Department is committed to safeguarding the health and well-being of our community by delivering exceptionally safe and sustainable water and wastewater services. Providing clean, reliable drinking water and efficient wastewater management is our top priority while implementing innovative economic solutions and environmentally responsible practices.

Major Accomplishments in 2025-26:

- ✓ Maintained regulatory compliance with water, sewer, storm water, and air quality standards
- ✓ Maintained City facilities, generators, and mechanical equipment per long term maintenance plan
- ✓ Maintained Cal/OSHA regulatory compliance safety and training policies program
- ✓ Implemented sewer system televising inspection and maintenance plan
- ✓ Continued to improve the physical and financial condition of the water and sewer systems
- ✓ Completed the Water System Master Plan Update
- ✓ Initiated the Sewer System Master Plan Update

Goals and Objectives for 2026-27:

- ❖ Protect the health and welfare of the community by ensuring continuous uninterrupted operation of the water and wastewater distribution systems
- ❖ Provide economic maintenance, repair, and replacement of the water and wastewater transmission systems and infrastructure
- ❖ Continue regulatory compliance with water, sewer, storm water, and air quality standards
- ❖ Complete the analysis for replacing Municipal Well #4
- ❖ Initiate Design for replacing Municipal Well #4
- ❖ Complete Structural & Seismic Assessments of Water Tanks
- ❖ Finalize the Sewer System Master Plan Update
- ❖ Complete Zimpher Creek Sewer Relocation Part 1
- ❖ Complete Morris Street Sewer Pump Station Repairs

Project No: 0125-20.01

Category Bikes, Pedestrians & Safety

Project Location: Bodega Avenue, Ragle Road, Mill Station Road

DESCRIPTION:

Provide bicycle lanes and sidewalks/pedestrian paths on Ragle Road - from Bodega Avenue to Mill Station Road; Mill Station Road - from Ragle Road to SR 116. This is a joint City/County endeavor. City applied for ATP grant in 2018 and again in 2022 but was not awarded. This project is updated to exclude the bike lanes on Bodega Ave since the City has already completed the segment from High Street to Nelson Way and recently completed the next phase up to Pleasant Hill Road, and from Valley View Drive to Atascadero Creek. This project is mostly on County right of way (approximately 75%) and the County will take the lead on applying for a grant for this project. This project is currently unfunded awaiting Sonoma County's lead direction on the project and pursuit of future grant.

JUSTIFICATION: Listed as a regional project with SCTA/Measure M Plan, MTC, and CTC. This project is current on hold pending the County's decision to move forward with this joint project (County is the Lead Agency).

GENERAL PLAN Goals and Policies: Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhoods with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31

Project No: 0131-23.01

Category Bikes, Pedestrians & Safety

**Project Bodega Avenue from West End City
Location: Limits to Valley View Drive**

DESCRIPTION: Replace short segment of existing guardrail along north side of Bodega Avenue east of the bridge, extend (new) approximately 340 lineal feet of guardrail system on north side of Bodega Avenue, and add/modify signage and pavement markings as appropriate. This is a project funded with Highway Safety Improvement Program (HSIP) cycle 11 funds (10% local match, max grant is \$312,300).

JUSTIFICATION: This segment of guardrail was identified as deficient (e.g. railing too low, outdated guardrail and end treatment systems) and in need of upgrades. This location was identified in the City's Local Road Safety Plan as an area with an increased number of lane departure collisions due to the narrow shoulder. Many vehicles drop off into the creek bed as the existing conditions do not provide adequate conditions for vehicles to recover. There is a significant drop off (around 1 foot) from the pavement to existing grade and unrecoverable side slopes of 2:1.

GENERAL PLAN Goals and Policies: Circulation CIR 1-9: Consider all transportation improvements as opportunities to improve safety, access, and mobility for all roadway users and avoid dead-end streets and cul-de-sacs.

Project No: 0132-23.02

Category Bikes, Pedestrians & Safety

Project Location: S Main/Burnett Streets; N Main Street/Keating Avenue; Gravenstein Hwy/Hutchins Avenue; Petaluma Avenue

DESCRIPTION: Install pedestrian-activated circular LED rapid flashing beacons replacing existing standard flashing beacons; install perimeter lighted pedestrian crossing signs; install pedestrian push buttons; remove existing in-roadway warning lights. This project is primarily funded with a Highway Safety Improvement Program (HSIP Cycle 11) grant from the State.

JUSTIFICATION: SR 116 Traffic Corridor Safety Study shows these intersections meet warrant threshold for RRFBs.

GENERAL PLAN Goals and Policies: Circulation CIR 2-2: Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.

Project No: 0134-24.01

Category Bikes, Pedestrians & Safety

Project Location: Covert Lane/Zimpher Drive

DESCRIPTION: Install Rapid rectangular flashing beacons (RRFB) at this intersection including minor lane configuration. The City received a \$349,560 HSIP cycle 12 grant from the State for the design and construction of the project with a minimum 10 percent local match requirement.

JUSTIFICATION: This is needed for pedestrian safety.

GENERAL PLAN Goals and Policies: Circulation CIR 2-2: Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.

Category Bikes, Pedestrians & Safety

Project Location: Sunset Avenue/Johnson Street

DESCRIPTION: Install a new crosswalk on the west leg of Sunset Drive at the intersection with Johnson Street including ADA curb ramps which may require modification of the sidewalk on the southwest corner due to slope issues. Pedestrian yield markings approaching the crosswalk should also be added.

JUSTIFICATION: This project is needed for pedestrian safety and will make the crossing safer for Analy HS students and other pedestrians. Staff is researching grant opportunities for this project.

GENERAL PLAN Goals and Policies: Circulation CIR: Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.

Project Location: Johnson Street/Morris Street/Eddie Lane

DESCRIPTION: New concrete sidewalk between new crosswalks at Sunset Avenue/John Street and Johnson Street/Eddie Lane along west side of street; new crosswalk and sidewalk landings at the intersection where the West County Trail transitions from Morris Street to Eddie Lane, new paving for the "apron" of Eddie Lane between Johnson Street/Morris Street and the entrance to the West County Regional Trail. Staff has applied for SCTCA cycle 2 grant for this project. This grant, if awarded, would require a 15% local match.

JUSTIFICATION: This project is needed for pedestrian safety and to make the intersection safer for students at Analy HS and other pedestrians.

GENERAL PLAN Goals and Policies: Circulation CIR 2-2: Routinely incorporate sidewalks and enhanced pedestrian crossing facilities as part of new street construction or enhancements to existing streets.

Project Location: Ragle Road/Bodega Avenue

DESCRIPTION: New traffic signal at Ragle Road and Bodega Avenue and related improvements and bike facilities improvements on Ragle Road from Holly to Bodega Avenue. Staff will be researching HSIP grant (20% local match) and has applied for SCTCA Cycle 2 grant (15% local match) to fund this project. Year 1 cost is for preparing grant application for HSIP grant and updating the preliminary construction cost estimate.

JUSTIFICATION: This intersection meets traffic warrants for a traffic signal.

GENERAL PLAN Goals and Policies: Circulation CIR 1-1: Ensure that the City's circulation network is maintained and improved over time to support buildout of the General Plan in a manner that is consistent with the General Plan Circulation Map

Project Various locations
Location:

DESCRIPTION: Project consists of various projects identified in the City's Active Transportation Plan (ATP), namely, 1) paved trail on the western end of Washington Avenue through Libby Park, 2) bicycle boulevard on Dutton Avenue between Bodega and Huntley, 3) bicycle crossing improvements at SR 12 and Morris Street, and 4) enhanced bicycle crossing improvements at the intersection of Eddie Lane and High School Road-Main Street.

JUSTIFICATION: This project is the implementation of various projects in the recently adopted ATP. Staff has applied for a cycle 2 SCTCA grant for this project. If awarded, the required local match is 15%.

GENERAL PLAN Goals and Policies: Circulation CIR 2: Maintain and expand a Safe and efficient pedestrian, bicycle, and transit network that connects neighborhoods with key destinations to encourage travel by non-automobile modes while also improving public health.

Category: Transition Plan ADA Projects

Project Location: City Hall

DESCRIPTION: ADA Upgrades to interior of City Hall. Exterior ADA site improvements have been completed by Public Works and this project will include additional signage. To save costs, Public Works staff will perform the accessibility improvements to the interior of City Hall which includes replacing existing doors, hardware, information board; remove/replace and/or relocate existing wall-hung information stand, existing electrical switches and receptacles, bathroom plumbing modifications, and post access and path of travel signs. **THIS PROJECT IS COMPLETED.**

JUSTIFICATION: Continue to construct improvements in accordance with the City's ADA transition plan.

GENERAL PLAN Goals and Policies: Circulation CIR 2-7: Create an accessible circulation network that is consistent with guidelines established by the Americans with Disabilities Act (ADA), allowing mobility-impaired users such as the disabled and elderly to safely and effectively travel within and beyond the city.

Community Services and Facilities CSF 1: Provide High Quality Community Services, Facilities, and Infrastructure to All Residents, Businesses, and Visitors in Sebastopol.

DRAFT

Project No: 0300-22.07

Category Housing Projects

Project Location: Various locations in the city

DESCRIPTION: This program is a joint venture with the Sonoma County Housing Land Trust (HLT) to buy market rate units for sale on open market, deed restricting them through the HLT model to ensure affordability at a certain income level in perpetuity, and reselling to a qualifying household. The program would be funded through a Community Development Block Grant program application for a grant award.

JUSTIFICATION: This will support the City’s Sixth Cycle Housing Element as well as the current Element’s policy of preserving existing housing stock.

GENERAL PLAN Goals and Policies: Housing Element Goal B-2 Preserve Housing Resources -Sebastopol will strive to maintain and preserve existing housing resources, including both affordable and market rate units. HE Goal B-3 Expand Affordability Housing Opportunities Through the Use of Existing Housing– Sebastopol will consider the feasibility of converting market rate housing units to affordable housing. HE Policy B-5 Work with nonprofits to determine whether there are opportunities to expand the affordable housing supply by using formerly market rate properties.

Project Location: Laguna Wetlands Preserve

DESCRIPTION: This trail extension project located in the Laguna Wetlands Preserve from the Sebastopol Lift Station to Sebastopol Avenue. Design and CEQA review are complete and the construction bid documents are being prepared. The project consists of constructing a trail extension, a pedestrian bridge at Zimpher Creek, improvements to the current trail segments, and addition of trail signs. **THIS PROJECT IS COMPLETED.**

JUSTIFICATION: The project closes a "critical" missing link in the Laguna Preserve trails system. This project would implement several components of the Laguna Preserve Management Plan. A Grant application from the Sonoma County Open Space District was submitted and awarded in late 2019 for this project, and there is a matching grant from the Laguna Foundation as part of the City's required match. The project was "down-scoped" from the original application in order to avoid wetlands impacts.

GENERAL PLAN Goals and Policies: Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhoods with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health.

Project No: 0413-78.00
Category: Parks Projects
Project Location: Burbank Farm

DESCRIPTION: This project consists of a new ADA-compliant public restroom facility at the Luther Burbank Experiment Farm and ADA path to the restroom facility from the existing parking lot. The work includes installation of a new sewer, water and electrical services to support the restroom facility. The City was awarded a FY 2022-23 CDBG grant to help fund the project. **THE PROJECT IS COMPLETED.**

JUSTIFICATION: The existing bathroom in Burbank Farm does not comply with ADA accessibility and needs to be replaced with an ADA-compliant bathroom.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 6-17: Continue to support the West County Museum and the Luther Burbank Experiment Farm.

Community Services and Facilities CSF 2-21: Continue to provide support to local non-profits providing community recreational services on City-owned land operated by the non-profits, including Ives Pool, the Sebastopol Community Cultural Center, and the Burbank Experiment Farm.

Category Parks Projects

Project Ives Park
Location:

DESCRIPTION: This project (also known as "Bringing Back Calder Creek") is an implementation of parts of the 2013 Ives Park Master Plan. In 2022, Council approved the Calder Creek Vision Plan which included a. This project is the implementation of the plan which will restore the creek from the 6-inch concrete storm drain at the upstream end of the park nearest Jewell Avenue to the weir below the Joe Rodota Trail footbridge. The City is applying for two grants (\$1.8M each): one from the Sonoma County Ag and Open Space District and one from the Department of Water Resources.

JUSTIFICATION: A hydrologic study of the Calder Creek Streambed Re-naturalization at Ives Park was previously conducted (CIP #0420-20.08) and completed in FY 2021-22. Concept plan options were completed and Council selected Ives Park Plan (Option B) and included realignment of Calder Creek. CDD staff is working on the acquisition of a water and streams grant with a non-profit group and anticipated grant application is late spring 2025.

GENERAL PLAN Goals and Policies: Conservation and Open Space COS 3-3: Support rehabilitation of any culverted or open existing channelized waterways, as feasible, to remove concrete linings and allow for a connection between the stream channel and the natural water table. Avoid creating additional culverted or open channelized waterways, unless no other alternative is available to protect human health, safety, and welfare.

Project Tomodachi Park next to Park Village
Location:

DESCRIPTION:

Provide a trail connecting Tomodachi Park and the Laguna Preserve to the Rodota Trail extension and downtown areas. This first phase is to prepare a concept design and a preliminary cost estimate to seek future funding for this project. A new sidewalk has been constructed by the Barlow Townhomes developer that runs from the connector trail across the new 6736 Sebastopol Ave townhome development to the western edge of Park Village. This extension would continue from that point northeast to Tomadachi Park and eventually southerly to the Joe Rodota Trail..

JUSTIFICATION: This trail connection will provide an pedestrian and bicycle access alternative to the sidewalk along Highway 12 from downtown to Tomodachi Park and Park Village. This trail is identified in the Sebastopol ATP and the MTC Regional ATP.

GENERAL PLAN Goals and Policies: Circulation CIR 1-2: Ensure that the City’s circulation network is a well-connected system of streets, roads, sidewalks, multi-use trails, routes, and paths that effectively accommodates vehicular and non-vehicular traffic in a manner that considers the context of surrounding land uses and the needs of all roadway users.

EXPENDITURES							PROJECT TOTAL

**Project Ives Park
Location:**

DESCRIPTION: This project consists of removing and/or replacing the pathway that runs from the restroom facility along Calder Creek to the entrance to the County Center for the Arts parking lot. Future segment 3 will continue the path to High Street as part of the Calder Creek Naturalization Phase 1 grant project. The work will be coordinated to minimize disruption to summer activities in Ives Park.

JUSTIFICATION: This work will continue the pathway replacement that was completed under the Segment 1 work which runs from the southwest picnic area to the restroom facility to the County parking lot entrance.

GENERAL PLAN Goals and Policies: Community Services and facilities CSF 2-2: Ensure park and trail facilities are accessible to various segments of the population including: specific age groups, persons with special physical requirements, and groups interested in particular activities.

Project Ives Park
Location:

DESCRIPTION: Replacement of existing fencing at Ives Park for Reach 1 and 2 with wrought iron fencing panels. **THIS PROJECT IS ESTIMATED TO BE COMPLETED BY JUNE 30, 2026.**

JUSTIFICATION: The existing fence is in disrepair and damaged and is in need for replacement.

GENERAL PLAN Goals and Policies: Community Services and Facilities (CSF 2-2): Ensure park and trail facilities are accessible to various segments of the population including: specific age groups, persons with special physical requirements, and groups interested in particular activities.

**Project Ives Park
Location:**

DESCRIPTION: Trenchless repair of the 60-inch corrugated metal storm drain pipe.

THIS PROJECT IS COMPLETED.

JUSTIFICATION: Large sinkhole on the asphalt pathway that crosses Calder Creek. The sinkhole was caused by the fill and soil beneath the pipe to wash down Calder Creek and fill above the pipe to slip into the void. (New Project approved by Budget Amendment Resolution on 9/2/25.)

GENERAL PLAN Goals and Policies: Conservation and Open Space (COS 3-3): Support rehabilitation of any culverted or open existing channel and the natural water table.

Category: Paving Projects

Project Location: Bodega Avenue from Nelson Way to Pleasant Hill Road

DESCRIPTION: Phase 2 consists of installing bike lanes and repaving Bodega Avenue from Nelson Way to Pleasant Hill Road. Phase 1 from High Street to Nelson Way was completed and Phase 2 continuing on to Pleasant Hill Road. Due to the extremely poor condition of the road in this Phase 2 section, the roadbed will need to be reconstructed rather than overlaid. The project scope was increased to include pavement rehab from Valley View Drive to the bridge and a Class IV bikeway. **THIS PROJECT IS COMPLETED.**

JUSTIFICATION: Bodega Avenue paving is deteriorated and needs resurfacing. The work also includes addition of bicycle lanes along Bodega Avenue. Due to environmental constraints, there may be a short section in front of Burbank Experimental Farm where bicycle sharrows will be painted in lieu of a bike lane. City applied for and awarded a Go Sonoma transportation grant for a maximum amount of \$2.24 million for the construction and inspection. The City's minimum local match is 15% of the grant. **THIS PROJECT IS ESTIMATED TO BE COMPLETED BY 6/30/26.**

GENERAL PLAN Goals and Policies: Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.

Project No: 0520-22.09

Category: Paving Projects

Project Location: Various City Streets

DESCRIPTION: This project consists of digouts and repairs of streets with large potholes or streets with sinkholes that are repaired more substantially than routine pothole repair work. The Final List of Streets is approved by Council and includes locations on Calder Avenue, Ellis Court, Fannen Avenue, Florence Avenue, Golden Ridge Avenue, High School Street, Virginia Avenue, Washington Avenue, and other streets.

JUSTIFICATION: The streets in this program will be based on the City's 2025 Pavement Management Program and focuses on streets with a very low pavement condition index as well as streets requested by the public and that meet the digouts and repair criteria. The goal of the PMP budget option is to maintain the City's PCI at the existing level of 55. For Year 1, the focus will be on digouts and repairs rather than slurry seals and overlays due to the severity of disrepair of many streets. Also in Year 1, the City will be constructing Bodega Ave. Phase 2 and with these two projects, the City can stay on its target budget of \$5M of paving improvements over 5 years if Years 2-5 have a set aside of \$500k/year (in 2025 dollars).

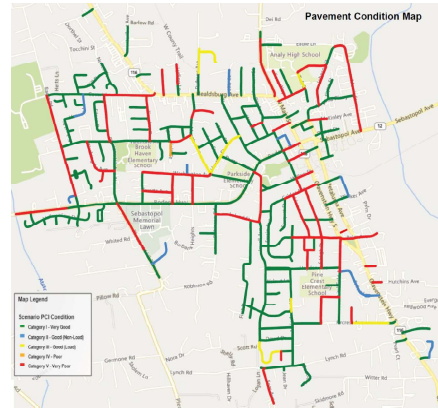

GENERAL PLAN Goals and Policies: Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalks, and paths.

EXPENDITURES						PROJECT TOTAL

Project Location: Strout Street and other Location (TBD)

DESCRIPTION: This is for pavement treatments and improvements consistent with the City's Pavement Management Program. The paving work includes but not limited to slurry seals, micro-seals, AC overlay, geofabric, and sub-base repairs. The street locations are identified in the City's current Pavement Management Program report (2025 or later). For Fiscal Year 2025-26, the proposed street for improvement is Strout Street. Staff will bring a process to determine other street(s) to be improved as part of this project to Council for consideration and approval.

JUSTIFICATION: The City's current Pavement Condition Index (PCI) is 55 which is in the "Fair" category and many of the streets throughout the city are in disrepair. The goal of the PMP budget option is to maintain the City's PCI at the existing level of 55. For FY 26-27 the focus will be on streets that have been in significant disrepair and have received numerous public complaints.

GENERAL PLAN Goals and Policies: Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalk, and paths.

Project Various City Streets
Location:

DESCRIPTION: This is for pavement treatments and improvements consistent with the City's Pavement Management Program. The paving work includes but not limited to slurry seals, micro-seals, AC overlay, geofabric, and sub-base repairs. The street locations are identified in the City's current Pavement Management Program report (2025 or later). For Fiscal Year 2026-27, the proposed list of streets are identified in the City's PMP Report, Appendix F-2 (Maintain PCI at 55; Year 2025).

JUSTIFICATION: The City's current Pavement Condition Index (PCI) is 55 which is in the "Fair" category and many of the streets throughout the city are in disrepair. The goal of the PMP budget option is to maintain the City's PCI at the existing level of 55. For FY 26-27, the focus will be on pavement treatments identified in the City's 2025 PMP, Year: 2025 (excluding Bodega Avenue, already underway).

GENERAL PLAN Goals and Policies: Circulation CIR 1-11: Provide high quality regular maintenance for existing and future transportation facilities including streets, sidewalk, and paths.

Project Bodega Avenue from Pleasant Hill

Location: Road to Valley View Drive

DESCRIPTION: This project is the third and final phase to complete the east-west bike lanes and routes on Bodega Avenue. Project includes Class II bike lanes on the section of Bodega Avenue between Pleasant Hill Road and Ragle Road, and a Class IV or Class I multi-use trail on the existing 15-foot raised shoulder which fronts the south side of Bodega Avenue from Ragle to Valley View Drive, an enhanced crosswalk at Valley View Drive, and ADA ramp upgrades and sidewalk gaps.

JUSTIFICATION: Provides bicycle path from Pleasant Hill Road to the city limit. The City has applied for SCTCA cycle 2 grant for this project and the project description is consistent with the grant application. If the grant is awarded, a 15% local match is required and is shown as "unfunded."

GENERAL PLAN Goals and Policies: Circulation CIR 2: Maintain and Expand a Safe and Efficient Pedestrian, Bicycle, and Transit Network that Connects Neighborhood with Key Destinations to Encourage Travel by Non-Automobile Modes while also Improving Public Health.

DRAFT

Project No: 0604-37.00

Category Sewer/Wastewater Projects

Project Location: Zimpher Creek Sewer Line, Covert Lane to Healdsburg Avenue

DESCRIPTION: Reduce flows to the Zimpher Creek sewer main by rerouting the flows from Covert Lane to Healdsburg Avenue. The project consists of a new 8-inch sewer, approximately 250 LF, which allows for gravity flow. The next step is to update the cost estimate for the following year's construction.

JUSTIFICATION: The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed. The rerouting to Covert Lane sewer utility will allow for reduced flows to the Zimpher Creek sewer main.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

EXPENDITURES							PROJECT TOTAL

Project No: 0610-70.00

Category: Sewer/Wastewater Projects

Project Location: Zimpher Creek from Zimpher Road to Murphy Avenue

DESCRIPTION: This project consists of the Zimpher Creek sewer main relocation and/or replacement. Year 1 is will finalize the pre-design and select a project alternative such as cast-in-place (CIPP) or open-cut trenching. Year 1 budget also includes CCTV reconnaissance. Once an alternative is selected, the design can be performed, with construction commencing in Year 2 and continuing in Year 3. For purposes of this estimate, it is assumed that the CIPP alternative is selected.

JUSTIFICATION: The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

Project No: 0611-80.00

Category: Sewer/Wastewater Projects

Project Location: Zimpher Creek Sewer from Murphy Avenue to Huntley Street

DESCRIPTION: This project consists of repairs to the sewer system along Zimpher Creek east of Murphy Avenue. Repairs include waterproofing of manholes and sewer mains, and replacement of sewer sections of pipe. The first phase is for the pre-design to determine level of repairs and develop preliminary cost estimate.

JUSTIFICATION: The Zimpher Creek sewer line is due for replacement and should be relocated away from the Creek bed.

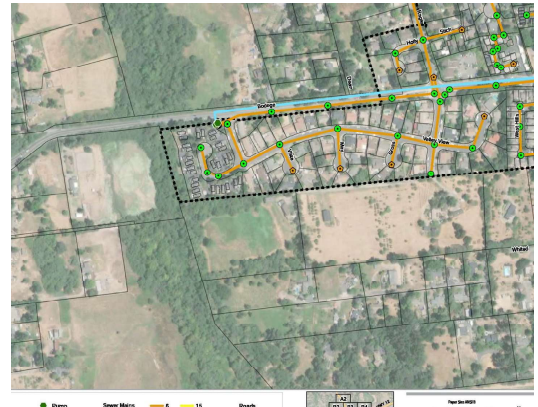

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

Project Citywide
Location:

DESCRIPTION: This project will update the 2005 Sewer System Master Plan. The plan will include system capacity analysis and identify deficiencies in sewer system that could result in sewer overflows. The master plan will identify a Capital Improvement Program to upgrade system deficiencies and will include maintenance repair and replacement projects identified in Public Works' ongoing CCTV investigations. The study will largely use on the City's GIS system and the CCTV data to develop the City's 5 and 10 year Capital Improvement Program.

JUSTIFICATION: Master plans should be updated every 5 years and the sewer master plan was last updated in 2005.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sabtary Sewer System Utility Master Plan, Stormwater Management Plan and the Capital Improvement Program.

Project Citywide
Location:

DESCRIPTION: This program is the ongoing replacement of sewer lines and related appurtenances. The list of pipes to be replaced will be based on the recommendations of the Sewer System Master Plan Update.

JUSTIFICATION: The City's wastewater system is severely aged and needs to be systematically replaced in order to minimize leaks, ruptures and emergency repairs of failing lines.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer System Utility Master Plan, Stormwater Management Plan, and the Capital Improvement Program.

Category Sewer/Wastewater Projects

Project 275 Morris Street
Location:

DESCRIPTION: Install a liner or protective coating to the wet well. An initial assessment of the wet well concluded that the epoxy filler in the wet well is failing and is leaking. Making the repair will extend the lifespan of the wet well to keep it in operation.

JUSTIFICATION: The Morris Street Sewer Pump Station conveys all of Sebastopol's raw wastewater to the Llano trunk sewer main where it flows by gravity to the Llano Road Wastewater Treatment Plant, which is operated by the City of Santa Rosa. Public Works staff have observed cracks and leaks forming in a wall of the wet well at the Pump Station and a preliminary assessment of the damage showed visible cracks and leakage through the wet well walls. These repairs are needed to keep the station in operation.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 4-8: Prioritize sewer service improvements to areas within the City that pose a threat to public health and the environment as a result of deficiencies in existing sewer or septic systems.

DRAFT

Project No: 0702-51.00

Category Stormwater and Flood Mitigation Projects

Project Location: Outfall near Morris Street Pump Station

DESCRIPTION: This project is a multi-year effort including a Maintenance Study to identify the maintenance activities for the storm drain and outfall, priorities, and estimated costs. A "desktop" environmental analysis is needed help inform the environmental constraints, followed by the preparation of the cost estimate that will be needed to research grant funding that may be available for the permitting and construction. This project will be identified and scoped in the ongoing Flood Resiliency Master Plan that will identify priority projects and costs.

JUSTIFICATION: Zimpher Creek outfall is silted in and needs maintenance. Upstream of the outfall is the Valentine Avenue storm drain and that section of pipe is also silted in and some sections may need repair or replacement.

GENERAL PLAN Goals and Policies: Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

EXPENDITURES							PROJECT TOTAL

Category Stormwater and Flood Mitigation Projects

Project Morris Street near the Laguna
Location:

DESCRIPTION: This project is a multi-year effort starting with a Maintenance Study to identify the maintenance for the storm drain and outfall, priorities, and estimated costs. Future permit and maintenance costs will be identified when the Maintenance Study is completed and also the Flood Resiliency Master Plan is completed and priority projects identified.

JUSTIFICATION: The Morris Street outfall is obstructed by silt and vegetation which require cleaning and possible rehabilitation.

GENERAL PLAN Goals and Policies: Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31

Project No: 0711-23.05

Category Stormwater and Flood Mitigation Projects

Project Citywide
Location:

DESCRIPTION: This master plan document is a flood control management plan that will identify flood areas and develop a Capital Improvement Program (CIP) for managing and mitigating flooding that occurs in the Calder Creek and the Laguna area. This plan would expand the 2D hydraulic and hydrology model developed for Calder Creek to other parts of the City using the existing storm drain mapping. The plan would need to apply the new Sonoma Water Hydrology standards.

JUSTIFICATION: Various areas routinely flood, particularly along Calder Creek and the Laguna area. This work will help support future grant funding applications for flood control and mitigation projects.

GENERAL PLAN Goals and Policies: Safety SA-2: Reduce risks to human life, property and public services associated with flood hazards.

EXPENDITURES							PROJECT TOTAL
	FY25-26 Estimated	2026-27	2027-28	2028-29	2029-30	2030-31	
9100 - Pre-construction (design, ROW, Environ)	60,000	100,000					100,000

FUNDING SOURCES							
127-2019 Flood Mitig Earmark	60,000	100,000					100,000
FUNDING TOTALS	60,000	100,000					100,000

Project No: 0712-23.06

Category Stormwater and Flood Mitigation Projects

Project Location: 390 Morris St.

DESCRIPTION: The master plan will consider flood mitigation and flood proofing alternatives and costs for long range flood mitigation projects. The plan will also include a list of short term flood repairs from previous flood damages to continue to keep the existing building operational. This project has been down-scoped to be a master plan memo with recommendations and a list of priority repairs and required ADA improvements.

JUSTIFICATION: The Sebastopol Community Cultural Center Master Plan (SCCC) is located in a floodplain and routinely floods. The plan will serve as a long range master plan to determine alternatives such as long term flood mitigation improvements or relocating to a different location not in a floodplain.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

Project No: 0713-24.09

Category Stormwater and Flood Mitigation Projects

Project Location: 390 Morris Street

DESCRIPTION: Replacement of flood-damaged dry walls and acoustical ceiling panels, insulation, thermal and moisture protection, and related work. **THIS PROJECT IS COMPLETED.**

JUSTIFICATION: The walls and ceiling panels were damaged during the 2019 Flood event and are no longer fire-rated. The walls and ceiling panels will need to be repaired/replaced in order to continue operational use of the building.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

Project No: 0714-26.03

Category Stormwater and Flood Mitigation Projects

**Project 390 Morris Street
Location:**

DESCRIPTION: Flood mitigation repairs include sealing pin holes in the exterior skin of the building, repair leaks where low roof ties to side wall, remove and replace wood in contact with concrete with treated wood or metal base, add gutters and down spouts, replace section of corroded steel framing of building, flood damage-resistant insulation, water intrusion sealing.

JUSTIFICATION: The Cultural Community Center is an important City facility and benefit to the community. In order to maintain continued operation of the building, flood damage and mitigation repairs are needed. In addition because of the cost of the flood mitigation and repairs, ADA improvements are required in the amount of 20% of the flood mitigation and repair costs.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 6-16: Support improvements to, expansion of, or replacement of the Sebastopol Community Cultural Center to address flood issues, and to improve services and facilities available to the community in order to enhance the quality of life for all City residents through the provision of quality community services and facilities.

Project No: 0715-26.11

Category Stormwater and Flood Mitigation Projects

**Project Ives Park to Joe Rodota Trail
Location:**

DESCRIPTION: This maintenance work is for removal of silt and debris from the interior of two storm drain pipes (60-inch and 40-inch diameter) that follow Calder Creek from Ives Park to the outfall just past Petaluma Avenue near the Joe Rodota trail. The work includes CCTV and pipe inspection, flushing and dewatering. Project management will include assisting with project bidding and acquiring permits, as needed.

JUSTIFICATION: The City maintains a storm drain system on Calder Creek between Ives Memorial Park and storm drain outfalls just past Petaluma Avenue near the Joe Rodota Trail. The Calder Creek drainage system conveys stormwater to the Laguna and needs to be "dredged" out to remove the silt and maintain hydraulic capacity and alleviate the flooding in the area.

GENERAL PLAN Goals and Policies: Safety SA 2-6: Maintain unobstructed water flow in the storm drainage system.

Project No: 0821-23.09

Category Water Projects

Project Citywide
Location:

DESCRIPTION: This project includes using the City's water system GIS and the data it contains to identify aging infrastructure, noting type of pipe material and age. The project will also use fire flow test data to identify deficiencies in the system for fire protection purposes. The master plan report will develop a 5 to 10 year Capital Improvement Program. A hydraulic model and calibration will be included in year 2, budget depending.

THIS PROJECT WILL BE COMPLETED BY JUNE 30, 2026.

JUSTIFICATION: Master plans should be updated every 5 years and the water master plan was last conducted in 2005.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, the Sanitary Sewer System Utility Master Plan, Stormwater Management Plan and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL

Project 710 Petaluma Avenue
Location:

DESCRIPTION: The project includes the preliminary design, final design, site assessment report, and construction of a new replacement well on the site with an average annual production of 15 million gallons of drinking water to the city's water customers.

JUSTIFICATION: Replacement of the City's municipal Well 4 was originally constructed in 1953 and is past its life cycle and needs to be replaced. This well supplies nearly half of the water customers in the city. The City will be looking for outside financing (such as a State Revolving Fund loan or revenue bond) for the construction of the new replacement well.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL

**Project First Street and Pleasant Hill Road
Location:**

DESCRIPTION: This project includes the structural assessments, design and construction of structural repairs and upgrades to the City's water tanks. Phase 1 is the structural assessment of the tanks. Construction estimates will be identified in the assessment report.

JUSTIFICATION: The tanks do not have anchorage to the foundation and do not meet industry standards. Previous reports were only visual and do not meet US standards for structural assessment. The repairs and upgrades will benefit system safety and compliance.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL

Category Water Projects

**Project First Street and Pleasant Hill Road
Location:**

DESCRIPTION: This project includes the preliminary study, design and construction for seismic upgrades to the City's water tanks. Phase 1 is the seismic retrofit study and drawings for required upgrades to the tanks to meet current seismic codes and ensure resilience during earthquakes. Construction costs for the seismic retrofit and upgrades will be identified in the Phase 1 retrofit study.

JUSTIFICATION: The City's tanks do not meet current seismic codes and compliance with water industry standards for ASCE 41 and AISC 342-22. Seismic upgrades will reduce risk of failure during earthquakes and extend the service life of the tanks.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

Project Location: Corporation Yard, 714 Johnson Street

DESCRIPTION: Installation of automated flow meter for water tower at the Corporation Yard that supplies water truck haulers who supply portable water to local customers outside the City's water service areas, and water haulers who use the water for construction activities.

JUSTIFICATION: The automatic flow meter at the water tower is need to accurately measure, monitor, and manage water used by truck haulers. The automatic flow meter will enable real-time monitoring, improve operational control, and support data-driven decision-making for water resource allocation.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

Project No: 0827-26.07

Category: Water Projects

Project Location: Pleasant Hill Road

DESCRIPTION: Water system connection loop consisting of a new 16-inch water main from Pleasant Hill tanks at Lynch Road to intersection at Pleasant Hill Road at Mitchell Court.

JUSTIFICATION: The City has experienced some failure on Lynch Road in the past and the maintenance of the water line has caused 75% of the City's water network without supply during the water breaks. This highlights the importance of water reliability and water security issue in this area.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

Project No: 0828-26.08
Category: Water Projects
Project Location: Gwendolyn Place

DESCRIPTION: Replace approximately 9 existing service connections with 3/4-inch HDPE pipe in Gwendolyn Place from intersection of Litchfield Avenue.

JUSTIFICATION: The watermain and services have had multiple repairs in the past. Replacing with new pipe will provide enhanced hydraulic efficiency and system performance and also prevent leakage losses.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

Category Water Projects

Project Location: 500 Main Street

DESCRIPTION: Replace approximately 21 feet, 8 inch watermain at 500 S. Main Street from the intersection of S. Main Street just south of Walker Avenue and just west of the intersection.

JUSTIFICATION: This replacement is needed due to past maintenance work in this area. Replacing is new pipe will provide enhanced hydraulic efficiency and system performance and also prevents any leakage losses.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

**Project Valley View Drive
Location:**

DESCRIPTION: Replace approximately 94 service connections using approximately 20 feet, 3/4-inch diameter HDPE pipe along Valley View Drive per service connection.

JUSTIFICATION: This area has had many lateral breaks due to corrosive soil conditions. The City has performed multiple repair services in the past. Replacing this section with MDPE pipe will help reduce the issues with the corrosive soil.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

FUNDING TOTALS					850,880		850,880

Project No: 0831-26.11

Category Water Projects

Project Location: Healdsburg Avenue, Fircrest Avenue, Dutton Avenue, Huntley Avenue

DESCRIPTION: Repair and/or replace existing pressure reducing valves at various locations at Healdsburg Avenue, Fircrest Avenue and at Dutton and Huntley Avenue.

JUSTIFICATION: Currently the pressure reducing valves present in the network system are not working. Site visits show that the existing PRV's do not have set pressure. By fixing and/or replacing the PRV, the water system can be divided to pressure zones and will be able to maintain steady downstream pressure which prevent overpressurized sections leading to leaks or pipe bursts.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

EXPENDITURES							PROJECT TOTAL

Project No: 0832-26.12

Category Water Projects

Project Location: 991 Gravenstein Highway

DESCRIPTION: Addition of an arsenic treatment system at the City's municipal Well 6. The design of the treatment system has been completed. Year 5 of the CIP is to review the design and other water quality changes as well as update the estimated cost of the treatment system.

JUSTIFICATION: There has been a concern about naturally occurring arsenic at Well 6, and the City has been using dilution to keep arsenic level in the water below the maximum contaminant level of 10 parts per billion (ppb). Adding the treatment system can further remove arsenic from the water at Well 6.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 1-5: Require development, infrastructure, and long-term planning projects to be consistent with all applicable City infrastructure plans, including the Water Master Plan, and the Capital Improvement Program.

Category City-owned Buildings & Site Projects

Project Location: Corporation Yard, 714 Johnson Street

DESCRIPTION: Upgrade the filling station to meet new Air Resources Board (CARB) requirements. The project includes replacement of pumps with vapor capture system, monitoring system, and site lighting.

JUSTIFICATION: The existing pumps are past their useful life with parts and labor to repair becoming non-existent. The filling station is out of compliance with CARB requirements.

GENERAL PLAN Goals and Policies: City is out of compliance with State CARB regulations for fuel filling stations.

Project No: 1002-25.04

Category City-owned Buildings & Site Projects

Project Location: 6850 Laguna Parkway

DESCRIPTION: Replacement and upgrade of existing 40kW emergency generator to a new generator that will support the EOC, dispatch room, and other essential emergency support services at the Police Station. The new emergency generator will be 150kW capacity and will operate the entire building to fully operate the EOC and Police operations during emergencies.

JUSTIFICATION: The existing 40kW generator has been operating since the building was first constructed over 25 years ago and is in need of replacement. Also, the existing generator is sized to only power the dispatch office and is not sufficient in size to support the EOC (which will be stationed in the conference room), or any of the other offices that are deemed essential during an emergency outage.

GENERAL PLAN Goals and Policies: Community Services and Facilities CSF 5-6: Ensure that the PD has adequate staffing and equipment to accommodate existing and future population growth; and

Safety SA 3-4: Identify critical facilities and ensure that they will function in the event of a disaster.

FINANCIAL POLICY
Revised May 2, 2017
Council Policy # 69

OVERVIEW

This document establishes policies of overall financial management, budget development, and fiscal administration for the City of Sebastopol. Included herein are statements and principles designed to guide the City in maintaining its financial stability and delivering high-quality services to the public.

Formally adopted financial policies assist elected officials and city staff in the development of fiscal management practices, save time and provide structure for financial decisions, promote public confidence, enhance transparency and provide continuity over time. These policies will be updated periodically, but are designed with a long-term perspective and provide the basic framework and road map for addressing a wide variety of financial and economic conditions that the City will encounter. A fiscal policy supports long-term planning and enhances the City's effectiveness in implementing long-term strategies to deliver efficient services to the public.

This document provides a structured, central repository for a variety of fiscal policies which are organized into the following categories

- General Financial Principles
- Annual Operating Budget Policy
- Capital Improvement Program
- Revenues
- Expenditures
- Cash Management
- Debt Management
- Fund Balances
- Financial Reporting
- Review and Update

GENERAL FINANCIAL PRINCIPAL

It is the overall policy of the City of Sebastopol to build upon a sound conceptual framework to:

- Manage its financial resources in a responsible and prudent manner.
- Provide financial information in a relevant, thorough and timely manner, and in a format that effectively communicates financial status to the Council, citizens and City employees.
- Establish and maintain prudent fund balance levels.
- Maintain financial reporting in compliance with current governmental accounting standards.
- Promote and implement a relevant and strong system of internal financial controls to manage significant risks and monitor the reliability and integrity of financial and operating reporting.
- Promote constructive and proactive financial decision making that includes, and is responsive to, citizens input and guidance.
- Integrate long-term operating and capital resources planning into the annual budget process.
- Allow for uncertainties and maintain a posture of financial flexibility.
- Develop programs in a manner that supports the City's long-term ability to cover costs and provide the level and quality of service required by its citizens.
- Manage debt responsibly.
- Establish and implement investment policies in accordance with the City code and State law.

ANNUAL OPERATING BUDGET POLICY

- An annual operating budget will be adopted by the City Council no later than June 30th of each fiscal year. The budget will include appropriations that provide expenditure authority to public officials responsible for operating their respective departments to fulfill obligations to provide public services as delegated by the City Council.
- Funds may not be expended for a new fiscal year until the budget for that fiscal year has been adopted by the City Council.
- The City Council appointed Budget Subcommittee will develop and present a draft operating budget for consideration by the full City Council and Public. The operating budget will be presented to the City Council for review and adoption.
- Total projected expenditures shall not exceed total estimated revenues. Should this occur, City Council may approve a planned use of accumulated fund balances in prior years for inclusion in the budget.
- The City should maintain a multi-year financial forecast that is updated as part of the annual budget development process.
- One-time revenue sources are not to be relied upon to fund on-going operations.

Controlling and Adjusting the Annual Budget:

- The City structures and controls its budget by use of the following funds:
 - The general fund is the primary operating fund of the City. It accounts for the receipt of property tax, general sales tax, and other general revenues available to finance city operations. The general fund accounts for revenues and expenditures that do not fit the criteria to be accounted for in other funds with external restrictions imposed by their respective financing sources.
 - Special funds account for resources externally restricted for use by their respective funding sources, such as grant programs financed by the State and Federal governments.
 - Enterprise funds account for water and wastewater systems, may be used for fee-based programs if the intention is to recoup almost all City costs through fees or other user charges.
 - Internal Service funds account for centralized service costs (such as technology and vehicle services made available to all operating departments). Charges from the internal service funds appear as an expenditures in the user department, and as revenue in the central service department.
- The City's budget is controlled at the fund level by the City Council.
 - The City Council, as representatives of the public, is the sole authority for creating or increasing expenditure appropriations within a fund. The City Council is also the exclusive authority for approving changes in revenue estimates with funds.
- Department Heads will be held directly responsible and accountable for their budgets as originally adopted by the City Council or as thereafter revised in accordance with this policy. The level of expenditure control for departments is the department level.
- Departments that operate programs among different funds are limited to the appropriation levels within any one fund. This policy also describes the level of authority needed to amend the adopted budget.

Transfers and revisions to the adopted budget:

The City Council approves:

1. All increases in appropriations within a department or fund.
2. All transfers of appropriations between funds.
3. All decreases in appropriations, with the exception that the City Manager may direct Department Heads to suspend expenditures pending Council consideration of decreases in appropriations needed to respond to fiscal emergency.

The City Manager approves:

1. Transfers of appropriations between expenditure line items within departments, projects and

- program budgets, up to \$100,000.
- 2. Transfers between operating divisions and program budgets within departments.
- 3. The City Manager may make budget transfers between departments or programs as long as those changes do not increase overall appropriations within any one given fund. Transfers between funds, overall increases in fund appropriations, and overall increases in project budgets can only be made through City Council action. Transfers between departments should be reported to the City Council as part of the budget amendment process, either at mid-year or at the proposal of a new budget term.

Finance Department:

- 1. The Finance Department is responsible for providing forms and instructions for requesting appropriation adjustments, and for analyzing and recommending adjustments to the City Manager. The Finance Department will record approved budgets and adjustments into the City's budget system.
- 2. The Finance Department will ensure that the City's Comprehensive Annual Financial Report (CAFR) includes a comparison of actual expenditures against the final budget, as amended and adjusted under the authorities of this policy.
- Operating expenditure appropriations not spent during the fiscal year lapse at year-end, except for:
 - Encumbrances or commitments, as in the form of finalized purchase orders made during the fiscal year that have not been completed at year-end.
 - Appropriations for capital improvement projects and ongoing grants with a life-cycle beyond one year.
- Governmental funds use the modified accrual basis of accounting while proprietary and fiduciary fund types are budgeted on a full accrual basis of accounting. The Comprehensive Annual Financial Report (CAFR) presents City's finances on a Generally Accepted Accounting Principles (GAAP) basis and the City's budget is prepared in conformance with these standards.
- City budget must comply with the annual determination of the City's appropriations limit calculated in accordance with Article XIIB of the Constitution of the State of California and adopt an annual resolution to this effect.

CAPITAL IMPROVEMENT PROGRAM

- The City will develop and maintain a five-year capital improvement program (CIP) to be updated annually in conjunction with the operating budget. The CIP should reflect the current and changing needs of the community as well as enhance of the community's quality of life.
- All projects within the CIP are to be tracked systematically and reported on a quarterly basis. CIP tracking reports should clearly display budget-to-actual performance by project, fund category and project status.
- Capital improvements that specifically benefit a select group of users and/or are fee-for-service based are to be financed through user fees, service charges, special assessments and taxes, or development impact fees.
- Capital improvements that specifically benefit a fee-for-service enterprise operation (such as Water/Sewer) are to be financed through the service fees generated within that operation and fund. Such fees should be supported by periodic updates to the related utility master plan.
- Transfers of resources into the CIP fund will be evaluated on an annual basis dependent upon the existence of available surplus dollars.
- The City should strive to maximize the use of capital grants and State assistance in funding capital improvements before tapping general revenue sources.

REVENUES

- The City will strive to maintain a diversified and stable revenue base to minimize the impact of economic fluctuation.

- The City will seek out, apply for, and effectively administer Federal, State, and other grants that address the City's current operating and capital priorities.
- The City will pursue revenue collection and auditing to assure that funds due to the City are accurately received in a timely manner.
- The City will seek reimbursements for State mandated costs whenever possible.
- The City will adopt user fees with appropriate levels of cost recovery.
- User fee studies should be performed and updated annually to ensure the proper balance of costs and service charges. The City should strive to cover the full cost of providing non-tax and discretionary fee-based service operations except to the extent that City Council approves defined subsidy levels by program area.
- Operating departments are to review public services to identify and determine those appropriate for fee collection. Recommendations for new fees are to be presented to the City Council as fees are annually updated to ensure they reflect all direct and reasonable indirect costs of providing such services.
- Enterprise operations will be self-supporting and shall reimburse the General Fund for any and all materials and services provided on their behalf.

EXPENDITURES

- Expenditures are to be budgeted and controlled so as to not exceed estimated revenues plus the approved and planned use of fund balances accumulated in prior years.
- The City will conduct a mid-year financial status review to determine if projected revenues and expenditures meet target levels. If an operating deficit is projected at year-end, the City should evaluate the need for immediate corrective and/or mitigating actions, including operating or capital expenditure reductions and/or activate the use of established contingency balances. The deferral of essential and scheduled operational expenditures into the following fiscal year or the use of short-term loans and transfers to balance the budget should be avoided.
- The City implements a formal purchasing system, principles, and guidelines to ensure that expenditure levels are kept in check in the course of any fiscal year.

CASH MANAGEMENT

- The Budget Subcommittee will review the City's investment policy periodically and make recommendations to the City Council when appropriate.
- The responsibility of investing City funds rests with the Finance Director who is to exercise due diligence to adhere to the investment policy. The Finance Director will present to the City Council quarterly investment reports presenting a summary of the portfolio status and compliance with the conditions set forth in the investment policy.

DEBT MANAGEMENT

- The City should plan the use of debt in a manner that sustains financing payments at manageable levels.
- The City will seek to maintain a high credit rating through sound financial practices as a basis for minimizing borrowing costs.
- The City will make every effort to use pay-as-you-go financing for capital improvement projects. Debt financing for a project can be used if the overall project cost exceeds anticipated available resources and/or if the cost of financing is favorable as compared to the use of City investment holdings over the financing term.
- The City will monitor all forms of debt annually in conjunction with the budget preparation process and report concerns and remedies, if necessary, to City Council. The City will diligently monitor its compliance with bond covenants.

- The City will not issue long-term debt to finance current operations. Debt financing should only be used for long-term capital improvement projects with a useful life exceeding the term of the financing and for which the project revenues or specific identified revenue sources are sufficient to service the long-term debt.
- The City will use a lease-purchase method of financing for equipment if the lease rates are more favorable than the City's expected overall investment rate of return.
- The City will not incur general obligation indebtedness for public improvements which exceed in aggregate 15% of the assessed value of all real and personal property of the City as specified in the California Government Code Section 43605.

FUND BALANCES

Governmental Fund Type Definitions

Governmental fund types include the general fund, special revenue funds, capital projects funds, debt service funds and permanent funds. GASB has clarified the definitions of these funds as follows:

General Fund

The General Fund should be used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources (investment earnings and transfers from other funds, for example) also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund. Governments should discontinue reporting a special revenue fund, and instead report the fund's remaining resources in the general fund, if the government no longer expects that a substantial portion of the inflows will derive from restricted or committed revenue sources.

Capital Projects Funds

Capital projects funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations or other governments.

Debt Service Funds

Debt service funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest, even if it is being accumulated for future years' payments. Debt service funds should be used to report resources if legally mandated.

Permanent Funds

Permanent funds should be used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs. Permanent funds do not include private-purpose trust funds, which should be used to report situations in which the government is required to use the principal or earnings for the benefit of individuals, private organizations, or other governments.

Fund Balance Classifications

Fund balance is defined as the difference between assets and liabilities. Governmental Accounting Standards Board Statement (GASB) No. 54 classified fund balances into the following categories:

Non-spendable: This is a portion of fund balance not available for appropriations by its nature or external restriction. Examples are inventories and donations that require intact principal values.

Spendable: Restricted: The restricted portion of fund balance is subject to externally enforceable legal restrictions. Examples are Gas Tax revenues and grant proceeds.

Committed: The committed portion of fund balance is constrained by the limitations imposed through formal City Council action. Only formal City Council action can remove or modify a previously committed amount.

Assigned: The Assigned portion of fund balance is established for intended use by either the City Council or its designee, such as the City Manager. No formal City Council action is needed to remove the intended use. GAAP required reserves, such as the Other Post-Employment Benefits (OPEB) reserve, belong to this category. The Fiscal Policy and State Revenue Stabilization policy balances belong to this category.

Unassigned: The Unassigned portion of fund balance is that remaining after the non-spendable, the restricted, the committed, and the assigned fund balances are identified and recorded.

The City of Sebastopol will use GASB's definitions of fund balance for the annual financial reports (audits) and for all other financial reporting. For all financial planning purposes, the term Budgetary Fund Balance will be used and will include any portion of the fund balance that is available for appropriation. Portions of the fund balance not available for appropriation will be identified as follows.

The City shall strive to use the most restricted fund balances prior to utilizing those that are less restricted. The following order of use reflects this guideline:

- a. Non-spendable (if funds become spendable)
- b. Restricted
- c. Committed
- d. Assigned
- e. Unassigned

Fund Balance Policy Levels

Purpose

The City of Sebastopol (City) has enacted the Fund Balance policies in an effort to ensure financial security through the maintenance of a healthy fund contingency balance that guides the creation, maintenance, and use of resources for financial stabilization purposes. The City's primary objective is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees due to temporary revenue shortfalls or unpredicted one-time expenditures. The City also seeks to maintain the highest possible credit ratings which are dependent, in part, on the City's maintenance of a healthy fund balance.

General Fund

The City's fiscal goal is to maintain annual expenditure increases at a sustainable growth rate, and to limit expenditures to anticipated revenue in order to maintain a balanced budget. The Council's directed target is to maintain an unassigned fund balance within the range of not less than 15% of annual operating expenditures for the fiscal year with a multi-year goal of achieving a 20% unassigned fund balance level for the reasons noted below. This level of coverage includes General Fund balance amounts specifically assigned for a specific purpose as discussed and defined further below:

- To provide funding to cover approximately two (2) months of operating expenses with the goal of achieving three months coverage in the long term.
- To provide the liquidity to respond to contingent liabilities.

- To adhere to Government Finance Officers Association (GFOA) recommendation that a minimum General Fund unassigned fund balance to be maintained of no less than either two (2) months of regular operating revenues or expenditures.

Buildings, Facilities & Infrastructure Reserve

Building, facilities and infrastructure replacement reserve should be established and maintained to provide for the timely replacement of City's owned fixed assets. The balance is hereby defined as assigned by the City Council to allow the City to maintain an infrastructure reserve with a target balance equivalent to the projected annual cost of the first year Capital Improvement Plan funding expenditures.

Equipment, Technology and Vehicle Replacement Reserve

The balance is hereby defined as assigned by the City Council to allow the City to set aside an appropriate amount of money to properly fund equipment, technology and vehicle replacement. The City shall set aside funding annually in this reserve based on the vehicle and equipment replacement schedule.

CalPERS Retirement & Other Post-Employment Benefits Reserve

The City conducted an actuarial study to comply with GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits and to determine the City's obligation for the other post-employment benefits (OPEB). The study concluded that the City should set aside annual funding for this obligation and the City should maintain internal funding of OPEB obligations for this purpose. Additionally, the City will conduct an actuarial update every two to three years to maintain the current status of this valuation.

Unassigned Operating Reserve

These balances are hereby defined as unassigned by the City Council to allow the City to weather unpredicted cyclical and rapid downturns in the economy. These funds would be available for use in such conditions to mitigate negative economic fiscal impacts or State takeaways and can be activated within any one budget cycle through Council action. An economic downturn would entail a projected and/or sudden drop in core revenues (major tax and service revenue loss) of equal to or greater than 10% (including the impact of inflation) and/or a change in economic parameters (such as interest rates, debt service rates, pension and health rates) that cause a material change in expenditures of 10% or more, or the occurrence of a local natural disaster or unexpected financial claim requiring the immediate use of cash balances.

Water and Sewer Fund Balances

The City should maintain the balances in the Water Sewer Fund at a level sufficient to accommodate operating and capital needs. This reserve is recommended at 25% of annual expenditures, including estimated capital improvements. Multi-year fee studies for this fund should be updated periodically as a basis for defining the revenue sources necessary to maintain system infrastructure and required services levels. As a result of the periodic fee or master plan studies, adjustments to user charges may be necessary to maintain recommended fund balance levels.

Workers' Compensation and Liability Insurance Funding

Periodic actuarial studies of self-insured workers' compensation and general liabilities will be conducted to ensure that proper levels of liabilities are accrued for claims and that rates charged to operating departments are appropriate.

FINANCIAL REPORTING

- The City's accounting and financial reports are to be maintained in conformance with GAAP.
- An annual financial audit will be performed by an independent public accounting firm familiar with municipal government activities. The independent auditor will issue an audit opinion to be included in the City's Comprehensive Annual Financial Report (CAFR). Additionally, the auditor will present the CAFR

and discuss audit findings to the City Council. The City encourages the rotation of audit service providers every 5 year cycle.

- The City is encouraged to submit the Annual CAFR to State and/or National Government Finance Professional organizations (Government Finance Officers' Association's Certification of Achievement for Excellence in Financial Reporting - California Society of Municipal Finance Officers CAFR Award) for independent review and evaluation.
- Internal financial status reports are to be issued on a periodic and timely basis – no less than quarterly and be made readily available on the City website.
- The City is to record the depreciation of equipment, buildings and facilities, and infrastructure as follows and in line with internally established capitalization guidelines:

Capitalization Thresholds

Land purchases at any value

Equipment - \$5,000

Buildings and facility improvements - \$25,000

Infrastructure - \$100,000

Depreciation

Depreciation will be recorded on a straight-line basis over the following estimated useful lives:

Equipment 3 - 10 years

Site Improvements other than buildings 30 - 50 years

Buildings 50 years

Infrastructure 30 - 100 years

REVIEW AND UPDATE

This financial policy will be reviewed periodically and updated, if necessary, to reflect any changing requirements.

RESOLUTION NO. 6694-2025

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SEBASTOPOL
APPROVING REVISIONS TO THE CITY OF SEBASTOPOL POLICY #89

WHEREAS, the City has adopted Purchasing Policy #89 ("Policy") to document procedures that shall be followed when purchasing goods and services;

WHEREAS, the City last approved revisions to the Policy on April 5, 2022; and

WHEREAS, since the last revisions were made, City staff have identified other changes that are needed due to recent changes in State legislation, City audit report recommendations, and other miscellaneous administrative procedure changes to allow for efficient day-to-day operations.

NOW, THEREFORE, BE IT RESOLVED that the revisions to the Purchasing Policy #89 are hereby approved and a copy of the revised Purchasing Policy #89 is attached.

The above and foregoing Resolution was duly passed, approved, and adopted at a meeting by the City Council on the 2nd day of September 2025.

I, the undersigned, hereby certify that the foregoing Resolution was duly adopted by the City of Sebastopol City Council by the following vote:

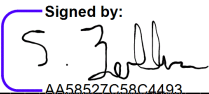

VOTE:

Ayes: Councilmembers Carter, Hinton, Maurer, Vice3 Mayor McLewis and Mayor Zollman

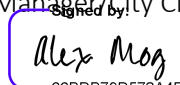

Noes: None

Abstain: None

Absent: None

APPROVED:  Signed by: AA58527C58C4493...
Mayor Stephen Zollman

ATTEST:  Signed by: 44C6774260FE430...
Mary Gourley, Interim City Manager/City Clerk, MMC

APPROVED AS TO FORM:  Signed by: 66BDB79D572A4EB...
Alex Mog, City Attorney

Attachment A - Revised Purchasing Policy #89

PURCHASING POLICY

Effective September 2, 2017

Revised/Approved: September 2, 2025 by Resolution No. 6694-25

Council Policy # 89

I. OVERVIEW

This policy is written to document the policies and procedures that shall be followed when purchasing goods or services. All purchases of materials, supplies, equipment, vehicle and services required by the City shall be made in accordance with the following, and pursuant to applicable provisions of the Government Code. This policy will be reviewed with new members of the City Council and new Department Heads/Managers as soon as possible after they assume office/responsibility. This policy shall also be reviewed as part of the annual budgeting process.

II. ETHICS AND RESPONSIBILITY

The City Manager (or designee) serves as the Purchasing Agent, and is charged with the responsibility and authority for coordinating and controlling the City's purchasing function in accordance with Purchasing Policies.

The Purchasing Agent and all departments shall adhere to the Purchasing Policy when procuring materials, supplies, equipment, vehicles and services. All purchases shall be limited to the approved budget or as otherwise authorized by the City Manager. Purchasing dollar limits specified in the Purchasing Policy is "per order" unless otherwise indicated.

Applicable competitive bidding categories, authorization limits or contract award procedures will be based on unit cost, total purchase cost for consolidated bid items, or fiscal year aggregates in the case of standing purchase orders or similar ongoing purchasing arrangements. Staging of purchases to avoid competitive bidding procedures or authorization limits is prohibited.

All personnel engaged in the purchasing function shall exercise good judgment in the use and stewardship of City resources, and all purchasing functions shall be conducted with absolute integrity and objectivity. Purchases are subject to public scrutiny; employees shall follow a strict rule of personal conduct that will not compromise the City in the conduct of its business. Any employee intentionally and/or repeatedly making purchases in a manner that circumvents, ignores or fails to comply with Purchasing Policies will be subject to disciplinary action, in accordance with City Personnel procedures.

Code Of Conduct – Employees are responsible for providing access to City procurement opportunities in a fair and impartial manner to all responsible suppliers, vendors, and contractors. In addition, all employees shall behave in a manner that avoids improprieties or the appearance of improprieties to maintain the public's confidence in the integrity of the City's purchasing system.

Conflict Of Interest - If a city officer or employee has a real or apparent conflict of interest, said individual may not participate in the selection, award, or administration of any contract, including those supported by a federal award or funding, that implicates that conflict of interest. If a city

officer or employee participates in making a contract where said individual has a real or apparent conflict of interest, such conflict may nullify or void a contract. As nullification or voiding of a contract is a serious matter with potentially significant consequences for the City, every officer or employee is responsible for recognizing and reporting a potential conflict of interest in timely manner.

A conflict of interest may arise when the city officer or employee has a direct financial interest in, or would receive a direct or material benefit arising from a contract. City officers and employees shall not be financially interested in any contract made by them in their official capacity, as such terms are defined in California Government Code Sections 1090 et seq. and 87100 et seq., and relevant case law. Prohibited interests include interests of immediate family members, domestic partners, and their respective employers or prospective employers.

City officers and employees shall report any potential or actual conflict of interest to their respective Department Head or to the City Attorney as soon as a conflict is suspected or discovered. If city officers or employees are uncertain about whether they have a conflict of interest regarding a particular contract, the individual shall consult the City Attorney's Office as soon as practicable.

It is important to note that consultants of a public entity are considered public officials under Government Code section 1090 and are subject to the requirements therein. City officers and employees should consult the City Attorney on potential conflict of interest issues with respect to the City's third-party consultants and contractors.

III. PURCHASING AGENT RESPONSIBILITIES

The City Manager or his/her designee shall act as the City's Purchasing Agent. The Purchasing Agent is responsible for procurement of materials, supplies, equipment, vehicles and services; administration of purchasing policies and procedures; and management of surplus City property. To perform these functions efficiently and assist departments, the Purchasing Agent shall:

- a. Coordinate and manage procurement of the City's materials, supplies, equipment, vehicles and services from the lowest responsive and responsible bidder when required by the Purchasing Policies.
- b. Ensure full and open competition on all purchases as required by the Purchasing Policies, and make purchase award recommendations to the appropriate authority.
- c. Identify, evaluate and utilize purchasing methods that best meet the needs of the City (cooperative purchases, standing purchase orders, contractual agreements, etc.)
- d. Recommend revisions to purchasing policies and procedures when necessary, and keep informed of current developments in the field of Public Purchasing.
- e. Act as the City's agent in the transfer and disposal of surplus equipment, vehicle and materials.

IV. DEPARTMENT RESPONSIBILITIES

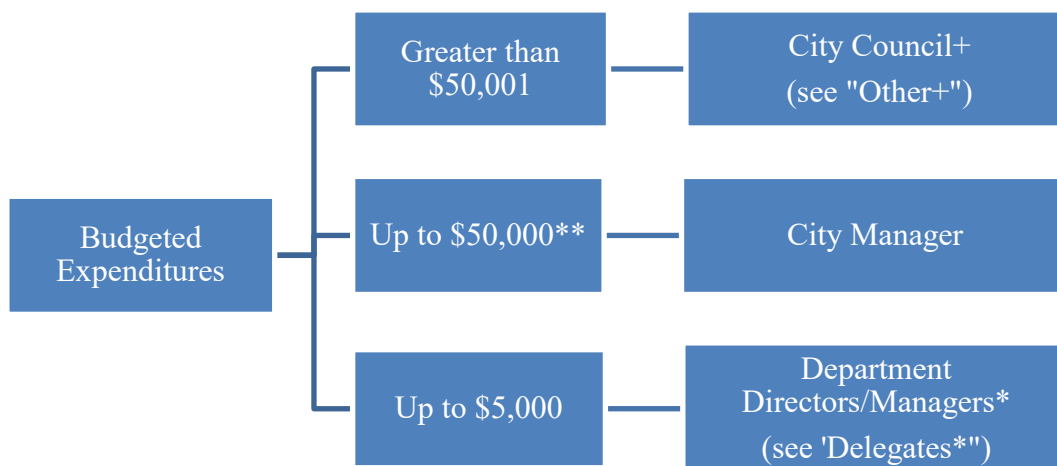

Each Department is responsible for facilitating prudent, efficient and cost-effective purchases. To meet these responsibilities, Departments shall:

- a. Ensure staff is trained on the terminology and requirements set forth in the Purchasing Policies.
- b. Minimize urgent and sole source purchases, and provide written findings and documentation when such purchases may be necessary.
- c. Refrain from “splitting” orders or projects for the purpose of avoiding procurement requirements or authorization limits.
- d. Anticipate requirements sufficiently in advance to allow adequate time to obtain goods in accordance with best purchasing practices.
- e. Maximize coordination of purchases into a lesser number of large transactions to take advantage of cost savings for bulk purchases of commonly used goods and services.

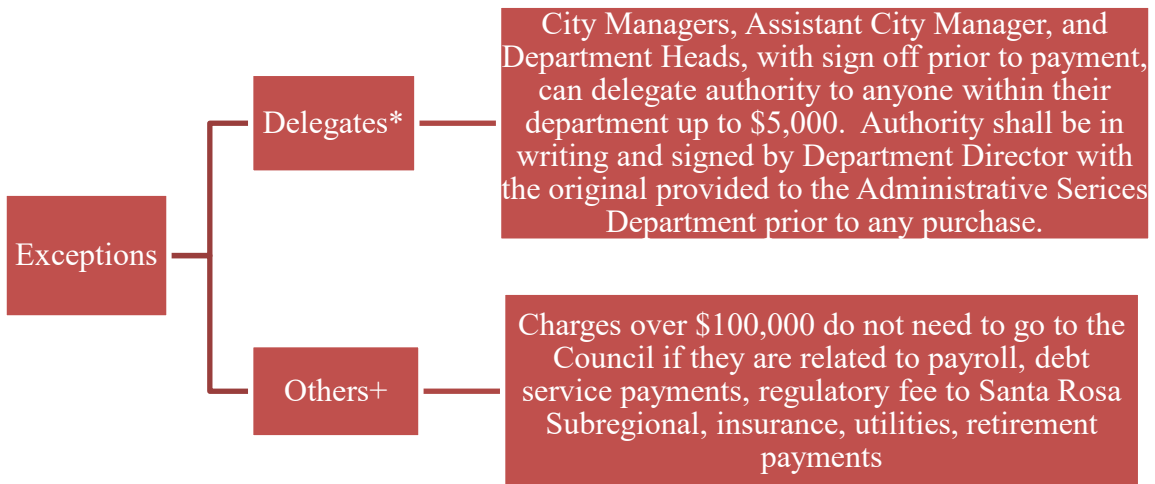

V. PURCHASING AUTHORITY

The City Council adopts an annual budget, which includes detail of all capital items, professional fees for services and all other expenditures. Items referred to hereafter as "budgeted" refer to expenditures that have been appropriated in the adopted budget or approved for expenditure by the Council after the budget is adopted for the current fiscal year.

Authority to approve expenditures shall be determined as shown in the diagrams below. Expenditures shall include all amendments and change orders and shall not be broken down or divided into sub-groups for purposes of avoiding the guidelines.

** Subject to competitive process herein.

CONTRACT or CHECK SIGNING AUTHORITY

The City Manager and Administrative Services may designate their signature authority in their absence.

In the course of conducting City business, the City is required to make a variety of different types of purchases. The type of purchase dictates the policies and procedures for procuring and formalizing the purchase. Before employees make a purchase, they should identify the type of purchase and the proper method for completing that purchase. This category of purchases includes the purchase of tangible durable and non-durable goods by the City. Examples of these types of purchases include fuel, tools, office supplies, chemicals, machinery, food, and furniture. These types of purchases are distinct from the purchase of nontangible services.

Competitive Process – This policy is designed to promote full and open competition among potential vendors. Through full and open competition, the City is able to realize better pricing and more favorable terms. In interpreting this policy, staff should rely on interpretations that favor greater and more robust competition among vendors.

Best Overall Value – This policy is designed to ensure that the City is getting the best value for its money when making purchases. When not required by law to select the lowest bidder, the principle permits the City to consider factors other than just price in determining what constitutes the best overall value to the City.

Fairness And Transparency – This policy is designed to promote fairness and transparency in the City’s purchasing system. Complying with this policy fosters equal opportunities for vendors wishing to do business with the City and ensures that public expenditures are made in an open and consistent manner.

Compliance With Law And Best Practices – This policy is informed by and incorporates applicable laws, regulations, and best practices applicable to public procurements. Compliance with this policy ensures that purchases are conducted in accordance with the City’s legal and ethical obligations and responsibilities.

Conduct With Vendors All employee interactions with vendors shall be conducted in a fair, open, and transparent manner. Employees shall:

- i. Refrain from showing favoritism to vendors or being unduly influenced by external factors outside the criteria outlined in this policy.
- ii. Select all vendors on the basis of meeting appropriate and fair criteria in accordance with the requirements of this policy.

No Gratuities - No City employee shall solicit, demand, accept, or agree to accept, and shall avoid the appearance of accepting, a gift of goods or services, payment, loan, advance, deposit of money, or employment offer presented, promised in return for, or in anticipation of favorable consideration in a City procurement.

VI. METHODS OF PROCUREMENT

The type of purchase and the amount of a purchase dictates the method of procurement. Smaller and less complex purchases involve less stringent competitive requirements. Conversely, more valuable and more complex purchases require stricter, more formalized competitive processes. These methods do not apply to public projects. Public projects are defined as the construction, reconstruction, erection, alteration, renovation, improvement, demotion, installation and repair work involving any publicly owned, leased or operated facility (such as public buildings, utility systems, streets, recreational facilities) as defined under the Public Contract Code (see Section IX of this Policy for procedures).

Informal Procurement

Micro purchases need not be awarded competitively, but the price must be determined to be fair and reasonable and should be distributed equitably among qualified suppliers. Micro Purchases do not require advertising or solicitation of quotes/bids. However, seeking multiple quotes/bids, even when not required, is a best practice and helps to ensure that the City receives better pricing for its purchases. Micro purchasing is defined as for purchases valued under \$5,000.

Informal Solicitation

Informal solicitation involves seeking three (3) written quotes from potential vendors. These written quotes may be informally documented, such as through emails between City employees and potential vendors. Informal solicitation may be used for purchases of goods or services, construction projects other than public projects, and consultant/professional services valued at \$50,000 or less. The \$50,000 threshold shall apply separately for each separate agreement or task order, including amendments or modifications to include additional similar goods or services of limited quantity or scope, even if the agreement or task order is with the same consultant/professional (task orders are used when the City has a Master “On Call” Service Agreement with a consultant on the City’s Prequalified Consultant List).

Formal Competitive Proposals (RFP)

In a formal competitive proposal process, the City must: (i) prepare a request for proposal document identifying the project requirements, vendor qualifications, and evaluation factors; (ii) send the RFP to an adequate number of qualified sources as determined by the relevant department head or the City Manager; (iii) post the RFP on the City’s website at least ten (10) days prior to the deadline for receipt of proposals; and (iv) establish and implement procedures for evaluation of proposals. Formal competitive proposals shall be used for purchases valued at more than \$50,000. The \$50,000 threshold shall apply separately for each separate agreement or task order, even if the agreement or task order is with the same consultant/professional.

Cooperative Procurement

Cooperative purchasing allows the City to buy goods or services based on a competitively bid contract prepared by another public agency, when that other agency and the vendor(s) agreed in advance to a cooperative process. Use of purchasing cooperatives is encouraged as a way to obtain goods and services by aggregating volume, securing value pricing, and reducing administrative overhead. Measured use of purchasing cooperatives can significantly reduce the time and resources needed to competitively purchase goods and services.

Sole Source Procurement

Regardless of the estimated cost of a purchase, the City is not required to engage in a competitive procurement process, either formal or informal when a competitive procurement is infeasible for the reasons articulated in this section. In all cases, the City must verify and document that a particular procurement meets the criteria for a sole source identified below, and the use of sole source must be approved by the City Manager. Sole source procurement is authorized if one of the following conditions are met:

- a. Unique or Innovative Concept - The vendor demonstrates a unique or innovative concept or capability not available from another source. “Unique or Innovative Concept” means a new, novel, or changed concept, approach, or method that is the product of original thinking, the details of which are kept confidential or are patented or copyrighted, and is available to the City only from one source and has not in the past been available to the City from another source;
- b. Patents or Restricted Data Rights – Patent or data rights restrictions preclude competition;
- c. Substantial Duplication Costs – In the case of a subsequent contract for the continued development or production of highly specialized equipment or products and/or major components thereof, when it is likely that award to another contractor would result in substantial duplication of costs that are not expected to be recovered through competition;

- d. Unacceptable Delay – In the case of a subsequent contract for the continued development or production of highly specialized equipment or products and/or major components thereof, when it is likely that award to another contractor would result in unacceptable delays in fulfilling the City’s needs.

Emergency Procurement

Emergency procurements are those purchases necessary to avoid or mitigate a clear and imminent threat or danger where delay could result in loss of life or danger to health, welfare, or property or threaten the continued operation of the City or the provision of essential City services. (See Section XI Urgent and Emergency Purchases for more details)

Exempt Procurement

This Section outlines types of procurements that are exempt from the standard competitive requirements outlined in this policy and also includes special considerations related to those exempt procurements. Despite the fact that a procurement may be exempt, the City may still conduct negotiations as to price, delivery and terms in connection with the award of a contract that does not require a competitive process. Nothing in this section shall preclude the solicitation of competitive bids or proposals when possible. The following is a list of procurements that are exempt from the competitive requirements outlined in this Policy.

1. Emergency procurements as defined above;
2. Specified materials or equipment that can be obtained from only one source and there is no adequate substitute in accordance with the criteria outlined in sole source section above;
3. Legal or professional services that are highly specialized;
4. Procurements funded by grants, donations or gifts when any special conditions require the purchase of particular materials and/or services;
5. Purchase of surplus property owned by another public entity, or payment to other public entities or utilities;
6. Membership dues, conventions, training, travel arrangements, or advertisements in magazines, newspapers, or other media;
7. Works of art, entertainment or performance; and
8. Where competitive bids or proposals have been solicited and no bid or proposal has been received. In such situations the City Manager may proceed to have the goods procured or services performed without further competitive bidding.

VII. LOCAL VENDOR PREFERENCE

Whenever possible, the City wishes to support, promote the use of local businesses, suppliers and services providers to help create a sustainable economy, preserve local businesses, and make a commitment to circulate tax dollars within city limits.

VIII. ENVIRONMENTALLY PREFERABLE PURCHASING (EPP) POLICY

1. STATEMENT OF POLICY

The Environmentally Preferable Purchasing Policy will commit the City to:

- 1.1. Protect and conserve natural resources, water, and energy

- 1.2. Minimize the contribution to climate change, pollution, and solid waste disposal;
- 1.3. Institute practices that reduce waste by increasing product efficiency and effectiveness;
- 1.4. Purchase products that minimize environmental impacts, toxics, pollution, and hazards to worker and community safety;
- 1.5. Purchase products that include recycled content, are durable and long-lasting, conserve energy and water, use agricultural fibers and residues, use unbleached or chlorine free manufacturing processes, are lead-free and mercury-free, and use wood from sustainably harvested forests; and
- 1.6. Comply with State requirements as contained in the SB 1383 procurement regulations to procure a specified amount of Recovered Organic Waste Products to support Organic Waste disposal reduction targets and markets for products made from recycled and recovered Organic Waste materials.*

2. PURPOSE

The purpose of the policy is to incorporate considerations that include the following:

- 2.1. Conserve natural resources;
- 2.2. Minimize environmental impacts such as pollution and use of water and energy;
- 2.3. Eliminate or reduce toxics that create hazards to workers and our community;
- 2.4. Support a strong recycling market and circular economy;
- 2.5. Incorporate environmental considerations including recycled-content and recovered Organic Waste product use into purchasing practices and procurement;
- 2.6. Reduce materials that are landfilled;
- 2.7. Increase the use and availability of environmentally preferable products that protect the environment;
- 2.8. Identify environmentally preferable products and distribution systems;
- 2.9. Reward manufacturers and vendors that reduce environmental impacts in their production and distribution systems or services;
- 2.10. Align with the Zero Waste Sonoma's goal of Zero Waste by 2030 as adopted in the Zero Waste Resolution; and
- 2.11. Create a model for successfully purchasing environmentally preferable products that encourages the use of agricultural fibers, chlorine-free manufacturing processes, wood from sustainably harvested forests, and other environmentally friendly practices, and that encourages other purchasers in our community to adopt similar goals.

3. DEFINITIONS

- 3.1. “Annual Recovered Organic Waste Product Procurement Target” means the amount of Organic Waste in the form of a Recovered Organic Waste Product that the Jurisdiction is required to procure annually under 14 CCR Section 18993.1. This target shall be calculated by multiplying the per capita procurement target, which shall be 0.08 tons of Organic Waste per California resident per year, times the Jurisdiction’s residential population using the most recent annual data reported by the California Department of Finance. Annually, CalRecycle will provide notice to each Jurisdiction of its Annual Recovered Organic Waste Product Procurement Target by posting such information on CalRecycle’s website and providing written notice directly to the Jurisdiction
- 3.2. “American Society for Testing and Materials” means ASTM International, an open forum for the development of high quality, market relevant international standards use around the globe.
- 3.3. “Bay Area Green Business Program” is a partnership of governments and businesses that certifies the environmental performance of government agencies and businesses.
- 3.4. “Bio-Based Products” means commercial or industrial products (other than food or feed) that utilize agricultural crops or residues but does not include products made from forestry materials
- 3.5. “Biodegradable Products Institute” (BPI) is a multi-stakeholder association of key individuals and groups from government, industry and academia, which promotes the use, and recycling of biodegradable polymeric materials (via composting). BPI does not create standards but certifies products that demonstrate they meet the requirements in ASTM D6400 or 06868, based on testing in an approved laboratory.
- 3.6. “Buyer” means anyone authorized to purchase or contract for purchases on behalf of this jurisdiction or its subdivisions
- 3.7. “The Carpet and Rug Institute” (CRI) is the national trade association representing the carpet and rug industry. CRI has developed and administered the “Green Label” indoor air quality testing and labeling program for carpet, adhesives, cushion materials and vacuum cleaners. The “Green Label Plus” testing program incorporates additional requirements to meet California’s Collaborative for High Performance Schools low-emitting materials criteria
- 3.8. “Compost” means the product resulting from the controlled biological decomposition of organic solid wastes that are source separated from the municipal solid waste stream or which are separated at a centralized facility or as otherwise defined in 14 CCR Section 17896.2(a)(4).
- 3.9. Compost eligible for meeting the Annual Recovered Organic Waste Product Procurement Target must be produced at a compostable material handling operation or facility permitted or authorized under 14 CCR Chapter 3.1 of Division 7 or produced at a large volume in-vessel digestion facility that composts on-site as defined and permitted under 14 CCR Chapter 3.2 of Division 7. Compost shall meet the State’s composting operations regulatory requirements.

- 3.10. "Compostable plastic" means a polymer that is made from plants such as corn or soybeans, and breaks down during composting to yield carbon dioxide, water and inorganic compounds and biomass, at a rate consistent with other known compostable materials and leaves no visually distinguishable or toxic residues
- 3.11. "Contractor" means any person, group of persons, business, consultant, designing architect, association, partnership, corporation, supplier, vendor or other entity that has a contract or serves in a subcontracting capacity with an entity having a contract for the provision of goods or services.
- 3.12. "Direct Service Provider" means a person, company, agency, district, or other entity that provides a service or services to Jurisdiction pursuant to a contract or other written agreement or as otherwise defined in 14 CCR Section 18982(a)(17).
- 3.13. "Ecologo" is a third-party, multi-attribute eco-labeling program founded by the Canadian government in 1988 and part of UL Environment since 2010. The Program compares products / services with others in the same category, develops rigorous and scientifically relevant criteria, and awards the Ecologo to those that are environmentally preferable throughout their entire lifecycle.

- 3.14. "Electronic Product Environmental Assessment Tool" (EPEAT) is a procurement tool to help institutional purchasers in the public and private sectors evaluate, compare and select personal computers, displays, imaging equipment and televisions based on their environmental attributes.
- 3.15. "Electricity Procured from Biomass Conversion" means electricity generated from biomass facilities that convert recovered Organic Waste, such as wood and prunings from the municipal stream, into electricity. Electricity procured from a biomass conversion facility may only count toward the Jurisdiction's Annual Recovered Organic Waste Product Procurement Target if the facility receives feedstock directly from certain permitted or authorized compostable material handling operations or facilities, transfer/processing operations or facilities, or landfills, as described in 14 CCR Section 18993.1(i).
- 3.16. "Energy Star" means the U.S. EPA's energy efficiency product labeling program.
- 3.17. "Energy-Efficient Product" means a product that is in the upper 25% of energy efficiency for all similar products, or that is at least 10% more efficient than the minimum level that meets Federal standards.
- 3.18. "Environmentally Preferable Purchasing" means EPP is the procurement of goods and services that have a reduced impact on human health and the environment compared to competing products serving the same purpose. It is an essential part of our search for high quality products and services at competitive prices.
- 3.19. "Federal Energy Management Program" is a program of the Department of Energy that issues a series of Product Energy Efficiency Recommendations that identify recommended efficiency levels for energy-using products.
- 3.20. "Forest Stewardship Council" is a global organization that certifies responsible, on-the-ground forest management according to rigorous standards developed by a broad variety of stakeholder groups.
- 3.21. "Green Seal" is an independent, non-profit environmental labeling organization. Green Seal standards for products and services meet the U.S. EPA's criteria for third-party certifiers. The Green Seal is a registered certification mark that may appear only on certified products.
- 3.22. "Integrated Pest Management" is an ecosystem-based strategy that focuses on long-term prevention of pests or their damage through a combination of techniques such as biological control, habitat manipulation, modification of cultural practices, and use of resistant varieties. Pesticides are used only after monitoring indicates they are needed according to established guidelines, and treatments are made with the goal of removing only the target organism. Pest control materials are selected and applied in a manner that minimizes risks to human health, beneficial and nontarget organisms, and the environment.
- 3.23. "Jurisdiction" means a city, county, a combined city and county, or a regional agency with the responsibility for meeting Integrated Waste Management Act requirements. Jurisdictions may utilize a Joint Powers Authority (JPA) to comply

with the requirements of SB 1383, however, the jurisdiction shall remain ultimately responsible for compliance. For this EPP Policy, Jurisdiction is the City of Sebastopol.

- 3.24. "LEED Rating System" means the most recent version of the Leadership in Energy and Environmental Design (LEED) Rating System, approved by the U.S. Green Building Council, and designed for rating new and existing commercial, institutional, and residential buildings.
- 3.25. "NSF/ANSI" means NSF International follows the American National Standards Institute (ANSI) standards development process. Standards are developed by joint committees (balanced stakeholder groups of public health, industry and user representatives).
- 3.26. "Organic Pest Management" prohibits the use and application of toxic chemical pesticides and strives to prevent pest problems through the application of natural, organic horticultural and maintenance practices. All pest control products shall be in keeping with, but not limited to, those products on the approved list of California Certified Organic Farmers (CCOF).
- 3.27. "Organic Waste" means solid wastes containing material originated from living organisms and their metabolic waste products including, but not limited to, food, yard trimmings, organic textiles and carpets, lumber, wood, Paper Products, Printing And Writing Paper, manure, biosolids, digestate, and sludges, or as otherwise defined in 14 CCR Section 18982(a)(46). Biosolids and digestate are as defined in 14 CCR Section 18982(a)(4) and 14 CCR Section 18982(a)(16.5), respectively.
- 3.28. "Paper Products" include, but are not limited to, paper janitorial supplies, cartons, wrapping, packaging, file folders, hanging files, corrugated boxes, tissue, and toweling.
- 3.29. "Post-consumer Material" means a finished material which would normally be disposed of as a solid waste, having reached its intended end-use and completed its life cycle as a consumer item, and does not include manufacturing or converting wastes.
- 3.30. "Pre-consumer Material" means material or by-products generated after manufacture of a product is completed but before the product reaches the end-use consumer. Pre-consumer material does not include mill and manufacturing trim, scrap, or broke which is generated at a manufacturing site and commonly reused on-site in the same or another manufacturing process.
- 3.31. "Printing and Writing Papers" include, but are not limited to, copy, xerographic, watermark, cotton fiber, offset, forms, computer printout paper, white wove envelopes, manila envelopes, book paper, note pads, writing tablets, newsprint, and other uncoated writing papers, posters, index cards, calendars, brochures, reports, magazines, and publications.
- 3.32. "Postconsumer Content" means any product which has served its intended use by a

business or a consumer, which has been disposed and subsequently separated from solid waste for use as a constituent in a new product.

- 3.33. "Procurement of Recovered Organic Waste Products" shall mean purchase or acquisition (e.g., free delivery or free distribution from a hauler or other entity via a written agreement or contract), and end use by the Jurisdiction or others. The Jurisdiction's Annual Recovered Organic Waste Product Procurement Target can be fulfilled directly by the Jurisdiction or by Direct Service Providers through written contracts or agreements for Procurement of Recovered Organic Waste Products at the Jurisdiction's behest.
- 3.34. "Post-manufacture Content" means, waste that is created by a manufacturing process, and that is subsequently only used as a constituent in another manufacturing process.
- 3.35. "Recovered Material" means fragments of products or finished products of a manufacturing process, which has converted a resource into a commodity of real economic value, and includes pre-consumer and post-consumer material but does not include excess resources of the manufacturing process.
- 3.36. "Recovered Organic Waste Products" means products made from California, landfill- diverted recovered Organic Waste processed at a permitted or otherwise authorized operation or facility, or as otherwise defined in 14 CCR Section 18982(a)(60). Products that can be used to meet the Annual Recovered Organic Waste Product Procurement Target shall include Compost, SB 1383 Eligible Mulch, Renewable Gas from an in-vessel digestion facility, and Electricity Procured from Biomass Conversion as described herein and provided that such products meet requirements of 14 CCR, Division 7, Chapter 12, Article 12.
- 3.37. "Recordkeeping Designee" means the public employee appointed by the Jurisdiction Manager or their designee to track procurement and maintain records of Recovered Organic Waste Product procurement efforts both by the Jurisdiction and others, if applicable, as required by 14 CCR, Division 7, Chapter 12, Articles 12 and 13. In Sonoma County, Zero Waste Sonoma will be considered the Recordkeeping Designee.
- 3.38. "Recyclability" means that the Paper Products and Printing and Writing Paper offered or sold to the Jurisdiction are eligible to be labeled with an unqualified recyclable label as defined in 16 Code of Federal Regulations Section 260.12 (2013).
- 3.39. "Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper" means such products that consist of at least thirty percent (30%), by fiber weight, postconsumer fiber, consistent with the requirements of Sections 22150 to 22154 and Sections 12200 and 12209 of the Public Contract Code, and as amended.

- 3.40. "Recycled Content Standard" means the minimum level of recovered material and/or post- consumer material necessary for products to qualify as "recycled products."
- 3.41. "Recycling" means using waste as material to manufacture a new product. Recycling involves altering the physical form of an object or material and making a new object from the altered material.
- 3.42. "Renewable Gas" means gas derived from Organic Waste that has been diverted from a landfill and processed at an in-vessel digestion facility that is permitted or otherwise authorized by 14 CCR to recover Organic Waste.
- 3.43. "Reuse" means using an object or material again, either for its original purpose or for a similar purpose, without significantly altering the physical or chemical form of the object or material.
- 3.44. "Remanufactured Product" means any product diverted from the supply of discarded materials by refurbishing and marketing said product without substantial change to its original form.
- 3.45. "Reused Product" means any product designed to be used many times for the same or other purposes without additional processing except for specific requirements such as cleaning, painting or minor repairs.
- 3.46. "Russian River Friendly Landscaping" means working with the natural ecosystems of the Russian River region to foster soil health, to reduce runoff and pollution, prevent and reuse plant waste, and conserve water and other natural resources. The Russian River- Friendly Landscape Guidelines are a revision of the Bay-Friendly Landscape Guidelines by the Russian River Watershed Association (RRWA), originally published by StopWaste.Org.
- 3.47. "Source Reduction" Section 40196 of the California Public Resources Code defines source reduction as any action which causes a net reduction in the generation of solid waste. "Source Reduction" includes, but is not limited to, reducing the use of nonrecyclable materials, replacing disposable materials and products with reusable materials and products, reducing packaging, reducing the amount of yard wastes generated, establishing garbage rate structures with incentives to reduce the amount of wastes that generators produce, and increasing the efficiency of the use of paper, cardboard, glass, metal, plastic, and other materials.
- 3.48. "SB 1383" means Senate Bill 1383 of 2016 approved by the Governor on September 19, 2016, which added Sections 39730.5, 39730.6, 39730.7, and 39730.8 to the Health and Safety Code, and added Chapter 13.1 (commencing with Section 42652) to Part 3 of Division 30 of the Public Resources Code, establishing methane emissions reduction targets in a statewide effort to reduce emissions of short-lived climate pollutants, as amended, supplemented, superseded, and replaced from time to time.

- 3.49. "SB 1383 Regulations" or "SB 1383 Regulatory" means or refers to, for the purposes of this policy, the Short-Lived Climate Pollutants (SLCP): Organic Waste Reductions regulations developed by CalRecycle and adopted in 2020 that created Chapter 12 of 14 CCR, Division 7 and amended portions of regulations of 14 CCR and 27 CCR.
- 3.50. "State" means the State of California.
- 3.51. "Water-Saving Products" are those that are in the upper 25% of water conservation for all similar products, or at least 10% more water-conserving than the minimum level that meets the Federal standards.
- 3.52. "WaterSense" means a partnership program by the U.S. Environmental Protection Agency. Independent, third-party licensed certifying bodies certify that products meet EPA criteria for water efficiency and performance by following testing and certification protocols specific to each product category. Products that are certified to meet EPA specifications are allowed to bear the WaterSense label.

4. STRATEGIES FOR IMPLEMENTATION

4.1. Source Reduction

- 4.1.1. Institute practices that reduce waste, encourage reuse, and result in the purchase of fewer products.
- 4.1.2. Purchase remanufactured products such as toner cartridges, tires, furniture, equipment and automotive parts.
- 4.1.3. Consider short-term and long-term costs in comparing product alternatives. This includes evaluation of total costs expected during the time a product is owned, including, but not limited to, acquisition, extended warranties, operation, supplies, maintenance and replacement parts, disposal costs and expected lifetime compared to other alternatives.
- 4.1.4. Purchase products that are durable, long lasting, reusable or refillable and avoid purchasing one-time use or disposable products.
- 4.1.5. Request vendors eliminate packaging or use the minimum amount necessary for product protection. Vendors shall be encouraged to take back packaging for reuse. A vendor's willingness to take back packaging will be used as part of the consideration in the procurement process.
- 4.1.6. Specify a preference for packaging that is reusable, recyclable, or compostable, when suitable uses and programs exist.
- 4.1.7. Encourage vendors to take back and reuse pallets and other shipping materials.
- 4.1.8. Encourage suppliers of electronic equipment, including but not limited to computers, monitors, printers, and copiers, to take back equipment for reuse or environmentally sound recycling when discarding or replacing

such equipment, whenever possible. Suppliers will be required to state their take-back, reuse or recycling programs during the procurement process.

- 4.1.9. Consider provisions in contracts with suppliers of non-electronic equipment that require suppliers to take back equipment for reuse or environmentally sound recycling when discarding or displacing such equipment, whenever possible.
 - 4.1.10. Suppliers will be required to state their take back, reuse or recycling programs during the procurement process.
 - 4.1.11. Promote electronic distribution of documents rather than printing or copying.
 - 4.1.12. When producing paper documents, print and copy all documents on both sides to reduce the use and purchase of paper. Printers and copiers shall be set to default to duplex.
 - 4.1.13. Ensure all imaging equipment is installed with energy and resource-efficient settings set as default.
 - 4.1.14. Reduce the number and type of equipment needed to perform office functions to save energy and reduce purchasing and maintenance costs. Eliminate desktop printers, redundant network printers and reduce the number of fax machines leased or owned. Consider lease or purchase of multi-function devices.
- 4.2. Recycled Content Products (SB 1383 Model Language for City Compliance)
- 4.2.1. Requirements for City Departments
 - 4.2.1.1. Option 1: Comparable or more favorable pricing: If fitness and quality of Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper are equal to that of non-recycled items, all departments and divisions of Jurisdiction shall purchase Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper that consists of at least thirty percent (30%), by fiber weight, postconsumer fiber, whenever available at the same or a lesser total cost than non-recycled items.
 - 4.2.1.2. Option 2: Price preference: If fitness and quality of Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper are equal to that of non-recycled items, all departments and divisions of Jurisdiction shall purchase Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper that consists of at least thirty percent

(30%), by fiber weight, postconsumer fiber, whenever the total cost is the same or a lesser total cost than non-recycled items.

- 4.2.1.3. Option 3: No price preference: If fitness and quality of Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper are equal to that of non-recycled items, all departments and divisions of Jurisdiction shall purchase Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper (rather than non-recycled items) that consists of at least thirty percent (30%), by fiber weight, postconsumer fiber, consistent with the requirements of the Public Contract Code, Sections 22150 through 22154 and Sections 12200 and 12209, as amended.
- 4.2.1.4. All Paper Products and Printing and Writing Paper shall be eligible to be labeled with an unqualified recyclable label as defined.
- 4.2.1.5. Provide records to Zero Waste Sonoma of all Paper Products and Printing and Writing Paper purchases within thirty (30) days of the purchase (both recycled- content and non-recycled content, if any is purchased) made by a division or department or employee of the Jurisdiction. Records shall include a copy of the invoice or other documentation of purchase, written certifications, vendor name, purchaser name, quantity purchased, date purchased, and recycled content (including products that contain none), and if non-Recycled-Content Paper Products and/or non-Recycled-Content Printing and Writing Paper are provided, include a description of why Recycled-Content Paper Products and/or Recycled-Content Printing and Writing Paper were not provided.

4.3. Requirements for Vendors

- 4.3.1. All vendors that provide Paper Products (including janitorial Paper Products) and Printing and Writing Paper to Jurisdiction shall:
 - 4.3.1.1. Provide Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper that consists of at least thirty percent (30%), by fiber weight, postconsumer fiber, if fitness and quality are equal to that of non-recycled item.
 - 4.3.1.2. Only provide Paper Products and Printing and Writing Papers that meet Federal Trade Commission Recyclability standard as defined in Title 16 Code of Federal Regulations Section 260.12 (2013).
 - 4.3.1.3. Certify in writing, under penalty of perjury, the minimum percentage of postconsumer material in the Paper Products and Printing and Writing Paper offered or sold to the Jurisdiction. This certification requirement may be waived if the percentage

of postconsumer material in the Paper Products, Printing and Writing Paper, or both can be verified by a product label, catalog, invoice, or a manufacturer or vendor internet website.

4.3.1.4. Certify in writing, under penalty of perjury, that the Paper Products and Printing and Writing Paper offered or sold to the Jurisdiction is eligible to be labeled with an unqualified recyclable label as defined

4.3.1.5. Provide records to Zero Waste Sonoma of all Paper Products and Printing and Writing Paper purchased from the vendor within thirty (30) days of the purchase (both recycled-content and non-recycled content, if any is purchased) made by a division or department or employee of the Jurisdiction. Records shall include a copy of the invoice or other documentation of purchase, written certifications as required in Section 4.2.A.3-4 for recycled-content purchases, purchaser name, quantity purchased, date purchased, and recycled content (including products that contain none), and if non-Recycled-Content Paper Products and/or non- Recycled-Content Printing and Writing Paper are provided, include a description of why Recycled-Content Paper Products and/or Recycled-Content Printing and Writing Paper were not provided.

4.3.2. All vendors providing printing services to the Jurisdiction via a printing contract or written agreement, shall use Printing and Writing Paper that consists of at least thirty percent (30%), by fiber weight, postconsumer fiber.

4.4. Recovered Organic Waste Product Procurement (SB 1383 Model Language for Jurisdiction Compliance)

4.4.1. Procurement Target

4.4.1.1. Jurisdiction will annually procure for use or giveaway a quantity of Recovered Organic Waste Products that meets or exceeds its Annual Recovered Organic Waste Product Procurement Target.

4.4.1.2. To be eligible to meet the Annual Recovered Organic Waste Product Procurement Target, products that may be procured include the following SB 1383 eligible Compost, SB 1383 eligible Mulch, Renewable Gas (in the form of transportation fuel, electricity, or heat), and Electricity Procured from Biomass Conversion.

4.4.2. Requirements for City Departments

4.4.2.1. Compost and SB 1383 Eligible Mulch procurement. Divisions and departments responsible for landscaping maintenance, renovation, or construction shall:

4.4.2.1.1. Use Compost and SB 1383 Eligible Mulch produced from recovered Organic Waste, as defined in Section 2.8 and 2.R of this Policy, for landscaping maintenance, renovation, or construction, as practicable, whenever available, and capable of meeting quality standards and criteria specified. SB 1383 Eligible Mulch used for land application must meet or exceed the physical contamination, maximum metal concentration and pathogen density standards specified in 14 CCR Section 17852(a)(24.5)(A)(1) through (3).

4.4.2.1.2. When the City uses Compost and SB 1383 Eligible Mulch and the applications are subject to the City's Water Efficient Landscaping

4.4.2.1.3. Ordinance (WELO), pursuant to Sebastopol Municipal Code Section 15.36.010, the City will comply with one of the following, whichever is more stringent, (i) the City's WELO, Code Section 15.36.010, if more stringent than the State's Model Water Efficient Landscape Ordinance (MWELo), or (ii) Sections 492.6 (a)(3)(B), (C), (D), and (G) of the State's Model Water Efficient Landscape Ordinance, Title 23, Division 2, Chapter 2.7 of the CCR, as amended September 15, 2015, which requires the submittal of a landscape design plan with a "Soil Preparation, Mulch, and Amendments Section."

4.4.2.1.4. For landscape installations, Compost at a rate of a minimum of 4 cubic yards per 1,000 square feet of permeable area shall be incorporated to a depth of six (6) inches into the soil. Soils with greater than six percent (6%) organic matter in the top six (6) inches of soil are exempt from adding Compost and tilling.

4.4.2.1.5. Apply a minimum three- (3-) inch layer of mulch on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting groundcovers, or direct seeding applications where mulch is contraindicated. To provide habitat for beneficial

insects and other wildlife, leave up to five percent (5%) of the landscape area without mulch. Designated insect habitat must be included in the landscape design plan as such.

- 4.4.2.1.6. Procure mulch materials made from recycled or post-consumer materials rather than inorganic materials or virgin forest products unless the recycled post-consumer organic products are not locally available. Organic mulches are not required where prohibited by local Fuel Modification Plan Guidelines or other applicable local ordinances.
- 4.4.2.1.7. For all mulch that is land applied, procure SB 1383 Eligible Mulch that meets or exceeds the physical contamination, maximum metal concentration, and pathogen density standards for land applications. The mulch must also be produced at a permitted composting facility, transfer station, or landfill. The procured mulch cannot be from a chipping and grinding operation, as specified in 12 CCR Section 18993.1 (f)(4).
- 4.4.2.1.8. Keep records, including invoices or proof of Recovered Organic Waste Product procurement (either through purchase or acquisition), and submit records to Zero Waste Sonoma, upon completion of project. Records shall include general procurement records, including:
 - 4.4.2.1.9. General description of how and where the product was used and applied, if applicable;
 - 4.4.2.1.10. Source of product, including name, physical location, and contact information for each entity, operation, or facility from whom the Recovered Organic Waste Products were procured;
 - 4.4.2.1.11. Type of product;
 - 4.4.2.1.12. Quantity of each product; and,
 - 4.4.2.1.13. Invoice or other record demonstrating purchase or procurement.
- 4.4.2.2. For Compost and SB 1383 Eligible Mulch provided to residents through giveaway events or other types of distribution methods, keep records of the Compost and SB 1383 Eligible Mulch provided to residents. Records shall be maintained and submitted to Zero Waste Sonoma in accordance with the requirements

specified in Section 3.2.A.3.

- 4.4.2.3. For procurement of SB 1383 Eligible Mulch, maintain an updated copy of the ordinance or enforceable mechanism(s) requiring that the mulch procured by the City or Direct Service Provider meets the land application standards specified, as it may be amended from time to time, as currently reflected in Municipal Code Section
- 4.4.2.4. When Procurement of Recovered Organic Waste Products occurs through a Direct Service Provider, enter into a written contract or agreement or execute a purchase order with enforceable provisions that includes: (i) definitions and specifications for SB 1383 Eligible Mulch, Compost, Renewable Gas, and/or Electricity Procured from Biomass Conversion; and, (ii) an enforcement mechanism (e.g., termination, liquidated damages) in the event the Direct Service Provider is not compliant with the requirements.
- 4.4.2.5. Renewable Gas procurement (used for fuel for transportation, electricity, or heating applications). For Renewable Gas procurement, Jurisdiction shall:
 - 4.4.2.5.1. Procure Renewable Gas made from recovered Organic Waste for transportation fuel, electricity, and heating applications to the degree that it is appropriate and available for the Jurisdiction and to help meet the Annual Recovered Organic Waste Product Procurement Target.
 - 4.4.2.5.2. Keep records in the same manner for the amount of Renewable Gas procured and used by the Jurisdiction, including the general procurement record information specified in Section 3.2.A.3.a, and submit records to Zero Waste Sonoma on a quarterly schedule. The quarterly schedule shall be as follows: Renewable Gas records are to be provided to Zero Waste Sonoma by April 15 for January 1 through March 31, July 15 for April 1 through June 30, October 15 for July 1 through September 30, and January 15 for October 1 through December 31. Jurisdiction shall additionally obtain the documentation and submit records specified.

4.4.3. Requirements for Direct Service Providers

4.4.3.1. Direct Service Providers of landscaping maintenance, renovation, and construction shall:

4.4.3.1.1. Use Compost and SB 1383 Eligible Mulch, as practicable, produced from recovered Organic Waste, as defined in Section 2.8 and 2.R of this Policy, for all landscaping renovations, construction, or maintenance performed for the Jurisdiction, whenever available, and capable of meeting quality standards and criteria specified. SB 1383 Eligible Mulch used for land application shall comply with 14 CCR, Division 7, Chapter 12, Article 12 and must meet or exceed the physical contamination, maximum metal concentration and pathogen density standards specified in 14 CCR Section 17852(a)(24.5)(A)(1) through (3). If Direct Service Provider is subject to the City's WELO

4.4.3.1.2. pursuant to Jurisdiction Code Section 15.36.010 and Sections 492.6 (a)(3)(B), (C), (D), and (G) of the State's MWELO, Title 23, Division 2, Chapter 2.7 of the CCR, as amended September 15, 2015, which requires the submittal of a landscape design plan with a "Soil Preparation, Mulch, and Amendments Section."

4.4.3.1.3. For landscape installations, Compost at a rate of a minimum of 4 cubic yards per 1,000 square feet of permeable area shall be incorporated to a depth of six (6) inches into the soil. Soils with greater than six percent (6%) organic matter in the top six (6) inches of soil are exempt from adding Compost and tilling.

4.4.3.1.4. Apply a minimum three- (3-) inch layer of mulch on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting groundcovers, or direct seeding applications where mulch is contraindicated. To provide habitat for beneficial insects and other wildlife, leave up to five percent (5%) of the landscape area without mulch. Designated insect habitat must be included in the landscape design plan as such.

4.4.3.1.5. Procure organic mulch materials made from recycled or post- consumer materials rather than inorganic materials or virgin forest products unless

the recycled post-consumer organic products are not locally available. Organic mulches are not required where prohibited by local Fuel Modification Plan Guidelines or other applicable local ordinances.

- 4.4.3.1.6. For all mulch that is land applied, procure SB 1383 Eligible Mulch that meets or exceeds the physical contamination, maximum metal concentration, and pathogen density standards for land applications specified.
- 4.4.3.1.7. Keep and provide records of Procurement of Recovered Organic Waste Products (either through purchase or acquisition) to Recordkeeping Designee, upon completion of projects. Information to be provided shall include general description of how and where the product was used and if applicable, applied; source of product, including name, physical location, and contact information for each entity, operation, or facility from whom the Recovered Organic Waste Products were procured, type of product, quantity of each product; and invoice or other record demonstrating purchase or procurement.
- 4.4.3.2. Direct Service Provider of Organic Waste collection services shall:
 - 4.4.3.2.1. Provide a specified quantity of Compost or SB 1383 Eligible Mulch to Jurisdiction and its customers via periodic "giveaways" as specified in a franchise agreement or other agreement.
 - 4.4.3.2.2. Keep and provide records to the City including the following data provided, source of product including name, physical location and contact information for each entity, operation or facility from whom the Recovered Organic Waste Products were procured, type of product, quantity provided; and invoice or other record or documentation demonstrating purchase, procurement, or transfer of material to giveaway location.

4.5. Energy Efficient and Water Saving Products

- 4.5.1. Purchase energy-efficient equipment with the most up-to-date energy efficiency functions. This includes, but is not limited to, high efficiency space heating systems and high efficiency space cooling equipment.
- 4.5.2. Replace inefficient interior lighting with energy-efficient equipment. Replace inefficient exterior lighting, street lighting and traffic signal lights with energy-efficient equipment. Minimize exterior lighting where possible to avoid unnecessary lighting of architectural and landscape features while providing adequate illumination for safety and accessibility.
- 4.5.3. Purchase U.S. EPA Energy Star certified products when available. When Energy Star labels are not available, choose energy-efficient products that are in the upper 25% of energy efficiency as designated by the Federal Energy Management Program.
- 4.5.4. Purchase U.S. EPA WaterSense labeled water-saving products when available and practicable. This includes, but is not limited to, high-performance fixtures like toilets, low-flow faucets and aerators, and upgraded irrigation systems.

4.6. Green Building Products and Practices

- 4.6.1. The City will comply with the adopted Green Building Code guidelines and green points system for the construction of all permanent municipal building and renovation projects which exceed 2,000 square feet in area.
- 4.6.2. In accordance with California Public Contract Code, Sec. 10409, purchase re-refined lubricating and industrial oil for use in its vehicles and other equipment, as long as it is certified by the American Petroleum Institute (API) as appropriate for use in such equipment. This section does not preclude the purchase of virgin-oil products for exclusive use in vehicles whose warranties expressly prohibit the use of products containing recycled oil.
- 4.6.3. When specifying asphalt, concrete, aggregate base or portland cement concrete for construction projects, use recycled, reusable or reground materials.
- 4.6.4. Specify and purchase recycled content traffic control products, including signs, cones, parking stops, delineators, channelizers and barricades.

4.7. Landscaping Products and Practices

- 4.7.1. Employ Russian River Friendly Landscaping or sustainable landscape management techniques for all landscape renovations, construction and maintenance, including workers and contractors providing landscaping services, including, but not limited to, integrated pest management, grass cycling, drip irrigation, computerized central irrigation linked with the local weather station, composting, and procurement and use of mulch and

- compost that give preference to those produced from regionally generated plant debris and/or food scrap programs.
- 4.7.2. Choose a Russian River-Friendly Qualified Landscape Professional for landscape design and maintenance services. Training and qualifications shall include landscaping locally, landscaping for less to the landfill, nurturing the soil, conserving water, conserving energy, protecting water and air quality, and creating wildlife habitat.
- 4.7.3. Select plants to minimize waste by choosing species for purchase that are appropriate to the microclimate, species that can grow to their natural size in the space allotted them, and perennials rather than annuals for color. Native and drought-tolerant plants that require no or minimal watering once established are preferred.
- 4.7.4. Hardscapes and landscape structures constructed of recycled content materials are encouraged. Limit the amount of impervious surfaces in the landscape. Permeable substitutes, such as permeable asphalt or pavers, are encouraged for walkways, patios and driveways.
- 4.8. Household Hazardous Waste and Pollution Prevention Products and Practices
- 4.8.1. Manage pest problems through prevention and physical, mechanical and biological controls when contractors maintain buildings and landscapes. Either adopt and implement an Organic Pest Management (OPM) policy and practices or adopt and implement an Integrated Pest Management (IPM) policy and practices using the least toxic pest control as a last resort. Anticoagulant rodenticides shall never be used.
- 4.8.2. Use products with the lowest amount of volatile organic compounds (VOCs), highest recycled or reused content, low or no formaldehyde and no halogenated organic flame retardants when purchasing building maintenance materials such as paint, carpeting, adhesives, furniture and casework.
- 4.8.3. Purchase or require janitorial contractors to supply industrial and institutional cleaning products that meet Green Seal, EPA Safer Choice, or UL/Ecologo certification standards for environmental preferability and performance.
- 4.8.4. Purchase, or require janitorial contractors to supply, vacuum cleaners that meet the requirements of the Carpet and Rug Institute Green Label/Seal of Approval Program for soil removal, dust containment and carpet fiber retention for indoor air quality protection and performance cleaning standards. Other janitorial cleaning equipment should be capable of capturing fine particulates, removing sufficient moisture so as to dry within 24 hours, operate with a sound level less than 70dBA, and use high-efficiency, low-emissions engines.
- 4.8.5. Purchase paper, paper products, and janitorial paper products that are

unbleached or are processed without chlorine or chlorine derivatives.

- 4.8.6. Prohibit the purchase of products that use polyvinyl chloride (PVC) such as, but not limited to, furniture and flooring.
- 4.8.7. Prohibit the purchase of food service ware containing per- and polyfluoroalkyl substances (PFAS).
- 4.8.8. Purchase products and equipment with no lead or mercury whenever possible. For products that contain lead or mercury, preference should be given to those products with lower quantities of these metals and to vendors with established lead and mercury recovery programs. In addition, whenever lead- or mercury-containing products require disposal, products will be disposed in the most environmentally safe manner possible. All fluorescent lamps and batteries will be recycled.
- 4.8.9. Purchase or specify personal computers, displays, imaging equipment and televisions that meet, at a minimum, all Electronic Product Environmental Assessment Tool (EPEAT) environmental criteria designated as "required" as contained in the IEEE 1680 family of Environmental Assessment Standards.
- 4.8.10. Purchase or specify office furniture that meets the California Bureau of Household Goods and Services (BHGS) standard Technical Bulletin 117-2013 for testing upholstered furniture flammability without the use of flame retardant chemicals.
- 4.8.11. Purchase or specify commercial carpeting that meets NSF/ANSI 140 Standard for Sustainable Carpet Assessment and require old carpet that is removed be recycled.
- 4.8.12. Purchase or specify non-carpet floor coverings that meet NSF/ANSI 332 Standard for Resilient Flooring including vinyl, linoleum and rubber flooring. In conjunction with California State agency requirements, at least 50 percent of the quantity of paint used for architectural projects should contain reused or recycled paint with a recycled content consisting of at least 50 percent post-consumer paint. Reused paint can be acquired from the Sonoma HHW Facility by either visiting the reuse lockers or by pre-arranging remixed paint in 5-gallon containers in off-white, tan, light grey, or light green.
- 4.8.13. When replacing vehicles, consider less-polluting alternatives to diesel such as compressed natural gas, bio-based fuels, hybrids, electric batteries, and fuel cells, as available.

4.9. Fiber-only Products

- 4.9.1. Use paper, paper products and construction products made from non-wood, plant- based contents such as agricultural crops and residues.
- 4.9.2. Priority should be given to reusable food service ware, however, if single-use food service ware is purchased, it is to be fiber only and BPI certified
- 4.9.3. Ask vendors to provide proof of compliance with ASTM standards for compostable, biodegradable and degradable plastic products upon request. One acceptable proof of compliance for compostable plastic products will be certification by the Biodegradable Products Institute (BPI).

4.10. Forest Conservation Products

- 4.10.1. To the greatest extent practicable, do not procure wood products such as lumber and paper that originate from forests harvested in an environmentally unsustainable manner. When possible, give preference to wood products that are certified to be sustainably harvested by a comprehensive, performance-based certification system. The certification system shall include independent third-party audits, with standards equivalent to, or stricter than, those of the Forest Stewardship Council certification.
- 4.10.2. Encourage the purchase or use of previously used or salvaged wood and wood products whenever practicable

5. RECORDKEEPING RESPONSIBILITIES

- 5.1. The department will be the responsible department and will select an employee to act as the Recordkeeping Designee that will be responsible for organizing records pertaining to Procurement of Recovered Organic Waste Products and Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper. The Recordkeeping Designee shall communicate frequently with Zero Waste Sonoma to transfer all the required documentation for reporting to CalRecycle.
- 5.2. The Recordkeeping Designee will do the following to track Procurement of Recovered Organic Waste Products, Recycled-Content Paper Products, and Recycled-Content Printing and Writing Paper:
 - 5.2.1. Collect and collate copies of invoices or receipts (paper or electronic) or other proof of purchase that describe the procurement of Printing and Writing Paper and Paper Products, including the volume and type of all paper purchases; and, copies of certifications and other required verifications from all departments and/or divisions procuring Paper Products and Printing and Writing Paper (whether or not they contain recycled content) and/or from the vendors providing Printing and Writing Paper and Paper Products. These records must be kept as part of Jurisdiction's documentation.
 - 5.2.2. Collect and collate copies of invoices or receipts or documentation

evidencing procurement from all departments and divisions procuring Recovered Organic Waste Products and invoices or similar records from vendors/contractors/others procuring Recovered Organic Waste Products on behalf of the Jurisdiction to develop evidence of Jurisdiction meeting its Annual Recovered Organic Waste Product Procurement Target. These records must be kept as part of the Jurisdiction's documentation.

- 5.2.3. Collect, collate, and maintain documentation submitted by the Jurisdiction, Direct Service Providers, and/or vendors, including the information reported to the Recordkeeping Designee.
- 5.2.4. Compile an annual report on the Jurisdiction's direct procurement, and vendor/other procurement on behalf of the Jurisdiction, of Recovered Organic Waste Products, Recycled-Content Paper Products, and Recycled-Content Printing and Writing Paper, consistent with the recordkeeping requirements contained in 14 CCR Section 18993.2 for the Annual Recovered Organic Waste Product Procurement Target and 14 CCR Section 18993.4 for Recycled-Content Paper Products and Recycled-Content Printing and Writing Paper procurement. This report shall be made available to the Jurisdiction's responsible entity for compiling the annual report to be submitted to CalRecycle (which will include a description of compliance on many other SB 1383 regulatory requirements). The procurement report shall also be shared with Council, JPA or other regulating body annually as evidence of implementing this Policy.

6. RESPONSIBILITIES

- 6.1. The health and safety of workers and citizens is of utmost importance and takes precedence over all other practices. Nevertheless, the duty to act in a fiscally responsible as well as a timely manner is recognized.
- 6.2. Nothing contained in this policy shall be construed as requiring a department, purchaser or contractor to procure products that do not perform adequately for their intended use, exclude adequate competition, risk the health or safety of workers and citizens, or are not available at a reasonable price in a reasonable period of time
- 6.3. Nothing contained in this policy shall be construed as requiring the jurisdiction, department, purchaser, or contractor to take any action that conflicts with local, state or federal requirements.
- 6.4. The jurisdiction has made significant investments in developing a successful recycling system and recognizes that recycled content products are essential to the continuing viability of that recycling system and for the foundation of an environmentally sound production system. Therefore, to the greatest extent practicable, recycled content shall be included in products that also meet other specifications, such as chlorine free or bio- based.

7. IMPLEMENTATION

- 7.1. The City Manager shall implement this policy in coordination with other appropriate personnel.
- 7.2. Require successful vendors to certify in writing that the environmental attributes claimed in competitive proposals are accurate. In compliance with State law, vendors shall be required to specify the minimum or actual percentage of recovered and post-consumer material in their products, even when such percentages are zero.
- 7.3. Upon request, buyers making the selection from competitive procurement process shall be able to provide justification for product choices that do not meet the environmentally preferable purchasing criteria in this policy.
- 7.4. Include businesses certified by the Bay Area Green Business Program in purchasing requests for products and services.
- 7.5. Encourage vendors, contractors and grantees to comply with applicable sections of this policy for products and services provided.

8. PROGRAM EVALUATION

- 8.1. The City Manager shall periodically evaluate the success of this policy's implementation

9. EXCEPTIONS

Every effort will be made to adhere to the Environmentally Preferable Purchasing Policy to the extent possible, recognizing that certain procurement decisions such as for cleaning products, janitorial equipment, and electronics may be outside of the City's authority.

IX. PUBLIC PROJECTS

Accounting procedures were established by the California Uniform Public Construction Cost Accounting Commission, and are detailed in the Commission's Accounting Policies and Procedures Manual. Public Contract Code (PCC) §22000-22050 describe both the informal and formal bidding procedures, project dollar thresholds, bidding and noticing requirements, rejection of bids, the definition and procedure for emergency Public Projects, and other mandates related to California Uniform Public Construction Cost Accounting Act (CUPCCAA).

Rather than the City's Purchasing Policy, Public Projects are subject to definitions, terms and conditions specified in the CUPCCAA, PCC Section 2200, et seq., as may be amended from time to time. When PCC requirements contradict City requirements, the PCC will apply. PCC § 22002(c), as may be amended, defines a "Public Project" as:

(c) "Public project" means any of the following:

- 1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, leased, or operated facility.
- 2) Painting or repainting of any publicly owned, leased, or operated facility.
- 3) In the case of a publicly owned utility system, "public project" shall include only the construction, erection, improvement, or repair of dams, reservoirs, power-plants, and electrical transmission lines of 230,000 volts and higher.

(d) "Public project" does not include maintenance work. For purposes of this section, "maintenance work" includes all of the following:

- 1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
- 2) Minor repainting.
- 3) Resurfacing of streets and highways at less than one inch.
- 4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.
- 5) Work performed to keep, operate, and maintain publicly owned water, power, or waste disposal systems, including, but not limited to, dams, reservoirs, power-plants, and electrical transmission lines of 230,000 volts and higher.

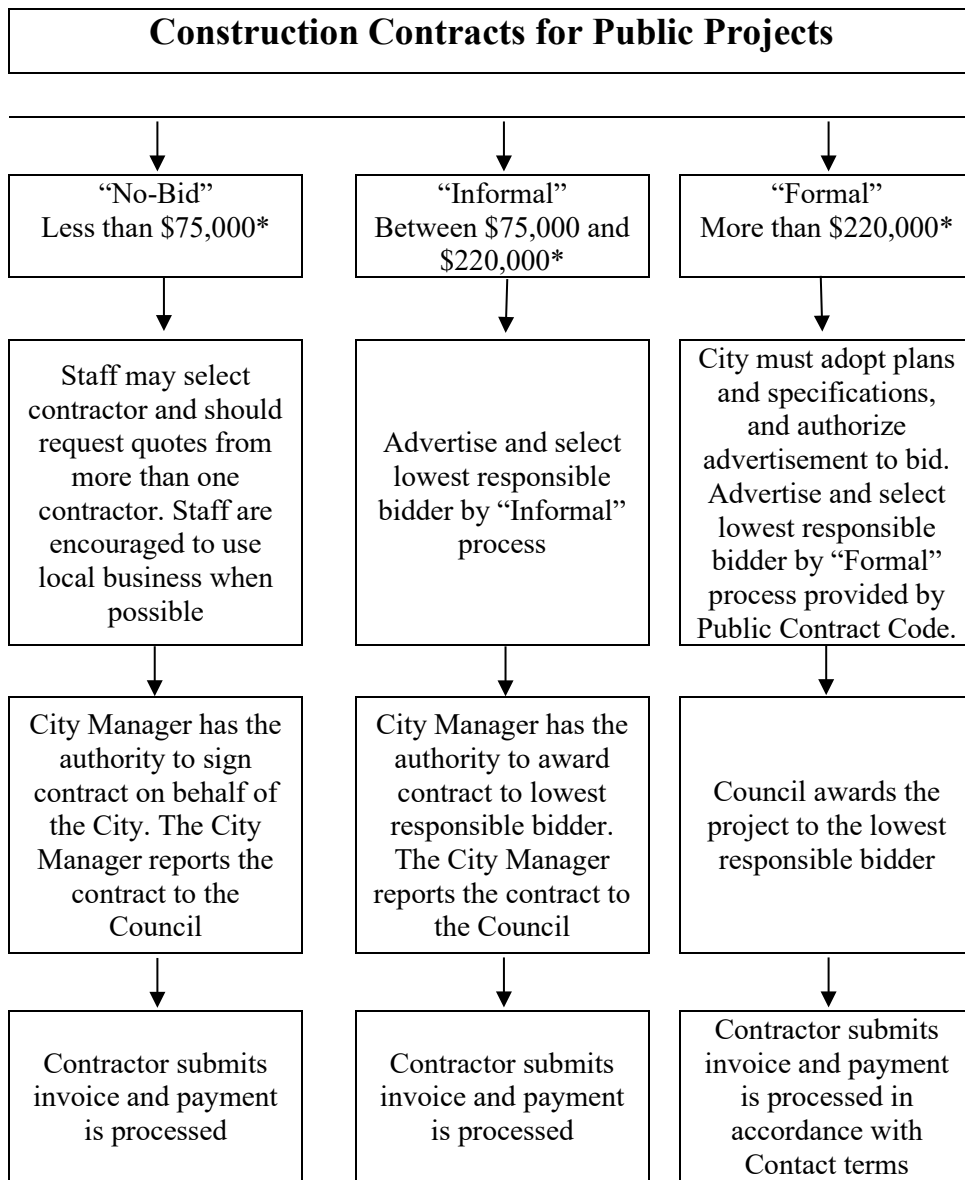

(e) For purposes of this chapter, "facility" means any plant, building, structure, ground facility, utility system, subject to the limitation found in paragraph (3) of subdivision (c), real property, streets and highways, or other public work improvement.

(f) Every November of each year, Department of Public Works will send out a written notice to all constructions trade journals designated for the City under PCC §22036(c), inviting all licensed contractors to register on the City's Bidders List for Notification of Informal Bids for the following calendar year. A qualified bidders' list can be obtained at the Public Works Department.

(g) City Council adopted Resolution No. 5763 electing that the City be subject to the CUPPCCAA.

(g) Projects valued at less than \$220,000, or as may be revised from time to time by the State of California, may be let by informal bidding, in accordance with the informal bidding procedures of the Uniform Public Construction Cost Accounting Act. Projects valued at less than \$75,000, or as may be revised from time to time by the State of California, may be performed by City forces or be let by informal quotes and negotiated price.

The following diagram illustrates the steps to follow for construction contracts:

*Dollar limits as may be revised, from time to time by the State of California, shall apply.

EXCEPTIONS TO COMPETITIVE BIDDING

As permitted by the Public Contract Code, competitive bidding may be waived in the case of an emergency as defined above or when:

- ▶ The items or services to be furnished are in such short supply that there is no competition.
- ▶ Where the specifications or other restrictions limit the number of prospective suppliers.
- ▶ Where the skill or knowledge of a particular individual is sought.

X. CHANGE ORDERS AND CONTRACT AMENDMENTS

A substantial change to a Purchase Order or Contract (i.e., pricing, terms and conditions, specifications and/or scope of work) shall be documented as a Change Order, or Contract Amendment.

- a. Department Heads or their designees may sign Change Orders and Contract Amendments for purchases and contracts up to \$5,000.
- b. When the initial purchase or contract exceeds \$5,000, the signature authority for that purchase shall be the City Manager or his/her designee.
- c. Change Orders and Contract Amendments generally should not exceed 10% of the original contract amount, unless authorized by the City Manager or his/her designee. A new scope of work and/or a new contract may be required when the change exceeds 10% of the original amount. The signature authority for this purchase shall be the City Manager or his/her designee, provided the original contract plus the change orders and contract amendments total is within the City Manager's approval authority or Council authorized amount.

This section replaces and rescinds Council Policy #27 (Change Orders), Administrative Policy # 2 (Work Order Procedures), #3 (Small Purchase Order Procedures) and #17 (Processing Invoices)

XI. URGENT AND EMERGENCY PURCHASES

Sound judgment shall be used in keeping urgent and emergency purchases to an absolute minimum. Specific procedures for managing these purchases shall apply, as determined by the Purchasing Agent.

- a. **Urgent Purchases** – Immediate purchases of material, supplies, equipment, vehicle and services may be made when an urgent circumstance (as defined in the Purchasing Policies) exists, and procurement should not be delayed by use of normal competitive and financial procedures. Urgent purchases of up to \$5,000 shall be authorized by the Department Head or designee; the City Manager may authorize urgent purchases up to \$50,000. Urgent purchases shall be followed, as soon as practical, with submission of a written justification for the purchase having been made outside normal procedures.
- b. **Emergency Purchases** – In an emergency (as defined in the Purchasing Policy), the City Manager or designee may authorize the immediate purchase of material, supplies, equipment, and services, including those in excess of his/her City Council-approved signature threshold. Such purchases shall be followed, as soon as practical, with submission of a written justification for the purchase having been made outside normal procedures. City Council shall be notified, at its next regular meeting, of any emergency purchases in excess of \$50,000.

1. Poor and/or lack of planning does not constitute justification for an urgent and emergency condition. An urgent and/or emergency condition is defined as “a situation that creates a threat to public health, welfare, safety, or public property such as floods,

epidemics, riots, fire, unexpected equipment failures, or such other reasons as may be determined by the City Manager or his/her designee.” An urgent and emergency purchase may be made when the existence of an urgent and/or emergency condition creates an immediate and serious need for goods or services that cannot be met through normal procurement methods.

- c. In the case of a disaster or for civil defense, nothing contained in this document shall limit the authority of the City Manager to make purchases and take such other emergency steps as are, or may be, authorized by the City Council, including opening a line or lines of credit to accommodate necessary purchases.
- d. Emergency purchases related to Public Projects are authorized under jurisdiction of the Public Contract Code/UCCAP, and are subject to definitions, regulations and processes that vary from City policy. Emergency purchases to repair or replace public facilities may proceed prior to adoption of the working details, drawing, plans and specifications, only when in accordance with the UCAAP definition and requirements. Staff responsible for Public Projects shall be held accountable for compliance with these requirements.
- e. Should any urgent or emergency purchase cause any budget line item to exceed the approved budget, the Department shall request City Manager approval to exceed and amend the budget, subject to subsequent City Council approval of an additional budget appropriation or budget amendment to cover the purchase. This section runs concurrent with the Amended City Council Policy #69 (Financial Policies).

XII. DISPOSAL OF SURPLUS PROPERTY

The City Manager or designee is authorized to exchange, trade-in, sell and dispose of surplus property having salvage value in the open market, by public auction, by competitive sealed bids or by exchange or trade in for new goods. The sale or lease of surplus property to a governmental, public or quasi-public agency may be without advertisement for or receipt of bids. Employees are not eligible to receive or purchase surplus property, however, employees may receive personalized items, and receive or purchase at market value items considered to be memorial or commemorative in nature, subject to City Manager approval. This section replaces and rescinds Council Policy #3 (Disposal of Surplus City Property to Qualified Charitable Organizations)

XIII. PROPERTY WITH NO SALVAGE VALUE

Surplus property with no salvage value, as determined by the Department and recommended by the Administrative Services Director to the City Manager or designee, shall be disposed of in a manner that salvages recyclable components, if practical.

XIV. UNCLAIMED, SEIZED OR ABANDONED PROPERTY

The Department is hereby authorized to make recommendation to the City Manager to sell or dispose of all goods in the possession or custody of the Police Department which are unclaimed, seized and/or abandoned and may be legally disposed of by the City.

XV. DONATIONS OF SURPLUS PROPERTY

Upon approval in advance in writing by the Administrative Services Director with the City Manager approval, surplus property may be donated to governmental, public or quasi-public agencies, charitable or non-profit organizations on a first-come first-served basis to be utilized for non-profit purposes.

XVI. REPORTING

The Department shall provide regular reports to the City Manager indicating surplus property disposed of, the method of disposal, and the amounts received from disposal, and shall maintain records for public inspection relative to the disposal of surplus property for a period of time in compliance with State law and the City's records retention schedule. Annual reports shall be provided to City Council accordingly.

XVII. CAPITAL EQUIPMENT

Purchase of equipment or furniture at a unit cost of \$10,000 or greater with a useful life greater than 5 years shall be capitalized. At the time of receipt, an asset number shall be issued and affixed to the asset.

XVIII. INFORMATION TECHNOLOGY-RELATED PURCHASES

To keep costs under control and assure implemented technologies work together harmoniously and meet staff needs, the City shall work with our I.T consultant to standardize and control all purchases of equipment, including but not limited to desktops, laptops, and other electronic devices.

- a. With limited exceptions, the department shall include in its annual budget funding to support technology purchases. While the Information Technology consultant may provide support for specific departmental technology needs, those needs shall be funded through department budgets.
- b. The list of those authorized by the City Manager to request technology purchases shall be maintained by the Administrative Services (Finance) Department.

XIX. CREDIT CARDS

The City Manager or designee may acquire credit cards in the name of the City for use by designated City Department Heads. The City shall maintain a written log of credit cards. Department Heads assigned credit cards will sign an acknowledgement form (Exhibit A) agreeing to the limitations of the card use as described below.

- ▶ No person other than the Cardholder is authorized to use the card unless prior written authorization is obtained from the Cardholder and submitted to the Administrative Services Department.
- ▶ May be used to charge necessary supplies and equipment, authorized travel, food (no alcohol) and lodging for the person in possession of the credit card and any other City employee.
- ▶ May be used for the purchase of gas, oil, supplies, and repairs for City vehicles.
- ▶ May be used to purchase conference/seminar registration, airline, hotel, meals (no alcohol), car rental costs for the City Council, City Manager, or other City employee.
- ▶ May be acquired for vendors (i.e. Office Depot, Sebastopol Hardware, etc.)
- ▶ May not be used for personal benefit or personal use even if the intent is to reimburse the City later. Charging personal expenses on the credit card is a misuse of City funds and doing so may result in disciplinary action.
- ▶ May not be issued to members of the City Council. They will be reimbursed according to the City’s established Reimbursement Policy.
- ▶ Must be returned to the City upon termination or resignation prior to receiving their last paycheck.

Misuse of the credit card privilege can result in disciplinary action, including termination.

Receipts for all credit card expenditures must be submitted to the Administrative Services (Finance) Department each month, along with the credit card statement and appropriate documentation explaining the purpose of each expenses and properly coding the expenses within one week of receiving the statement.

Credit card limits are as follows:

City Manager	\$10,000
Assistant City Manager/City Clerk	\$10,000
Administrative Services Director	\$10,000
Community Development (Planning) Director	\$5,000
Building Official	\$5,000
Police Chief	\$5,000
Police Lieutenant	\$5,000
	\$5,000
Public Works Director	\$5,000
Public Works Operations Supervisor	\$5,000

This section replaces and rescinds Council Policy #71 (Credit Card Use Policy)

XX. PURCHASE ORDERS

A signed purchase order will be made for all expenditures in excess of \$5,000 and a copy will be given to the Administrative Services (Finance) Department. Purchase orders should be approved (signed by the City Manager or his/her designee) prior to making the actual purchase or commitment of funds. It is the responsibility of each department directors/managers to verify that the funding amount of the requested purchase is available before authorizing the purchase order.

XXI. PREVAILING WAGES

State Law requires that contractors pay their workers "prevailing wages" when a project is a "public work". The meaning of "public works" is defined in the California Labor Code Section 1720-1743. Therefore, the City will affirmatively state in all "public works" contracts over \$1,000 that contractors are required to pay their workers "prevailing wages".

XXII. GRANT COMPLIANCE

Grant-required language will be incorporated in bid documents, professional services agreements, equipment supply contracts and construction contracts as needed. City contracts will provide language required to be in all subcontracts and disclosure of an audit requirement.

EXHIBIT A

CITY OF SEBASTOPOL CREDIT CARD HOLDER AGREEMENT

Employee: _____ Department: _____
(Cardholder)

The Cardholder has been issued a City credit card and hereby agrees to comply with all terms and conditions set forth in the City’s Purchasing policy, including but not limited to:

1. **Official Use Only.** Charging personal expenses on City cards is a misuse of public funds even if the intent is to reimburse the City at a later time and may result in disciplinary action, including termination, at the City Manager’s discretion.
2. **Timely, Accurate and Supported Payments.** Credit card payments will be processed on a timely basis, and adequate supporting documentation (such as vendor order forms, receipts, invoices and credit card receipts) will be retained for all charges and submitted to the Administrative Services (Finance) Department.
3. **Disputed Charges.** It is the responsibility of the cardholder to immediately notify the vendor and issuing bank of any disputed charges.
4. **Lost or Stolen Cards.** The issuing bank and the Administrative Services (Finance) Department will be notified immediately of a lost or stolen card. Failure to do so could make the Cardholder responsible for any fraudulent use of the card.
5. **Surrender Upon Request or Separation.** The credit card will be immediately surrendered upon separation from the City or upon request of the City Manager or designee. Use of the credit card for any purpose after its surrender is prohibited. The bottom section of this form will be signed upon return of the credit card.
6. **Credit Card Limit.** The credit limit of this card is \$ _____.

Cardholder Signature Date

RETURN OF CREDIT CARD UPON SEPARATION FROM CITY EMPLOYMENT

I HEREBY SURRENDER the credit card issued to me by the City of Sebastopol to the Administrative Services Director. I declare that all outstanding charges on the credit card are for official City business and will be paid through established procedures.

Cardholder Signature Date Administrative Services Director Date

INVESTMENT POLICY

Effective September 1, 2017

OVERVIEW

This policy describes the parameters for investing government funds and identifies the investment objectives, preferences or tolerance for risk, constraints on the investment portfolio, and how the investment program will be managed and monitored. The document serves as a communication tool for staff, elected officials, the public, rating agencies, bondholders, and any other stakeholders on investment guidelines and priorities. An investment policy enhances the quality of decision making and demonstrates a commitment to the fiduciary care of public funds, making it the most important element in a public funds investment program.

I. Governing Authority

The investment program shall be operated in conformance with governing legislation and other legal requirements.

II. Scope

This policy applies to the investment of all funds, excluding the investment of employees' retirement funds if applicable.

- a. Pooling of Funds - Except for cash in certain restricted and special funds, the City will consolidate cash and reserve balances from all funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

III. General Objectives

The primary objectives of investment activities shall be safety, liquidity, and return:

- SAFETY - Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.
 - a. Credit Risk - The City will minimize credit risk, which is the risk of loss of all or part of the investment due to the failure of the security issuer or backer, by:
 - Limiting investments to the types of securities listed in Section VII of this Investment Policy.
 - Pre-qualifying and conducting ongoing due diligence of the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with Section V.
 - Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

- b. Interest Rate Risk - The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:
- Structuring the investment portfolio so that security maturities match cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.
 - Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting individual security maturity as well as the average maturity of the portfolio in accordance with this policy (see section VIII).
- LIQUIDITY - The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). Alternatively, a portion of the portfolio may be placed in money market mutual funds or local government investment pools which offer same-day liquidity for short-term funds.
- RETURN - The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall generally be held until maturity with the following exceptions:
- A security with declining credit may be sold early to minimize loss of principal;
 - Selling a security and reinvesting the proceeds that would improve the quality, yield, or target duration in the portfolio may be undertaken;
 - Unanticipated liquidity needs of the portfolio require that the security be sold.

IV. Standards of Care

1. Prudence

The standard of prudence to be used by investment officials shall be the "uniform prudent investor act" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy.

2. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees

and investment officials shall disclose any material interests in financial institutions with which they conduct business, in accordance with applicable laws. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

3. Delegation of Authority

Authority to manage the investment program is granted to the Finance Director. Responsibility for the operation of the investment program is hereby delegated to the Finance Director, who shall act in accordance with established written procedures and internal controls for the operation of the investment program consistent with this investment policy. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Finance Director. The Finance Director shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

V. Authorized Financial Institutions, Depositories, and Broker/Dealers

1. *Authorized Financial Institutions, Depositories, and Broker/Dealers*

A list will be maintained of financial institutions and depositories authorized to provide investment services. In addition, a list will be maintained of approved security broker/dealers selected by creditworthiness and/or other factors, such as FINRA broker check.

All financial institutions and broker/dealers who desire to become qualified for investment transactions must supply the following as appropriate:

- Audited financial statements demonstrating compliance with state and federal capital adequacy guidelines
- Proof of Financial Industry Regulatory Authority (FINRA) certification (not applicable to Certificate of Deposit counterparties)
- Proof of state registration
- Completed broker/dealer questionnaire (not applicable to Certificate of Deposit counterparties)
- Certification of having read and understood and agreeing to comply with the City's investment policy.
- Evidence of adequate insurance coverage.

An annual review of the financial condition and registration of all qualified financial institutions and broker/dealers will be conducted by the Finance Director.

VI. Safekeeping and Custody

1. *Delivery vs. Payment*

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible custody account prior to the release of funds.

2. *Safekeeping*

Securities will be held by an independent third-party custodian selected by the entity as with all securities held in the City's name. The safekeeping institution shall annually provide a copy of their most recent report on internal controls (Statement of Auditing Standards No. 70, or SAS 70).

3. Internal Controls

The Finance Director shall establish a system of internal controls, which shall be documented in writing. The internal controls shall be reviewed annually by the Budget Subcommittee, where present, and with the independent auditor. The controls shall be designed to prevent the loss of public funds arising from fraud, employee error, mis-representation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the City.

VII. Suitable and Authorized Investments

1. *Investment Types* – The following investments will be permitted by this policy:

- U.S. Treasury obligations which carry the full faith and credit guarantee of the United States government;
- U.S. government agency and instrumentality obligations that have a liquid market with a readily determinable market value;
- Certificates of deposit and other evidences of deposit at financial institutions,
- Bankers' acceptances;
- Commercial paper, rated in the highest tier (e.g., A-1, P-1, F-1, or D-1 or higher) by a nationally recognized rating agency;
- Corporate Bonds;
- Obligations of state, provincial and local governments and public authorities rated A or better;
- Repurchase agreements whose underlying purchased securities consist of the aforementioned instruments;
- Money market mutual funds regulated by the Securities and Exchange Commission and whose portfolios consist only of dollar-denominated securities; and
- Local government investment pools either state-administered or developed through joint powers statutes and other intergovernmental agreement legislation;
- Other investment types or asset classes as approved by the City Council.

Investment in derivatives of the above instruments shall require authorization by the City Council.

VIII. Investment Diversification & Constraints

1. Diversification

It is the policy of the City to diversify its investment portfolios. To eliminate risk of loss resulting from the overconcentration of assets in a specific maturity, issuer, or class of securities, all cash and cash equivalent assets in all City's funds shall be diversified by maturity, issuer, and security type. Diversification strategies shall be determined and revised periodically by the Finance Director for all funds except for the employee retirement fund.

In establishing specific diversification strategies, the following general policies and constraints shall apply: Portfolio maturities shall be staggered to avoid undue concentration of assets in a specific maturity sector. Maturities selected shall provide for stability of income and reasonable liquidity.

- Liquidity shall be assured through practices ensuring that the next disbursement date and payroll date are covered through maturing investments or marketable U.S. Treasury bills.
- Positions in securities having potential default risk (e.g., commercial paper) shall be limited in size so that in case of default, the portfolio's annual investment income will exceed a loss on a single issuer's securities.
- Risks of market price volatility shall be controlled through maturity diversification and duration management.
- The investment committee/investment officer shall establish strategies and guidelines for the percentage of the total portfolio that may be invested in securities other than repurchase agreements, Treasury bills or collateralized certificates of deposit. The committee shall conduct a quarterly review of these guidelines and evaluate the probability of market and default risk in various investment sectors as part of its considerations.

The following diversification limitations shall be imposed on the portfolio:

- **Maturity:** No more than xx percent of the portfolio may be invested beyond xx months, and the weighted average maturity of the portfolio shall never exceed xx years.
- **Default risk:** No more than xx percent of the overall portfolio may be invested in the securities of a single issuer, except for securities of the U.S. Treasury. No more than xx percent of the portfolio may be invested in each of the following categories of securities:
 - a) Commercial paper,
 - b) Negotiable certificates of deposit,
 - c) Bankers' acceptances,
 - d) Any other obligation that does not bear the full faith and credit of the United States government or which is not fully collateralized or insured and
- **Liquidity risk:** Based on liquidity needs, at least xx percent of the overall portfolio shall be invested in overnight instruments or in marketable securities which can be converted to cash within one day.

2. *Maximum Maturities*

To the extent possible, the [entity] shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the [entity] will not directly invest in securities maturing more than five (5) years from the date of purchase or in accordance with governing legislation. The [entity] shall adopt weighted average maturity limitations consistent with the investment objectives.

Reserve funds and other funds with longer-term investment horizons may be segregated into a long-term "core" investment portfolio and invested in securities exceeding five (5) years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of funds. The intent to invest in securities with longer maturities

shall be disclosed in writing to the legislative body. (See the GFOA Recommended Practice on "Maturities of Investments in a Portfolio" in Appendix.)

3. *Competitive Bids*

The investment officer shall obtain competitive bids from at least three brokers or financial institutions on all purchases and sales of investment instruments transacted on the secondary market.

IX. Reporting

1. *Methods*

The investment officer shall prepare an investment report at least quarterly [*or monthly*], including a management summary that provides an analysis of the status of the current investment portfolio and the individual transactions executed over the last quarter [*or month*]. This management summary will be prepared in a manner which will allow the [entity] to ascertain whether investment activities during the reporting period have conformed to the investment policy. The report should be provided to the entity's chief administrative officer, the legislative body, the investment committee and any pool participants. The report will include the following:

- Listing of individual securities held at the end of the reporting period including type, acquisition cost, book cost, and market value.
- Realized and unrealized gains or losses resulting from appreciation or depreciation by listing the cost and market value of securities over one-year duration that are not intended to be held until maturity (in accordance with Governmental Accounting Standards Board (GASB) requirements).
- Average weighted return on investments as compared to applicable benchmarks.
- Percentage of the total portfolio which each type of investment represents.
- A statement that the investment portfolio is in compliance with the investment policy and is meeting the investment policy objectives

2. *Performance Standards*

The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. A series of appropriate benchmarks shall be established against which portfolio performance shall be compared on a regular basis. The benchmarks shall be reflective of the actual securities being purchased and risks undertaken, and the benchmarks shall have a similar weighted average maturity as the portfolio.

3. *Marking to Market*

The market value of the portfolio shall be calculated at least quarterly [*or monthly*] and a statement of the market value of the portfolio shall be issued at least quarterly [*or monthly*]. This will ensure that review of the investment portfolio, in terms of value and price volatility, has been performed consistent with the GFOA Recommended Practice on "Mark-to-Market Practices for State and Local Government Investment Portfolios and Investment Pools." (See GFOA Recommended Practices in Appendix.) In defining market value, considerations should be given to the GASB Statement 31 pronouncement.

X. Policy Considerations

1. Amendments

This policy shall be reviewed on an annual basis. Any changes must be submitted by the investment officer and approved by the investment oversight committee or authoritative body acting in such capacity.

XI. Approval of Investment Policy

The investment policy shall be formally approved and adopted by the governing body of the [entity] and reviewed annually.

XII. List of Attachments

The following documents, as applicable, are attached to this policy:

- Listing of authorized personnel;
- Relevant investment statutes and ordinances;
- Listing of authorized broker/dealers and financial institutions;
- Detailed listing of authorized investment classes, sectors, and types;
- Internal Controls;
- Glossary

XIII. Other Documentation

- Master Repurchase Agreement, other repurchase agreements and tri-party agreements,
- Broker/Dealer Questionnaire,
- Credit studies for securities purchased and financial institutions used,
- Safekeeping agreements,
- Wire transfer agreements,
- Sample investment reports,
- Methodology for calculating rate of return,

CITY OF SEBASTOPOL Capitalization and Depreciation Policy #91

The City of Sebastopol has a Capital (Fixed) Asset Accounting System to safeguard a sizeable investment, fix responsibility for the custody of equipment, assist in the formulation of acquisition and retirement policies through accumulation of data regarding prices, sources of supply and useful life, to provide data for financial reporting, to provide record support and to account for reimbursement of depreciation under grants and proprietary service programs, and to provide information for insurance purposes.

Fixed assets are capitalized because they are used in the production of the goods or services provided and sold. Depreciation must be recorded to determine total expenses, user charges, net income, and changes in fund equity. Capital assets also may serve as a basis for debt issued to establish, acquire, or improve a public enterprise.

Capital assets are reported in the applicable proprietary funds or in the general fixed assets account group.

Definitions:

Capital assets are assets of a relatively permanent nature and of significant value, and are broadly classified as property, plant, equipment, and infrastructure (e.g. roads, bridges, sidewalks, and similar items) assets.

Land includes the investment in real estate other than:

- a. Structures, pipeline, pump stations, reservoirs and other improvements, and
- b. Land acquired for pipeline and road purposes.

All land, as above defined, shall be capitalized without regard for significance of cost.

Buildings and improvements are physical property of a permanent nature, examples of which are buildings, structural attachments, storage tanks, reservoirs, pump stations, wells, and parking areas. Sidewalks, trees and drives in connection with other structures should also be capitalized. Fixtures are permanent attachments to structures which are not intended to be removed and which function as part of the structure, such as boilers, pumps, lighting fixtures or plumbing.

Pipelines include mains, services, valves, hydrants, manholes, and other appurtenances. Paving of ditch lines is also included in plant values.

Equipment includes moveable personal property of a relatively permanent nature and of significant value, such as machines, tools, and vehicles, computer equipment and software.

Relatively permanent is defined as a useful life in excess of one year.

Significant value is defined as a minimum initial cost of more than \$10,000 (\$25,000 for infrastructure type assets).

Treatment of Costs Subsequent to Acquisition

Expenditures on fixed assets which are incurred after their original acquisition are defined and recorded as follows:

Maintenance is defined as expenditures, which neither materially add to the value of property nor appreciably prolong its life, but merely keep it in an ordinary efficient operating condition. Maintenance costs shall not be capitalized.

Capitalized Expenditures are defined as expenditures, which materially add to the value of property or appreciably extend its life. The cost of capitalized expenditures should be added to the book value of the asset where the original cost of a component being improved can be specifically identified. This amount should be written off and the new cost capitalized. Capitalized expenditures are on occasion referred to as betterments. The decision as to whether an expenditure should be capitalized shall be made by an evaluation of engineering, physical, or other relevant factors apart from cost.

Additions are new and separate units, or extensions of existing units, and are considered to be fixed assets. As with betterments the test of significance should be applied.

Alterations are changes in the physical structure or arrangement of fixed assets, the cost of which does not qualify as an increase in fixed assets under the foregoing definitions of betterments and additions. Alterations shall not be capitalized.

Valuation

Reasons for Assigning Value

A dollar-value should be assigned to each fixed asset item for the following reasons:

- a. Dollar amounts serve as a control device; they are an important aspect of identification of a particular item or group of items.
- b. Dollar amounts make it possible to present to the public the City's investment in fixed assets.
- c. Dollar amounts provide a check on the adequacy of the City's insurance coverage.
- d. Dollar amounts on individual items provide information for cost accounting.

Valuation Basis

Fixed assets should be accounted for at historical cost, or estimated historical cost if purchased or constructed. Donated fixed assets should be recorded at their estimated fair market value at the date of donation. Surplus property purchases at nominal prices far below actual value are in part donations and should be so valued.

Land Cost

The cost of land includes all expenditures in connection with its acquisition, such as: purchase price; appraisal and negotiation fees; title search fees; surveying fees; cost of consents; relocation costs; condemnation costs; clearing land for use; demolishing or removing structures; and filing costs. Receipts from the sales of salvage should be credited against the land cost.

Buildings and Improvements Cost

The cost of structures and improvements includes all expenditures in connection with their acquisitions, such as: purchase price or construction cost; fixtures attached to the structure; architects' fees; accident or injury costs; payment of damages; insurance during construction; cost of permits and licenses; and net interest cost during construction.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

The cost should be reduced for: sale of salvage from materials charged against the construction; discounts, allowance and rebates secured; and amounts recovered through surrender of liability and casualty insurance. Rentals of property during the construction period should be credited to revenue unless otherwise restricted.

Equipment Cost

The cost of equipment includes: purchase price or construction cost less discounts; freight or other carriage charges; sale, use, or transportation taxes; and installation costs.

Construction by Force Account

Fixed assets constructed by the City are recorded in the same manner as those acquired by purchase or construction contract. Costs are initially charged to the accounts of the cost center performing the construction and are then transferred to the project. These costs include direct labor, materials, equipment usage and overhead. Overhead is limited to those items, such as worker's compensation and employee group insurance premiums, retirement, sick leave and vacation allowances, which can be distributed on the basis of direct labor. Administrative overhead outside the cost center may be capitalized when clearly related to the construction.

Assets Acquired Under Lease Purchase Agreements

Lease contracts convey property to another for a specific period of time for a specified rent. Lease contracts are accounted for either by the operating method under which periodic payments are charged as expenditures, or by the financing method under which the payments are treated as debt service.

Sources of Information

Information regarding fixed asset additions is best taken from purchase invoices and contracts, even though there is sometimes an undue lag between physical possession of the property and the receipt of these documents. The individual department head controls the purchase, movement, and disposition of assets.

Disposition of Fixed Assets

With City Manager approval, capital assets may be sold, abandoned or traded in on new assets. Regardless of the manner of disposition or the amount of the proceeds, the asset must be removed from the fixed asset account at its recorded value along with the asset's accumulated depreciation. The resulting gain or loss is recorded in the revenue and expense accounts.

Recordkeeping

Individual Records

An individual record of each unit of accountability should be maintained. Information recorded should include:

- a. Date acquired.
- b. Classification, such as: Buildings, Vehicles, Machinery & Equipment, etc.
- c. The vehicle unit number assigned.
- d. An abbreviated word description.
- e. Cost or other basis.
- f. Method by which acquired, such as: lease, grant, donation, purchase.
- g. Grant from which purchased, if applicable.
- h. Vendors name, if purchased.
- i. Date and method of retirement.
- j. Posting reference.

Optional data might include value for insurance purposes, estimated life, and equipment class code.

Subsidiary Records

For control purposes it is convenient to group detailed records by classification, department, or by location. Such records constitute a subsidiary ledger to the fixed asset control accounts.

Depreciation

Depreciation, depletion, or amortization of capital assets must be recorded to determine the total expenses, net income, and changes in fund equity. In addition, as an option, depreciation on fixed assets acquired by contributed capital can be closed to the contributed capital account. This method should be considered when there is no obligation and the policy is not to replace the fixed assets with future contributed capital. In such circumstances, the contributed capital rather than the retained earnings account is decreased by the related depreciation expense.

Depreciation is computed using the straight-line method over the estimated years of useful life at the time the asset is placed in service. Useful life shall be determined by the Public Works Superintendent, Finance Director or City Manager or his/her designee, as appropriate, using the following guidelines:

<u>Assets</u>	<u>Years</u>
Buildings	30
Building improvements	15-20
Public Domain Infrastructure	50
System Infrastructure	50-100
Vehicles	7
Office Equipment	3-7
Computer Equipment	3-5

Once established, the useful life may be modified as necessary to account for betterments or impairments of an asset.

RESOLUTION NUMBER: 6721-2025

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SEBASTOPOL APPROVING THE UPDATED VEHICLE, TRAVEL AND REIMBURSEMENT POLICY

WHEREAS, the City has a responsibility to ensure it handles public funds appropriately; and

WHEREAS, the Vehicle, Travel & Reimbursement Policy describes conditions governing the required procedures when utilizing City and/or privately-owned vehicles, and overall travel reimbursements; and

WHEREAS, the primary objective of the Vehicle, Travel and Reimbursement Policy is to set forth the current practices and to ensure guidance on the use and care of City and/or privately owned vehicles and to set limits for all travel and reimbursements; and

WHEREAS, the policy has not been formally updated in several years, and recent reviews have identified areas requiring clarification and modernization.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Sebastopol hereby approves the revision to the Vehicle, Travel & Reimbursement Policy #96 as submitted and

The above and foregoing Resolution was duly passed, approved, and adopted at a meeting by the City Council on the 2nd day of December 2025.

I, the undersigned, hereby certify that the foregoing Resolution was duly adopted by the City of Sebastopol City Council by the following vote:

VOTE:

Ayes: Councilmembers Carter, Hinton, Maurer, Vice Mayor McLewis and Mayor Zollman

Noes: None

Absent: None

CITY OF SEBASTOPOL
Vehicle, Travel & Reimbursement Policy # 96

Overview

To establish the policy, procedures and guidelines for the use of City and personal vehicles for the efficient and effective delivery of City services, while minimizing City expenditures and maximizing current resources, and to establish policy for City travel and reimbursements. This procedure applies to all City employees and officials, and supersedes all other administrative directives previously issued pertaining to the use of City owned or personal vehicle use while conducting City business, or City travel and reimbursement procedures. This policy is written to document the policies and procedures that shall be followed when traveling on City business, attending City related meeting expense for reimbursement, use and care of City vehicles and property by all employees and officials. Transportation required for employees to conduct official City business will be available by the use of a City provided vehicle or the use of an authorized personal vehicle at the City's sole discretion. Everyone who travels for City related business and/or attends meetings for City business purposes (or supervises someone who does) is responsible for reading and understanding guidelines.

Vehicle Policy

The City Council is responsible for adopting the City's vehicle and meeting guidelines, and for approving any significant policy revisions to them. The City Manager or his/her designee has the responsibility for administration of the provisions of this policy, and is responsible for making decisions regarding certain specific vehicle uses as described in this policy. The Administrative Services Director is responsible for developing administrative procedures (such as additional forms, new account codes) as needed to implement the guidelines consistently and efficiently. City Manager or his/her designee is authorized to make minor administrative changes in the guidelines as long as they are intended to carry out the purpose of these guidelines and will not have any significant policy impacts.

This policy assumes a mutual trust between the City of Sebastopol and its employees and City Officials. The City expects to reimburse its employees and officials for all reasonable costs incurred on behalf of the City. Employees and officials are expected to use good judgment in the expenditure of public funds. These guidelines are not intended to address every issue, exception, or contingency that may arise in the course of City travel; however, the basic standard that should always prevail is to exercise good judgment in the use and stewardship of the City's resources. Many of these guidelines simply reaffirm values in judgments that are already practiced.

This policy is to assure that City employees and officials adhere to procedures when arranging for travel, lodging, meals and other expenses and that they are paid for reasonable expenses incurred for travel, conferences, meetings, and meals as a result of conducting authorized City business. The policy assures that payments made by the City are for actual and necessary expenses incurred for City business as well as ensuring that City employees and officials will received advances/reimbursements in a timely manner.

VEHICLE POLICY:

City provided vehicles shall be used only for official City business.

I. Transportation Types:

The following transportation options listed below are potentially available for conducting City business.

A. City Vehicles

Use of City-Owned Vehicles - CIRA liability coverage extends to include use of all city-owned vehicles when an employee or volunteer is driving the vehicle on city business.

The employee or volunteer must not use city vehicles for unauthorized purposes. The coverage agreement states that coverage extends to “any person while using a city-owned automobile – provided the actual use of the automobile is by or with the permission of the named “covered party.” Although “permission” is usually broadly interpreted by courts, if city employees or volunteers are made aware of this limitation, it should provide them with additional incentive to obey regulations concerning use of vehicles. In any case, the city always has the full protection of the coverage agreement.

1. Special Purpose Vehicles: Vehicles whose primary use requires special equipment designed to perform job functions, or whose primary use is in a restricted area where non-City vehicles are prohibited.
2. Police Vehicles: Vehicles whose primary use involves official business conducted by the Police Department.
3. Take-Home Vehicles: Take-home vehicles are to enable after-hours emergency response by authorized City employees who are on standby duty assignments that require Special Purpose vehicles. Authorization for a take-home vehicle is granted to a classification meeting the requirements as described below, and in no event does authority for a take-home vehicle belong to any specific City employee who is not in a classification that meets the requirements. This means that an individual employee previously granted authorization for a take-home vehicle whose assignments are updated and no longer require Special Purpose vehicles is no longer authorized for a take-home vehicle. Non-City employees shall not be permitted to take City vehicles home under any circumstances.
 - a. The employee is required to be on standby duty and must respond to after hour emergencies; and
 - b. The standby duty job function requires a Special Purpose vehicle; and
 - c. The employee responding to the call-back will be able to respond to the first call-back instance and be onsite within a maximum of 30 minutes of the call; and
 - d. The one-way commute miles of the employee assigned to call-back duty do not exceed 30 miles; and
 - e. The Department Director has received authorization from the City Manager’s Office for take-home use of the vehicle.

B. Employee-Owned Vehicles

Use of privately-owned vehicles on City business. If employees or volunteers receive a mileage allowance for use of personally-owned vehicles on city business, such persons should be advised that:

1. The mileage allowance is intended to cover the city’s share of the employee or volunteer’s personal auto insurance premium.
2. Each employee or volunteer is expected to maintain an automobile insurance policy whether or not they receive a mileage allowance.
3. Each such policy should be maintained with liability limits of no less than:

- a) *\$100,000 per person Bodily Injury; \$300,000 per accident Bodily Injury; \$100,000 per accident Property Damage; or
- b) *\$300,000 Combined (Bodily Injury and Property damage) single limit.

* In the event that the personal auto insurance policy does not align with these liability limits, use of a private vehicle to conduct City business is not authorized.

- 4. Each such policy is primary coverage in the event of a loss or claim, with CIRA coverage applying in excess.

The form Authorization to Use Privately-Owned Automobiles on city business should be completed and filed with the appropriate office designated by the City Manager or his/her designee. A diary system should be maintained to assure that policies are in force (Exhibit A)

In order to protect the city's interests no employee or volunteer should be allowed to drive a vehicle on city business until the city has verified that the employee or volunteer has a valid driver's license. Verification is the responsibility of the employee's supervisor.

Once authorized by the Department Director (or designee) to use an employee-owned vehicle, employees will be eligible for mileage reimbursement subject to the provisions of the Mileage Reimbursement as follows:

- a. Authorized employees will be reimbursed for the use of their personal vehicles for City business at the prevailing IRS standard mileage rate for employee business travel. This rate is subject to change and will be applied in accordance with the most current rate published by the Internal Revenue Service. .
- b. Mileage from the employee's home to the first point of duty, and from the last point of duty to home will not be considered as City business, unless the employee's first or last point of duty is outside of City of Sebastopol limits. Immediate supervisors are responsible for ensuring that employees provide appropriate documentation for all trips for which reimbursement is requested. Examples of appropriate documentation include online map distance data; or trip beginning/ending odometer readings. Employees are encouraged to discuss documentation alternative with supervisors prior to traveling.
- c. In instances when an employee's first and/or last point of duty is outside City of Sebastopol limits, an employee shall be reimbursed for the number of miles driven between the employee's home and the first and/or last point of duty, minus the number of miles the employee normally commutes from home to and/or from the employee's regular work location.
- d. Employees requesting mileage reimbursement shall complete the Mileage Reimbursement Claim Form. Claims should typically be submitted to the employee's supervisor and timekeeper for approval within thirty (30) calendar days of when the travel occurred. However, routine (i.e. for short daily or weekly errands) mileage reimbursement can be submitted quarterly. At the end of a fiscal

year end, employees shall submit all mileage reimbursement claimed through June 30th no later than July 31st. Claims outside the timeframes described shall be paid only by approval of the City Manager or his/her designee.

- e. Report only travel on authorized City business. If the continuity of a day's travel is interrupted by a personal trip, deduct this trip from the mileage claim.
- f. Report only beginning and ending mileage during working hours, related to official City business.
- g. Adequate explanation of locations covered must be shown. Where applicable or required by the supervisor, indicate assigned area and number of trips.
- h. Employees shall sign all mileage reimbursement claim forms and submit the claim to the supervisor or department director or designee for approval. Employees who submit false claims for mileage reimbursement are subject to disciplinary action, up to and including termination.

II. Qualifications for Employees Operating Vehicles

- a. The City recognizes the benefit of the assignment of City-owned vehicle to specific employees, officials, or volunteers for City related business. City vehicle, property, materials, supplies, tools, and equipment are intended for the maintenance and operations of the City and shall be readily available for use of authorized City staff. Authorization for use of such vehicles must be controlled and limited to business use only. Personal items or information shall not be stored in City vehicles. Any loss, damage or misuse of personal items stored in City vehicles shall not be the responsibility of the City. No personal or political use of any City property, materials, supplies, tools, equipment is permitted, except for de minimus vehicle use by authorized staff for benefit of the City.
- b. City employees who drive a vehicle in the course of conducting City business must possess a valid California State Driver License appropriate to the type of vehicle being driven. Employees authorized to use special purpose vehicles will maintain and comply with vehicle specific training and licensing requirements as defined by any relevant rules and regulations, and/or the California Department of Motor Vehicles, and/or the employee's job classification minimum qualifications.
- c. Per employee's job classification to maintain and possess an appropriate operator's license issued by the State Department of Motor Vehicle, therefore, employees required to drive a vehicle on City business shall notify their supervisor in writing of the suspension, revocation, cancellation, expiration, lost privilege, disqualification, or other action affecting the status of their driver license or their authority to drive a vehicle. The effective date for notification must be made no later than the first workday following the day the employee received notice of the suspension, revocation, cancellation, expiration, lost privilege, disqualification, or other action affecting the status of their driver license or their authority to drive a vehicle.
- d. If an employee is notified that an action MAY be taken which could affect the employee's license, including the possible suspension, revocation, cancellation, expiration, lost privilege, disqualification, or other action affecting the status of their

driver license or their authority to drive a vehicle, the employee shall notify their supervisor as soon as practicable, but in no case more than five (5) working days following the day the employee received notice of the potential action. The employee shall continue to keep their supervisor informed of any further changes or updates regarding their driving status.

- e. Employees cannot drive their vehicles on City business unless all of these requirements are met. Employees are specifically required to immediately contact their supervisor if, at any time, there is a change to these requirements or they do not meet all of the requirements.
- f. Employees who are unable to comply with these requirements shall not be permitted to drive any vehicle (City or personal) to conduct City business and may not drive onto any City property or City facility.

III. Conditions of Vehicle Use

City and employee owned vehicles used for City business shall be operated in a manner consistent with all safety and legal requirements. Vehicles authorized for use based on this Policy shall only be used to conduct official City business.

A. Transportation of Passengers and Goods

Vehicles driven to conduct official City business should not be used to transport any passengers other than authorized City employees on official City business or persons directly related to the official City business being conducted. Nothing herein shall be construed to prohibit the carrying of any person or persons in case of accident or emergency.

City owned vehicles should not be used to transport any items or goods that are not the property of the City, unless such transportation is directly related to official business being conducted by the City.

B. Vehicle Idling

In order to reduce emissions that are a result of idling diesel and gasoline engines, no City-owned diesel or gasoline powered vehicles/equipment or stationary engines may idle for more than five (5) consecutive minutes, with the following exceptions:

- Idling when queuing;
- Idling to verify that the vehicle is in safe operating condition;
- Idling for testing, servicing, repairing or diagnostic purposes;
- Idling when it is necessary to accomplish work for which the vehicle was designed (such as operating a crane or when emergency vehicles used by Police and Fire are at the scene of an incident);
- Idling to bring the machine system to operating temperature; and
- Idling to ensure safe operation of the vehicle and/or of the occupants.

For the purpose of this section, queuing shall mean the intermittent starting and stopping of a vehicle while the driver, in the normal course of doing business, is waiting to perform work or a service, and when shutting the vehicle engine off would impede the progress of the queue and is impracticable. Queuing does not include the time a driver may wait

motionless in line in anticipation of the start of a workday or a location where work or a service will be performed.

C. Cellular Telephone Safety While Driving

1. Wireless Telephones

Employees shall not use their wireless telephone (either City issued phones or personal phones) while driving on City business or while conducting City business unless the telephone is designed and configured to allow hands free listening and talking, and is used in that manner while driving. Even when using a hands-free wireless telephone, conducting City business on a cellular telephone while driving should be kept to a minimum and only done when necessary. This section does not apply to an employee or non-City employee using a wireless telephone for emergency purposes (such as calling 911) while driving on City business.

2. Electronic Wireless Communication Devices

Employees shall not use an electronic wireless communication device to write, send, or read a text-based communication while driving on City business. "Write, send, or read a text-based communication" means using an electronic wireless communications device to manually communicate with any person using a text-based communication, including, but not limited to, communications referred to as a text message, instant message, or electronic mail.

3. Sworn Police Personnel and Volunteers

Sworn police personnel and volunteers using wireless telephones and electronic wireless communication devices in the course and scope of their duties shall do so in accordance with their respective Duty Manuals and applicable policies and procedures relating to the use of wireless telephones and electronic wireless communication devices.

IV. **Collision/Accident Reporting**

- A. Non-sworn Employees - Reporting of vehicle collisions or accidents by City employees driving a City-owned vehicle or their authorized personal vehicle on City business is required. Reporting must be prompt, accurate and complete. These reports shall be made within no less than 24 hours (or 48 hours if the accident occurs on a weekend) to the employee's immediate supervisor. In all cases, accident reports involving city-owned equipment shall be provided to the City Manager's Office.

Incidental damage to a vehicle or equipment, defined as damage while the vehicle is unattended or damage such as a broken windshield from a flying rock must also be reported to the employee's immediate supervisor. In all cases, incidental damage to city-owned equipment shall be reported to the City Manager's Office.

The reporting procedure to be followed by City employees and non-City employees who are involved in a vehicle accident while driving a City-owned or authorized personal vehicle on City business shall be as follows:

- a) Stop immediately and render aid if such is necessary.
- b) Call the police. Tell the police this is an accident involving a City owned vehicle or authorized private vehicle on City business.

- c) Do not make or sign statements for anyone except the police.
- d) Obtain the Accident Report and give it to the supervisor, who is responsible for the services being provided by the City or non-City employee. The Department Director will route one copy of the accident report to the City Manager’s Office.

B. Sworn Police Personnel - Reporting of vehicle collisions or accidents by sworn Police personnel driving a City-owned vehicle or their authorized personal vehicle while in the course and scope of their duties shall do so in accordance with their respective Duty Manuals and applicable policies and procedures relating to vehicle collisions or accidents. In all cases, accident reports involving city-owned equipment shall be provided to the City Manager’s Office.

V. Traffic and Parking Citations

Traffic and/or parking citations issued to a City employee while using a City or authorized personal vehicle on City business are the sole responsibility of the employee receiving the citation.

Travel & Reimbursement Policy

The purpose of The Employee Travel Policy is to provide guidelines for authorization of travel; and reimbursement and payment of travel expenses. This policy is not intended to cover short trips during work hours made by employees in the course of their regularly assigned work duties. In all areas, not just in economy pricing, officials and employees are responsible for exercising good judgement in requesting, arranging, and making a trip. Trips should be planned in advance if possible. Personal business should not be mixed with official business if it will cost the City anything in dollars or lost time, or if it will harm the City’s interest in any way.

- I. Traveler Accountability - The Travel Policy is in place to provide accountability to employees traveling for the purpose of benefiting the City. Travelers are responsible for ensuring compliance with this Policy, as may be amended from time to time.

How will you travel?

To drive a privately-owned vehicle on City business you must:

- Possess a valid California driver’s license.
- Carry liability insurance limits required by the City’s California Intergovernmental Risk Authority (CIRA).
- Realize that any damage to your car, needed service or repair occurring on the trip will be your responsibility, as these costs are included in the City’s per mile cost reimbursement.

If a car rental is required, you shall use a City credit card or request reimbursement when you return. Car rentals must have prior approval from the City Manager or his/her designee.

When will you travel?

You should schedule your trip so that you depart at the latest reasonable hour and still arrive at your destination on time. You should also return promptly when your business is finished, thereby minimizing the time away from work and ensuring full reimbursement of all related expenses.

Where will I stay?

The City will pay for a single room (including taxes and parking) for as many nights as necessary. The accommodations used should be clean, safe, economical but–practical. For example, it is preferable to stay at the hotel where a conference is held, even if that hotel may be slightly more expensive than others in the area. Location is also important; a hotel close to where you will be conducting business may be slightly more expensive than outlying hotels, but it may be easier to achieve the City’s travel goal by staying at closer location. In general, you should stay at the most reasonably priced accommodations available consistent with the purpose and goals of your travel. If you have a question about using a particular hotel, obtain concurrence or direction from your Department Head before making a reservation.

Should you make reservation?

Whenever possible, you should make reservations. They are often required for large conferences. You shall use a City credit card to confirm reservations. Be sure to cancel any reservations you will not use. If the City is charged for an unused reservation, you will be billed for that charge unless circumstances requiring cancellation were reasonably beyond your control.

II. Travel Authorizations

Travel authorizations (TA’s) are required approval of Department Heads, and out of state travel requires the further approval of City Manager or his/her designee. Department Heads approving travel authorizations are responsible for determining that the cost is reasonable and justified by the trip’s purpose. They should be certain that:

- a. The purpose cannot be accomplished by mail or telephone.
- b. The seminar, meeting or conference is necessary to accomplish key City goals and objectives and is unavailable locally if overnight accommodations are required.
- c. The minimum number of City staff members are going.
- d. The itinerary ensures accomplishment of the purpose at the lowest reasonable cost.
- e. The traveler understands and follows these guidelines.
- f. There is adequate funding in the appropriate travel budget to cover the costs.

Ultimately, the responsibility for following these guidelines and exercising good judgment in the use and stewardship of the City’s resources rest with each City employee traveling on City business.

Requests for Payments to Vendors

The City will pay all legitimate expenses of your trip. These include transportation, lodging, registration fees, meals and any other related expenses if they are for official business and fit within these guidelines.

In advance booking payment for transportation, e.g. airfare, City authorized credit card shall be utilized for the transaction. Each department director has been issued a credit card. Credit cards are issued pursuant to the City Purchasing Policy#89.

Direct vendor payments are made by the City to an organization to pay for specific costs related to a trip (usually registration fees) through Accounts Payable.

To obtain either direct vendor payments you must complete the appropriate sections of the TA (Exhibit B) and attach payment requests for all payments.

III. Making The Trip

There are two key “golden rules” to remember about making an official trip:

- a. Keep it official.
- b. Keep records for all expenses.

Keeping It Official

If you take time away from official business for personal matters, or if you delay your return after completing your business, you will not be reimbursed for expenses incurred during that time. When combining business and personal travel in this manner, Department Head approval is required. If this extended period occurs during your regular scheduled work hours, the time will be counted as vacation, comp time (if available) or leave without pay.

Keeping Records for All Expenses

As discussed below under Accounting for Expenses, you must maintain a detailed record of all expenses incurred during your travel: meals, transportation, lodging, baggage handling, parking fees, registration fees, telephone and any other reasonable and necessary expenses. It is important to save receipts to be able to claim for reimbursement. Unless otherwise approved by the City Manager or his/her designee, payments will not be issued for reimbursement requests without receipts.

Meal Allowances:

Employees traveling on official City business are eligible for reimbursement of meal expenses in accordance with the U.S. General Services Administration (GSA) Meals and Incidental Expenses (M&IE) per diem rates.

Daily Allowance

- The current standard daily meal allowance for 2025 is \$86, which includes breakfast, lunch, dinner, and incidental expenses.
- This rate is subject to change annually based on the GSA’s published rates. Current rates can be found on the <https://www.gsa.gov/travel/plan-book/per-diem-rates>.

Partial Day Allowance

For travel days that do not span a full calendar day, the following breakdown applies (based on the current \$86 standard rate):

- Breakfast: \$22
- Lunch: \$23
- Dinner: \$36
- Incidentals: \$5
- First and Last Day of Travel*: 75% of the daily rate = \$64.50

*The "First and Last Day of Travel": 75% of the daily rate = \$64.50 means that on the first and last days of a business trip, employees are typically eligible to receive only 75% of the full daily per diem rate for meals and incidental expenses. Therefore, the standard daily rate is \$86.00, then: 75% of \$86.00 = \$64.50

This reduced rate accounts for the fact that employees may not need a full day's worth of meals on travel days (e.g., if they leave after breakfast or return before dinner). It's a standard practice based on GSA guidelines to ensure fair and consistent reimbursement.

Reimbursement Requirements

Reimbursement is contingent upon submission of:

- Itemized receipts for all meal expenses
- A copy of the conference or travel agenda
- A completed expense report upon return

Restrictions

- Alcoholic beverages are not eligible for reimbursement under any circumstances.
- If meals are provided by the event, hotel, or common carrier, the corresponding meal allowance will not apply.

Alcoholic Beverages

City funds should not be used to purchase alcohol or reimburse employees for alcohol related costs. The Council or City Manager or his/her designee may approve exceptions to this policy on a case-by-case basis for special receptions or other unique circumstances. This discretion applies primarily to non-travel related expenditures such as special receptions, and not to routine travel or meetings by City employees.

Spouses and Guests

Spouses and guests may accompany you on City travel and at conferences, seminars and meetings. However, any additional costs associated with the participation of your spouse or guests are your responsibility.

IV. Accounting for Expenses

When you return from your trip or official function, a final accounting of all expenses must be approved by your Department Head and submitted to Finance within ten working days. An expense report is always required.

The final accounting is made by completing the Expense Report (Exhibit B). After completing the expense report, you should attach required receipts, sign the report attesting to its accuracy and submit it to your Department Head for review and approval.

Department Heads approving expense reports are responsible for ensuring that:

- All expenses are reasonable, necessary and consistent with these guidelines.
- Any required receipts are attached.
- The final disposition is correct.
- Final accounting of all expenses is submitted to Finance.

Upon approval by the Department Head, the expense report should be forwarded to Administrative Services along with a claim for payment to you; the reimbursement will be processed in accordance with the Accounts Payable calendar.

Exhibit A

**AUTHORIZATION TO USE PRIVATELY OWNED AUTOMOBILES
ON CITY OF SEBASTOPOL BUSINESS**

I. CERTIFICATION

In accordance with City policy, approval is requested to use a privately-owned automobile on official City business.

I hereby certify that, whenever I drive a privately-owned vehicle on City business, the vehicle shall always be:

1. Covered by liability insurance for the minimum amount prescribed by the city: \$100,000 per person Bodily Injury; \$300,000 per accident Bodily Injury; \$100,000 per accident Property Damage or \$300,000 Combined (Bodily Injury and Property damage) single limit.
2. Adequate for the work to be performed.
3. Equipped with seat belts.
4. To the best of my knowledge, in safe mechanical condition.

I further certify that while using a privately-owned vehicle on official City business, I will follow all federal, state, and local laws, including distracted driving. I will certify that I will not engage in any activity that diverts my attention from driving, including talking or texting on my phone, eating and drinking, talking to people in my vehicle, adjusting my stereo, entertainment or navigation system or anything that takes my attention away from the task of safe driving. I understand that I will be subject to disciplinary action, up to and including dismissal, if this not followed. I certify all accidents will be reported to my supervisor and law enforcement within twenty-four (24) hours.

Name of Insurance Company: _____

Policy Number: _____

I possess a valid California driver's license. Driver's License No. _____

I understand that permission to drive a privately-owned vehicle on City business is a privilege which may be suspended or revoked at any time.

City Council Policy

CITY BUDGET COMMITTEE (STANDING COMMITTEE)

Budget Process

PURPOSE:

Once a year, the City Council approves a budget that outlines the policies and fiscal actions to be taken by the City. The Budget Committee is a standing committee that reviews the proposed operating and capital budget each fiscal year and makes a recommendation on the budget to the City Council for final enactment. The budget process is structured each year to achieve the fiscal and policy goals for the upcoming fiscal year as well as periodically review and provide policy guidance to staff related to budgetary analysis and fiscal action plans and provide reports to the City Council for review and or action.

This committee shall consider and make recommendations to the Council on matters relating to:

- Revenues
- Expenditures
- Capital Improvement projects
- Fiscal Planning and Policies;
- Taxes and Fees;
- Investment Policy;
- Debt; and
- Such related fiscal issues as may be referred to it by the Council.

COMMITTEE MAKE UP:

The Budget Committee shall consist of the following:

- Two Councilmembers appointed by the City Council through Council Committee Assignments
- City Manager
- Assistant City Manager/City Clerk
- Administrative Services Director

POSTING OF AGENDAS:

Whether or not a regular meeting schedule is adopted, an agenda shall be posted for each standing committee meeting not later than 72 hours before any meeting.

PUBLIC INVOLVEMENT:

Public involvement shall be encouraged in the annual budget decision-making process through Standing Committee meetings, public hearings, public outreach, and the dissemination of accessible information. Public participation efforts will allow the City to improve performance by identifying public needs, priorities and service delivery expectations. Increased public involvement will allow the City to be more responsive to community needs, thereby increasing the value that the public receives from City government.

ATTENDANCE BY COUNCILMEMBERS NOT ON THE COMMITTEE:

Members of the Council who are not members of a standing committee may attend any open and noticed meeting of a standing committee provided that they act only as observers. It is suggested that Members do not make any comments.

REQUESTS OF STAFF:

Standing Committee Councilmembers may request research from staff on new ideas to allow them to report back to the standing committee and if the standing committee supports the idea, the idea will be presented to City Council for direction or a vote.

BUDGET PROCESS:

The budgeting process has four parts. The budget is: 1) prepared, 2) approved, 3) adopted, and 4) executed.

A fiscal year begins July 1 and ends June 30. From February to June, every year, City staff, the Mayor and City Council work together to create a balanced budget by June 30, as required by law.

PROPOSED BUDGET COMMITTEE PROCESS:

1. The City administrative team will be responsible for producing an initial recommended draft Budget to submit to the Budget Committee. The administrative team will consist of the City Manager, Assistant City Manager/City Clerk, and Administrative Services Director.
2. Department Directors will submit departmental budgets each year to the Administrative Services Director upon established timelines.
3. Upon receipt of the departmental budget requests, the Administrative Services Director will prepare a draft budget document to be used for review by the City administrative team.
4. This team will meet with Department Heads as needed, consider departmental budgetary requests as appropriate, and complete any other steps needed to provide the Budget Committee with an initial recommended draft Budget. The initial recommended draft Budget will be accompanied by a written report to the Budget Committee, providing an overview of the budget, summarizing any specific challenges presented by that year's budget, summarizing changes made by the Team to Departmental budgets; and identifying any unresolved issues to be addressed by the Budget Committee. The information submitted to the Budget Committee will include any background information the City administrative team believes will be relevant to the Budget Committee's decision-making regarding unresolved issues to be addressed by the Budget Committee. This initial draft Budget submitted to the Budget Committee will include draft versions of all portions of the final Budget for the year. This step will be an internal City staff process to be completed before Budget Committee meetings begin.

The Budget Committee will receive the initial recommended draft Budget produced by the administrative team, and will meet to discuss the recommendations of the administrative team. The Budget Committee will not hold individual meetings with Department Directors unless specifically requested by the Budget Committee. The Budget Committee will rely on the internal City staff process to do the necessary research and analysis to support the recommendations in the initial recommended draft Budget, and will focus on reviewing that document as well as any other materials provided by the administrative team, and addressing any unresolved issues. The Budget Committee will review and revise the initial recommended draft Budget as needed, and will produce a final draft Budget to be presented to the City Council at a duly noticed public hearing for discussion, review, and approval.

In addition to the process above, the Administrative Services Director shall be responsible for:

1. Prepare a Budget Calendar for Fiscal Year Budget and take to City Council for approval
2. Request budget input from all Department Directors
3. Request budget input from Community Benefit Grant Applicants
4. Prepare a draft budget as listed above
5. Shall be responsible for publishing all the notices required by Government Statute.
6. Shall be responsible for monitoring budget expenditures during the budget year and notifying the Council of the need to make any budget changes required after adoption.

City of Sebastopol

COUNCIL POLICY

SUBJECT CITY COUNCIL CONFERENCES/TRAINING	RESO NO 6684-2025	POLICY NO 95	EFF DATE July 1, 2025	PAGE 1 of 2
---	-----------------------------	---------------------	---------------------------------	-----------------------

I. Purpose

The purpose of this policy is to establish clear and comprehensive guidelines for the allocation and management of travel funds for City Council members. This policy aims to ensure a fair and equitable approach to addressing the travel needs and expenses of all council members, promoting transparency and accountability in the use of public funds. By setting these guidelines, we strive to facilitate effective and efficient travel arrangements that support the council's work and responsibilities, while maintaining fiscal responsibility and integrity.

II. Annual Travel Budget

Each Council member will receive an annual budget as approved by the City Council and divided equally among all City Councilmembers to cover costs related to attending conferences, meetings, and training sessions. This budget will apply to travel within California and is designed to ensure that Council members can participate in essential events without financial barriers.

III. Out-of-State Travel

Any out-of-state travel or training requires prior approval from the City Council. This ensures that such travel is necessary and aligns with the Council's goals and priorities.

IV. Covered Expenses:

The annual budget will cover the following expenses:

- Mileage for attending meetings where the Council member serves as a city-appointed representative.
- Travel expenses including airfare, hotels, and transportation related to attending conferences or training.
- Other associated costs, such as registration fees or meals, where applicable. The total budget for each Council member will be inclusive of all these costs, ensuring comprehensive coverage of travel-related expenses.

V. Exceeding the Budget:

- If a Council member exceeds their allocated funding from the approved budget they must either cover the excess expenses themselves or formally request additional funding from the City Council.
- In rare cases, a Council member may voluntarily transfer their unused funds to another member, subject to approval by the Council at a publicly noticed meeting. This allows for flexibility and mutual support among Council members.

IN COUNCIL DULY PASSED this 1st day of July, 2025.

VOTE:

Ayes: Councilmembers Hinton, Maurer, Vice Mayor McLewis and Mayor Zollman
 Noes: None
 Absent: Councilmember Carter
 Abstain: None

FINANCIAL AND BUDGET TERMS GLOSSARY

Accrual in lieu – An arrangement where employees accumulate a certain benefit, such as leave or time off, but instead of taking the time off, they receive a payment for it. This often happens when an employee has earned more leave than they can use or carry over to the next period, and the employer compensates them financially for the unused time. It's like having a savings account for time off; if you don't use it, you get paid for it instead.

Adoption - formal action by the City Council, which sets the spending path for the fiscal year.

Adopted Budget - appropriations adopted by the City Council.

Adjusted Budget – appropriations to the adopted budget that have been modified to reflect changes in financial circumstances or priorities.

Allocation – designation of how much money to spend on a specific program or purpose and distributing the funding accordingly. Please note that this term is often used interchangeably with earmark and can have a different meanings for different people.

Appropriation - legal authorization given by the City Council to make expenditures and incur obligations using City funds.

Assessed Value - the valuation of real property established by the Property Appraiser as a basis for levying taxes.

Bond - a special type of “loan” that provides funding for capital projects. Local governments are prohibited from borrowing funds to cover standard operating expenses.

CAD/RMS – Computer Aided Dispatch/Records Management System. These are the systems that capture all data and information for calls that come into the police dispatch center. Additionally, all police reports and incidents are produced utilizing this system. It provides for tracking and archival retrieval and statistical analysis as well.

California Intergovernmental Risk Authority (CIRA) – Annually, the Redwood Empire Municipal Insurance Fund (REMIF) and the California Intergovernmental Risk Agency (CIRA), which are the City's self-insured joint powers authorities, manage the insurance claims, benefit programs, and risk management for member cities. The REMIF/CIRA Board Members, including Vice Mayor Zollman and Councilmember Hinton, establish a budget for insurance premiums for the participating cities in this collective.

Capital Improvement Program (CIP) – This refers to a 5-year program for capital expenditures to replace, maintain, and expand the City's infrastructure. This includes projects such as road improvements, water and sewer system upgrades, and building renovations. The program outlines the anticipated costs and the proposed funding sources for these projects. It's a critical component of the city's financial planning and budgeting process, ensuring that the necessary capital assets are in place to support city services and functions. Year 1 of the CIP is referred to as the “Capital Improvement Plan.”

Cost Allocation Plan - The enterprise funds (water and sewer) contribute to a portion of the City's administrative costs, which are supported by the General Fund. These administrative costs encompass departments such as Finance, City Manager, City Clerk, HR, among others. The City has recently revised the methodology used to calculate these payments.

Debt Service Budget - the debt service budget is money used to repay bond issues.

Direct Cost – These are expenses that can be directly attributed to a specific product or service which may include costs like raw materials, and labor expenses that are directly involved in supporting an operation. In the context of the City's budget, direct costs would refer to specific expenses that are directly associated with a particular department or service, rather than general administrative costs which are spread across multiple departments. For example, the cost of materials used by the Public Works Department for road maintenance would be a direct cost. However, the City's recent Cost Allocation Plan focuses on the recovery of central support costs, commonly referred to as overhead, and does not include the direct allocation of certain shared expenses.

Earmark – refers to funds within a budget for a specific purpose, project, or program. This process involves designating money to be spent on particular items or activities. Earmarks are typically used to ensure that certain projects receive funding for the intended purposes.

EOC – Emergency Operations Center. During an emergency, an activation occurs and assigned staff report to the Police Department which is the official location of the center. Assigned personnel are assigned to different functions to allow for organized tracking, management, resource allocation and planning for the event. Sections include Logistics, Planning, Finance, Operations, and sub-branches such as law, fire, EMS.

EMS – Emergency Medical Services. This term covers services provided by first responders including police and fire, paramedic and ambulance services. It is used broadly to specifically refer to paramedic, ambulance, and medical providers such as clinics and hospitals as part of the EMS system.

Enterprise Fund – the funding source for city agencies that are self-supporting, such as resource recovery facilities and water and wastewater facilities.

Fiscal Year - the 12-month financial period in which funds are appropriated and accounted for by the City, which begins July 1 and ends June 30 of the following year. A fiscal year is identified by the year in which it ends.

Fund - monies set aside and accounted for separately in order to ensure that the monies are spent for a specific purpose.

Fund Balance - the balance remaining after accounting for all liabilities and revenue incurred during that year, plus the previous year's fund balance. It is calculated at the end of each fiscal year.

Health in lieu - Employees who opt out of the city-provided health plan are entitled to a "cash in lieu" benefit, which is a monetary amount provided to the employee instead of health insurance coverage.

Mandated Service - required by State, Federal, County law, health and safety code of California, contractual obligations, legal and tort liabilities.

MOU - Memorandum of Understanding. A labor contract pursuant to state, law, the Meyers, Millias and Brown Act, between the City and a labor union or organized group of employees under which all conditions of employment are negotiated.

Non-Departmental Budget - The purpose of the Non-Departmental account/program is to record expenditures for those items that are not directly associated with any one department or operating budget, but to the City as a whole. Non-Departmental operating expenses include, personnel payout cost (per MOUs provisions), unfunded accrual liability, retiree medical contributions, and transfer out to assigned reserve.

Operating Budget - a plan of financial operations that provides a basis for the planning, controlling, and evaluating the operational portion of governmental activities. The operating budget supports ongoing services and programs.

Property Tax base – total value of land and property upon which a taxing authority can levy taxes. The tax base is often different from the total property value in any area because some types of property, like schools and government facilities, are exempted from property taxes.

Revision - changes to an existing budget typically to better reflect current financial realities and priorities. This can involve in adjusting revenue and expense projections, or incorporating new financial information. Please refer to Financial Policy.

SoCo ISD IJS – Sonoma County Information Systems Integrated Justice Systems. This is a countywide enterprise case and records management system that supports county justice partners, law enforcement, state and federal agencies through a centralized data repository on a 24/7 basis. The system allows for real time information sharing with the district attorney, courts, and law enforcement agencies regarding criminal case status, warrant entries, wanted persons and criminal history.

Unfunded Accrued Liability (UAL) – It is the gap between the future money needed for employee benefits, like pensions, and the funds currently saved for them. It's the difference between the total amount that should be paid to employees after retirement and the actual savings available. The difference between the estimated cost of future benefits and the assets that have been set aside to pay for those benefits.

Transfer - moving funds from one budget category or line item to another within the same budget. This can be done to address changes in priorities, unexpected expenses, or to better align resources with current needs. Transfers are typically subject to certain limitations and may require approval from relevant authorities such as City Council. Please refer to Financial Policy.

Fund Structure Chart

City of Sebastopol Fund Descriptions

Fund Type	Fund #	Restricted?	Fund	Fund Description	Responsible Department
General	100	Unrestricted	General	The General Fund is the primary operating fund of the City and is used to account for most day-to-day activities. Revenue sources include (but are not limited to) property tax, current fees for services and business registration.	**ALL DEPARTMENTS**
	103	Assigned	Building, Facilities & Infrastructure	This fund should be established and maintained in a manner similar to an Internal Service Fund, which accounts for centralized service costs. Charges from this fund will appear as an expenditure in the user department and as revenue in the central service department. This will facilitate the timely replacement of the City's owned fixed assets.	<u>Lead Department:</u> Administrative Services <u>Contributing Department:</u> Police Public Works
	104	Assigned	Equipment Technology & Vehicle	This fund should be established in a manner similar to an Internal Service Fund, which accounts for centralized service costs. Charges from this fund will appear as an expenditure in the user department and as revenue in the central service department. These funds should be set aside for the proper funding of equipment, technology, and vehicle replacement.	<u>Lead Department:</u> Administrative Services <u>Contributing Department:</u> Police Public Works
	105	Assigned	Pension & OPEB	A Section 115 Trust was established to prefund pension or other post-employment benefits (OPEB) liabilities. The trust is designed to help the City set aside funds to meet its future pension or OPEB obligations. The funds in the trust are invested, and the earnings on those investments can be used to help pay for the entity's pension or OPEB liabilities.	<u>Lead Department:</u> Administrative Services
	120	Restricted	Tree Replacement Fund	This fund is used to remove and replace trees along City streets and City-owned properties (excluding parks). It is primarily funded by tree deposits that have been forfeited.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Public Works
	122	Restricted	Building Permit Technology Fund	Land use type permits including use permits, special events, grading, building and fire permits are collect at the issuance. Fee will be used to maintain the permitting system, property information and homeowner data website and other associated costs	<u>Lead Department:</u> Building <u>Contributing Department:</u> Planning
	123	Restricted	Street Pavement Reserve	An annual transfer of residual balance from the Special Sales Tax Fund 124 to the Street Pavement Reserve Fund 123 for maintenance of a range of services including public safety, street and road maintenance and repairs, flood maintenance, park and open space maintenance, and other general community services	<u>Lead Department:</u> Administrative Services <u>Contributing Department:</u> Public Works
	125	Restricted	Vehicle Abatement	Funds collected per County Resolution 94-1207, the funds are collected by the DMV and distributed to participating cities. The funds are to be used for the removal and disposal of abandoned vehicles.	<u>Lead Department:</u> Police
	126	Restricted	Tobacco Management Program Fund	Funds received on a reimbursement basis through a grant from the Department of Justice (DOJ) as a result of the passage of California Healthcare, Research & Prevention Tobacco Tax Act of 2016 (Prop.56)	<u>Lead Department:</u> Police
	127	Restricted	Flood Mitigation Fund	Assemblymember Mark Levine has awarded the City with \$1.5M in Flood Relief Funds to assist with repairs for flood-related damages.	<u>Lead Department:</u> Administrative Services <u>Contributing Department:</u> Public Works
	128	Restricted	Police Endowment Fund	Upon Joanne Marion passing, a local citizen has generously donated her retirement fund, estimated at around \$423,000, to support the police department's various needs. This generous donation provides a significant financial boost, allowing the department to allocate resources where they are most needed.	<u>Lead Department:</u> Police

City of Sebastopol Fund Descriptions

Fund Type	Fund #	Restricted?	Fund	Fund Description	Responsible Department
Enterprise	500	Restricted	Water Operating	The Water Fund accounts for the provision of water services to residents and businesses of the City. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing, billing and collections.	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Administrative Services
	501	Restricted	Water Capital	The Capital Improvements Fund accounts for City-wide construction and improvements specifically paid for through the proprietary funds	<u>Lead Department:</u> Public Works
	502	Restricted	Water Connection Fee	The fee is meant to offset the financial impact a new development places on public infrastructure.	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Building
	510	Restricted	Sewer Operating	The Sewer Fund accounts for the provision of sewer services to residents and businesses of the City. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing, billing and collections. Treatment services are provided by Santa Rosa Subregional Partner	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Administrative Services
	511	Restricted	Sewer Capital	The Capital Improvements Fund accounts for City-wide construction and improvements specifically paid for through the proprietary funds	<u>Lead Department:</u> Public Works
	512	Restricted	Sewer Connection Fee	The fee is meant to offset the financial impact a new development places on public infrastructure.	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Building
	200	Restricted	Gas Tax	The Gas Tax Fund accounts for the construction and maintenance of the street system in Sebastopol. Financing is provided by the City's share of state gasoline taxes allocated to cities from the State in accordance with the Streets and Highways Code	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Administrative Services
	201	Restricted	Measure M - Road Maintenance	The County Measure M Fund accounts for the half-cent County sales tax revenue restricted for local transportation improvement projects. This allocation ends in March 2025 and being replaced with Go Sonoma (Fund 241)	<u>Lead Department:</u> Public Works
	202	Restricted	Measure M - Parks	The County Measure M Fund accounts for the half-cent County sales tax revenue restricted for local park improvement projects	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building Public Works
	203	Restricted	Art in Lieu	The Art in Lieu fund accounts for developer contributions in lieu of installation of public art on project sites and income received from art programs and events to fund public artwork, cultural programs, maintenance/conservation, and administrative costs relating to the Art in Public Places Program.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building
	204	Restricted	Housing Linkage Fund	The Housing Linkage Fee Fund is used to mitigate the housing impacts caused by new, changed and expanded nonresidential development in the City and provide a source of revenue for housing affordable to person of very low and low income.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building
	205	Restricted	Inclusionary Housing Fund	The Inclusionary Housing Fund accounts for revenue received from fee payment to be used for the exclusive purpose of providing housing affordable to low and moderate income households in the City for construction of five or more new dwelling units, or for the division or subdivision of land into five or more lots for residential use.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building
Special Revenue	206	Restricted	Building Permit Incremental Fee Fund	The Building Permit Incremental Fee Fund accounts for revenue received from construction inspection and plan checks to fund training, certification exams and courses.	<u>Lead Department:</u> Building
	207	Restricted	Business Improvement District	Business Improvement District was established via ordinance 666 and shall include all businesses located within the area described in Exhibit A. The revenues derived from taxes imposed upon all the businesses in the area shall be utilized for acquisition, construction or maintenance of parking facilities, decoration of any public place, promotion of public events which are to take place, furnishing of music in any public place and general promotion of retail trade activities for the benefit of the area.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Administrative Services

City of Sebastopol Fund Descriptions

Fund Type	Fund #	Restricted?	Fund	Fund Description	Responsible Department
	208	Restricted	General Plan Update Fee	General Plan Update Fee Fund is assessed on Building Permits and is designed to help recover the significant long-term costs of periodically updating the General Plan and Zoning Ordinance. The Fund is typically used for consultant and other costs related to updates.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building
	209	Restricted	Supplemental Law Enforcement Services Fund	The Supplemental Law Enforcement Services Fund receives funds from the State of California to supplement local law enforcement activities	<u>Lead Department:</u> Police
	210	Restricted	Asset Forfeiture Fund	The Police Seized Assets Fund accounts for properties seized by the Police Department during the normal course of police operation	<u>Lead Department:</u> Police
	211	Restricted	Transportation Grant Fund	The Transportation Grant Fund is a financial resource allocated to support transportation-related projects and initiatives. This fund is typically used to finance the development, improvement, and maintenance of transportation infrastructure, such as roads, bridges, public transit systems, and pedestrian pathways. The goal of the fund is to enhance the overall transportation network, improve safety, and promote sustainable and efficient transportation options.	<u>Lead Department:</u> Public Works
	212	Restricted	Park in Lieu Fee Fund	The Park Improvement Fund receives revenue from new residential and hotel development to mitigate the impact of such new development on City park and recreational facilities. The use of revenues from the Fund is restricted to park and recreational capital improvements.	<u>Lead Department:</u> Planning <u>Contributing Department:</u> Building Public Works
	213	Restricted	Traffic Impact Fee Fund	The Traffic Impact Fee Fund was established to reduce the traffic impacts caused by new development within the City limits and certain public improvements (transportation system infrastructure) and revenue collected from these fees shall be used solely to pay for the City's future construction of facilities or services or reimburse the City for facilities constructed by the City with funds advanced by the City from other sources.	<u>Lead Department:</u> Planning
	214	Restricted	Underground Utilities Fee Fund	The Underground Utilities Fee Fund is an in-lieu fee paid by development projects where the City Engineer has determined physical undergrounding of overhead utilities is not practical. The Fund is used for general City utility undergrounding projects.	<u>Lead Department:</u> Planning
	215	Restricted	Street Lighting Assessment District	Funds collected per CA act 1972, funds are collected through annual parcel assessments and used for the operation and maintenance of the Citywide street light system.	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Administrative Services
	216	Restricted	Community Development Block Grant	Community Development Block Grant funds communities with resources to address a wide range of unique community development needs such as affordable housing, anti-poverty programs and infrastructure development.	<u>Lead Department:</u> Public Works
	217	Restricted	Road Maintenance & Rehabilitation (SB1)	The Road Maintenance & Rehabilitation fund accounts for funds from the State of California under Road Repair and Accountability Act of 2017. The use of funds is similar but, not identical, to Gas Tax use rules and must be used for projects related to road maintenance and rehabilitation, safety projects, and traffic control devices.	<u>Lead Department:</u> Public Works <u>Contributing Department:</u> Administrative Services
	218	Restricted	Park Land & Development Fee	Fees collected from development projects. This fund is used for the acquisition of land and development of new park facilities and/or to add additional amenities at the City's existing parks that increase the capacity of the park.	<u>Lead Department:</u> Planning
	219	Restricted	Gen Government Facilities Fee	Fees collected from development projects. This fund is used to fund government facilities to maintain the existing level of service the City provides. As new development occurs, the City will be required to expand general facilities to maintain the existing standard.	<u>Lead Department:</u> Planning
	220	Restricted	Fire Facilities Fee	Fees collected from development projects. This fund is used to fund new fire facilities that are necessary to maintain the existing level of service the City provides.	<u>Lead Department:</u> Building
	221	Restricted	Stormwater Facilities Fee	Fees collected from development projects. This fund is used to fund new development's fair share of stormwater facilities that are necessary to mitigate the impacts of new development in the City.	<u>Lead Department:</u> Public Works

City of Sebastopol Fund Descriptions

Fund Type	Fund #	Restricted?	Fund	Fund Description	Responsible Department
	233	Restricted	Human Services & Community Fund	Human Services & Community Fund accounts for revenue obtained by the solicitation of voluntary contributions from residents and property owners through water and sewer bills and other means of collection or fundraising activities to fund programs or activities which address the welfare of the City's residents regardless of all age, social status or income.	<u>Lead Department:</u> Administrative Services
	240	Restricted	Police Grant Fund	Officer Wellness and Mental Health Grant Program established in the 2022 Budget Act (AB178, Chapter 45, Statutes of 2022 provides \$50 million for city and county law enforcement agencies for the purpose of improving officer wellness and expanding mental health sources. The funding may be used for any of the following purposes: Establishing or expanding officer wellness units. Establishing or expanding peer support units. Services provided by a licensed mental health professional, counselor or other professional that works with law enforcement. Expanding multiagency mutual aid programs focused on officer wellness and mental health. Other programs and services that are evidence-based or have a successful track record of enhancing officer wellness.	<u>Lead Department:</u> Police Department
	241	Restricted	Go Sonoma Roads (GSR)	Voters passed a measure in 2020 to extend Measure M (Roads) sales tax funding for an additional 20 years. Similar to Measure M (Roads), this fund is used for traffic and safety improvements, maintain roads, and build bikeways and pathways.	<u>Lead Department:</u> Public Works
	242-246	Restricted	Police Grants Funds	The Police Grants Fund accounts for grant activities and services paid and reimbursed by grant funding from Federal, State, County and local government agencies. These funds are designed for specific police services, activities and capital equipment. The current source of revenues is the Citizens Option for Public Safety or COPS grant used to augment public safety expenditures	<u>Lead Department:</u> Police
Internal Service	601	Unrestricted	Workers Compensation General Liability	The General Liability Fund covers the cost of the City's insurance policies and payments liability claims against the City. Revenue for this fund is derived from internal service charges to City departments	<u>Lead Department:</u> Administrative Services
