Dear Residents,

Over the next few months Public Works crews will be inspecting and flushing fire hydrants throughout the City. To ensure that hydrants are accessible for maintenance crews and emergency responders, we ask that property owners/residents clear all vegetation, or any other obstructions, within a 3-foot radius of hydrants located on, or adjacent to, their property.

Maintaining adequate clearance around hydrants is critical for public safety and allows firefighters to access them quickly and safely during emergencies. We appreciate your cooperation in helping keep our community safe.

Below is an example of a hydrant that is out of compliance and one that has been properly cleared.

If you have any questions regarding clearance around a hydrant, please contact the Public Works Department at (707) 823 – 5331 or citypw@cityofsebastopol.gov.

Thank you
