Subject: Cell tower
Date: Friday, September 11, 2026 12:03:08 PM

I protest putting a more powerful cell tower up
Above the library. I avoid using library because of the exciting tower. The people and children that use the library
are being impacted by the WiFi.. there is now scientific information proving it injures our brain.. go to
704nomore.org to get more information. Susan Bahl
