Subject: cell towers downtown

STOP THE PROPOSED CELL TOWER EXPANSION AT SEBASTOPOL CITY HALL

**Please say NO to more cell antennas on the cell tower at City Hall
End the lease with Crown Castle!**

The City Hall's 99 ft cell tower is a visual blight to downtown Sebastopol. Its continued presence severely constrains future expansion to the Senior Center, Library and City Hall. Crown Castle's lease payments would represent only a fraction of the decreased value of these key downtown properties caused by the continued presence of their cell tower. The City Hall cell tower is a dagger in the heart of downtown Sebastopol.

Plus, Sebastopol downtown area is already well-served by 67 sites within a 5 mile radius.

And, when can we expect to learn about what transpires at the closed session meeting today?

Thank you, Deborah L.S. Sweitzer
